Petition No. 299  
United Illuminating Company  
Woodmont Substation Battery Addition Project  
Milford, Connecticut  
July 18, 1994  
Staff Report

On July 15, 1994, Connecticut Siting Council (Council) staff members Robert K. Erling and Stephen M. Howard inspected the site of the completed modification at the United Illuminating Company's Woodmont Substation in Milford, Connecticut. The extension of the existing control/switchgear building for the addition of batteries at the substation was constructed as specified in the February 19, 1993, petition submitted to the Council.
