

Matthew W. Brawley, PE

Senior Civil Engineer

Matt is a seasoned Civil Engineer with over sixteen years of civil design experience. He has worked on renewable energy projects in more than twenty-six states and in Canada.

EDUCATION

Bachelor of Civil Engineering,
Civil Engineering, Southern
Illinois University, 2003

REGISTRATIONS

Professional Engineer - Civil,
Ohio, #PE.85639, DEC-2021

Professional Engineer,
Kentucky, #27444, JUN-2021

Professional Engineer,
Tennessee, #121359, APR-
2022

Professional Engineer,
Connecticut, PEN.0035159,
JAN-2022

INDUSTRY TENURE

16 years

HDR TENURE

11 years

RELEVANT EXPERIENCE

Renewables Civil Lead - HDR

- Responsible for civil design of HDR's renewables portfolio across North America.
- Lead design projects with over 2GW of generating capacity.
- Specializes in 'solar optimization projects', which require tailored design solutions for land constrained projects to reduce overall disturbance.
- Trusted Owners Engineer performing project design reviews for both utilities and large private solar developers.
- Experienced with stormwater and erosion control design in the Northeast.

Senior Civil Engineer – HDR

- Designed various industrial civil site locations.
- Lead design efforts on multi-million-dollar design projects.
- Provide permitting support with the various state DEP, DOW and Army Corps of Engineers.
