

BIOGRAPHY

Ali Weaver
Director, Project Development
Denver, Colorado

With Silicon Ranch since June 2016

ABOUT ALI: After receiving her bachelor's degree in Energy Management from the University of Oklahoma in 2013, Ali started her career working as a Surface Landman in Denver, Colorado for a large E&P oil and gas company, focusing on horizontal well development in urbanizing municipalities. After negotiating several agreements as a counterparty to Silicon Ranch, she left the oil and gas industry to bring her experience in holistic energy

development and jurisdictional permitting to the team.

During her tenure, Silicon Ranch has grown to a top twenty Independent Power Producer and attracted Royal Dutch Shell as a strategic investor to become its United States platform for solar development. Her primary focus is development in Connecticut, the Rocky Mountain Region, Pacific Northwest, and Tennessee Valley Authority, and she has also led the development efforts in California, Texas, and throughout the Southeast.

JOB RESPONSIBILITIES:

As Director of Project Development, Ali is responsible for all aspects of the project development process, including identifying and negotiating strategic land, mineral, and easement acquisitions, managing and executing site due diligence, and securing all regulatory permits necessary to support utility-scale solar development. With a veteran background in negotiating complex commercial transactions, Ali also leads Silicon Ranch's Project Acquisitions team and supports Business Development with creating tailored energy solutions for its commercial and industrial customers. In her five years at Silicon Ranch, Ali has transacted on and developed nearly a gigawatt of projects.
