COVID-19 Update May 01, 2020

As of May 01, 2020, a total of 28764 cases of COVID-19 have been reported among Connecticut residents. One thousand five hundred ninety-two patients are currently hospitalized. There have been 2339 COVID-19-associated deaths.

Day-to-day changes reflect newly reported cases, deaths, and tests that occurred over the last several days to week. All data in this report are preliminary; data for previous dates will be updated as new reports are received and data errors are corrected. Hospitalization data were collected by the Connecticut Hospital Association. Deaths* reported to either the OCME or DPH are included in the daily COVID-19 update.

*For public health surveillance, COVID-19-associated deaths include persons who tested positive for COVID-19 around the time of death (confirmed) and persons whose death certificate lists COVID-19 disease as a cause of death or a significant condition contributing to death (probable).

National COVID-19 statistics and information about preventing spread of COVID-19 are available from the Centers for Disease Control and Prevention.

All data are preliminary and subject to change. Updated 5/1/2020.
Hospitalization Surveillance

The map below shows the number of patients currently hospitalized with COVID-19 by county based on data collected by the Connecticut Hospital Association. The distribution is by location of hospital, not patient residence. The labels indicate the number of patients currently hospitalized with the change since yesterday in parentheses.

Patients Currently Hospitalized by Connecticut County

Distribution by location of hospital not patient residence. Data from the Connecticut Hospital Association.

More information about hospitalized cases of COVID-19 in New Haven and Middlesex Counties is available from COVID-NET.
Characteristics of COVID-19 Cases and Associated Deaths

Test results may be reported several days after the result. Data are incomplete for most recent dates shaded in grey. Data from previous dates are routinely updated.

Number of COVID-19 Cases by Date of Specimen Collection
As of 05/01/2020 at 12:00pm

Number of COVID-19-Associated Deaths by Date of Death
As of 05/01/2020 at 12:00pm

All data are preliminary and subject to change. Updated 5/1/2020.
Counts may not add up to total case count because demographic data may be missing.

Number of COVID-19 Cases by Age Group
As of 05/01/2020 at 12:00pm

Number of COVID-19-Associated Deaths by Age Group
As of 05/01/2020 at 12:00pm

All data are preliminary and subject to change. Updated 5/1/2020.
Counts may not add up to total case count because demographic data may be missing.
