Melanie A. Bachman, Esq.
State of Connecticut Siting Council
10 Franklin Square
New Britain, CT 06051

RE: Petition NO. 1415 – Greenskies Clean Energy, LLC petition for a declaratory ruling, pursuant to Connecticut General Statutes §4-176 and §16-50k, for the proposed construction, maintenance and operation of a 5.0-megawatt-AC solar photovoltaic electric generating facility on approximately 27 acres comprised of 4 abutting parcels located generally northeast of the intersection of Boombridge Road and Anthony Road and South of Interstate 95 in North Stonington, Connecticut and associated electrical interconnection.

Dear Ms Bachman,

As you are aware, on October 8, 2020, the Siting Council issued a Decision and Order in the above-referenced Petition stating that Greenskies Clean Energy LLC (“Greenskies”) had permission to construct its project in North Stonington. As part of that Decision and Order, Greenskies was required to submit to the Council four (4) pieces of documentation prior to the commencement of construction of the project. Those four pieces of documentation are:

- A copy of the DEEP Stormwater Permit;
- A copy of the final habitat report for state-listed vertebrate and plant species along with any DEEP-recommended mitigation measures;
- The final electrical design plans and interconnection route for the project; and
- The final structural design for the racking system, stamped by a Connecticut-licensed Professional Engineer.

With respect to the second bullet point regarding habitat reporting and protection of state-listed species, Greenskies provided that material to the Council on October 23, 2020, and the Council replied on October 27, 2020, informing Greenskies that this requirement had been satisfied.

With respect to the other three requirements (the DEEP Stormwater Permit, the electrical design plans and interconnection route, and the final structural design for the racking system, these

materials can all be found by accessing the following share file site:
<https://cfus.box.com/s/7tl7slxhv4tpnf8970xbab9wtyzszoyz>

Given that all of the required materials have now been submitted to the Council, Greenskies will begin its construction in accordance with the terms and conditions of the Council's October 8, 2020 Decision and Order.

Should you have any questions or concerns regarding these submissions, please contact the undersigned.

Sincerely,

Paul Chip Florio
Project Manager
