Dear Elsie,

My name is Christopher Ross and I am with Greenskies Clean Energy in Middletown, CT. Founded in 2009, Greenskies has constructed and operates over 230 Megawatts of solar projects throughout the country, however most of our work takes place right here in Connecticut.

I am reaching out to you because we are developing a 5 Megawatt ground-mounted solar array on Barber Hill Rd, owned by Mulnite Farms Inc. For reference, I have included a map of the project location. An integral part of our early stage development process is neighbor outreach. As an abutter to the project site, we would like to invite you to an informational workshop we will be hosting at 11 Rye St (Town Hall) on March 23rd from 6:00 PM to 8:00 PM.

Alternatively, please feel free to contact me at any time if you would like to discuss the project in over the phone or in person. Thank you for your time.
