Clayton Northgraves, Director of Emergency Telecommunications
State of Connecticut
Department of Emergency Services and Public Protection
1111 Country Club Road
Middletown, CT 06457

Dear Mr. Northgraves,

I am writing to support the application for the installation of a radio tower to be located at the State DOT Garage site located near exit 56.

The installation of a radio tower would greatly expand communications on the east side of town and would be a very valuable improvement for all of our public safety communications including Police, Fire, EMS and Public Works.

The East side of Branford has dead areas where our public safety radios are unable to reach our current receiver-repeater and transmitter sites. We have long planned to add a new system on the east side of town, the proposed location is perfect for our needs and makes the project affordable since we would be collocated with State equipment.

Thank you for your consideration.

Very truly yours,

James B. Cosgrove
First Selectman
