## **History**

***Connecticut Department of Veterans Affairs is the nation's first and longest operating state Veterans home.***

*Connecticut has the distinction of being the first state in the Nation to have a home dedicated to Veterans. Benjamin Fitch, a wealthy Connecticut businessman, promised Soldiers serving in the Civil War a place to call home when they returned from battle. A man of his word, the Fitch's Home for Soldiers and their Orphans was opened in 1864 and is currently incorporated into the Connecticut General Assembly.*

*In 1940, the home was moved to its current location in Rocky Hill and with each succeeding period of war, new generations of Veterans presented unique needs and hardships, which required the development of a comprehensive system of health care and social and rehabilitative services. In order to better serve these and future generations of Veterans, the Connecticut General Assembly created the Department of Veterans Affairs (DVA) in 1987. Today the DVA provides Connecticut's nearly 200,000 Veterans with four core services: (1) Long-term and Chronic disease Healthcare Center, (2) Residential Facility with Rehabilitative Programs and Services, (3) Cemetery and memorial services with cemeteries in Darien, Rocky Hill, and the State Veterans Cemetery in Middletown; and (4) Office of Advocacy and Assistance with Veteran Service Officers located in each Congressional District to help Veterans navigate services and benefits they have earned.*

## **Mission**

***"Serving Those Who Served"***

***Enhance the lives of Connecticut's Veterans by providing:***

***Advocacy and assistance to Veterans, their spouses or eligible dependents in obtaining benefits to which they may be entitled to under federal, state, and local laws; long-term and chronic disease healthcare; and cemetery and memorial services for Veterans and eligible dependents.***

***Collaborate with local, state, and federal agencies, Veteran service organizations, community partners, volunteers, and Veteran supporters.***

***Cultivate a work environment of compassion, teamwork, professional development, and employee engagement.***

## **Vision**

*Provide Connecticut's Veterans and their dependents proactive, world-class, and values-based service excellence.*

## **Public Service**

### **The Office of Advocacy and Assistance**

The Office of Advocacy and Assistance (OA&A) is responsible for assisting veterans and their

families in accessing federal, state and local benefits and entitlements. Veterans Service Officers, accredited by the U.S. Department of Veterans Affairs, assist veterans and their families with documentation and filing of claims for disability, compensation and/or pension. Staff offices are located in each of the five Congressional Districts (Bridgeport, Waterbury, Milford, Newington and Norwich) and include bilingual staff and a woman's veterans' services coordinator. Additional advocacy work is performed throughout the state on a staff available, rotating basis at satellite office locations and through numerous outreach events (Job/Senior and Health Fairs throughout the state). Veterans Service Officers also conduct interviews in skilled nursing facilities throughout the state to determine the number of veterans admitted and ascertain which benefits these veterans are currently receiving and/or entitled to receive.

This year OA&A serviced 2,454 walk-in veterans and/or dependents; answered over 29,611 telephone inquiries; acquired 938 new clients and filed 1200 new claims and reopened hundreds of existing claims. Special outreach included 81 community outreach events including benefit fairs, seminars, and numerous "Yellow Ribbon" briefings for Connecticut National Guard and Reserve Units prior to, and immediately upon returning from deployment. These advocacy efforts resulted in over \$2.3 million in new income and benefits to Connecticut veterans and their families.

In Fiscal Year 2017-2018, the Office of Advocacy and Assistance also reviewed the eligibility status of more than 1000 veterans and/or dependents of veterans in the state's 344 skilled nursing homes and assisted living facilities. These benefits have provided a direct savings to the state where the clients are Medicaid recipients and in other cases served to delay the time when clients may be forced to rely on state funded services.

OA&A also manages the Connecticut Wartime Service Medals and Registry program and this year awarded over 1,125 additional medals – bringing the total number of Wartime Service Medals awarded to eligible veterans since 2006 to over 40,000 recipients. The agency has helped coordinate and support over 30 award ceremonies across the state enabling veterans to be presented their medals in person. Currently there are over 300,000 veterans registered with the Connecticut Veterans electronic registry.

OA&A manages the Veterans Identity on the CT Driver's License Program. The office is responsible for verifying the service of the CT Veteran and transmitting that information to the CT-Dept. of Motor Vehicles. Since the inception of the program in January 2013, more than 12,000 applications have been processed by this office.

OA&A provides training for all town, city and municipal veterans representatives. This program provides a single source point of contact in the veteran's hometown to act as a liaison for veteran's benefits and services. To date, more than 130 towns have appointed a veteran's representative and nearly 175 volunteers have completed a benefits training seminar since the training was first offered in Oct 2012.

The Connecticut Veterans INFO line (1-866-9CT-VETS) continues to receive an average of 30 calls per day.
