SPECIAL OFFERING

A unique training opportunity for a limited number of code officials.

Mixing Water with Electricity— Checklist Approach to Inspection

April 30, 2019 | East Hartford Community Cultural Center | 9:00 a.m.—12:00 p.m.

May 7, 2019 | Gardner Lake Fire Department, Salem | 6:00 p.m.—9:00 p.m.

May 14, 2019 | Yale West Campus, Grace Murray Hopper Auditorium, West Haven | 9:00 a.m.—12:00 p.m.

May 22, 2019 | Watertown Fire Department | 6:00 p.m.—9:00 p.m.

Space is limited. Registration Deadline is April 12, 2019.

WHO SHOULD ATTEND:

This three-hour training is open to building code enforcement officials. Select a time and location convenient for you.

TRAINING OVERVIEW:

This seminar will focus on the critical electrical concerns related to recreational bodies of water, and will detail the **2017 National Electrical Code** portion of the 2018 State Building Code with emphasis on Article 680 as pertains to recreational and therapeutic bodies of water. A brief review of Electrical Code pool specific definitions will transition to general requirements for electrical installations proximal to water containment. The specific electrical issues related to pools, spas, hot tubs, and hydro-massage tubs will be reviewed, and bonding requirements will be detailed for the various installations.

This seminar will provide participants with a checklist to ensure that vital inspection points are viewed. Please note that a PowerPoint presentation will **NOT** be available for this class. The downloadable checklist will serve as both a class guide and a field inspection guide. The **2017 National Electrical**

Code portion of the 2018 State Building Code is a suggested resource for the class.

THE PRESENTER:

Tim Mikloiche, BO, EI, E-1, Master Electrician, has more than 30 years of experience in the electrical industry. He holds a degree in Electro-Mechanical Engineering Technology, and founded Electrical Training Services LLC, where he provides continuing education classes for Building Officials, Real Estate Professionals, Home Inspectors, and Electricians.

His work experience includes all phases of commercial and residential development, building inspection, plan review, municipal engineering and consulting. Tim serves on Code Making Panel 3 for the 2020 National Electrical Code, and is 2nd Vice Chair of NFPA's Electrical Inspector Member Section Executive Board.

CEUs:

Participation in the entire training is worth 3 hours of OEDM continuing education credits.
