Subject: CHANGES TO CT STATE FIRE SAFETY CODE

Effective today, we have gained final approval of our amendment to the provisions of the 2005 *CT State Fire Safety Code with the 2009 Amendment*. The purpose of this amendment is to delete Part V, *Maintenance and Operational Issues*, thus enabling more portions of the 2010 CONNECTICUT STATE FIRE PREVENTION CODE. This change was necessary because of Section 29-291a-2 of the Fire Prevention Code which results in Part V of the Fire Safety Code superseding the many of the provisions of the Fire Prevention Code.

In essence, this change energizes many portions of the STATE FIRE PREVENTION CODE which could not be used because they were duplicated in the Fire Safety Code. This change will also allow expanded use of the citation section of the Fire Prevention Code as found in Section 29-291a-10. A copy of the amendment is attached.

Any questions on this issue can be directed to Terry Brouwer in the OSFM at 860-685-8350 or by E-Mail to terry.brouwer@ct.gov.

I would ask that you pass this along to other interested persons as appropriate.

Statement of Purpose

With the adoption of the Connecticut State Fire Prevention Code, a Regulation of Connecticut State Agencies adopted under the authority of section 29-291a of the Connecticut General Statutes, numerous provisions of the Connecticut State Fire Safety Code were included in that regulation, which enhanced the enforcement abilities of the fire marshal community. This technical revision to the Connecticut State Fire Safety Code eliminates duplication and confusion over applicable requirements.
