

IPV – Fair

Program Overview

IPV-FAIR Model is a comprehensive response to families impacted by intimate partner violence (IPV). The model is a combination of home based and clinic based services. It is strength and ecologically focused with safety being the highest priority while assessing and addressing the needs of each family member. IPV-FAIR will engage all members of the family. The model will offer/refer individual, group, family, and/or support interventions for the family based on assessed needs and will provide services/linkages for the children affected by IPV to adequately address trauma.

Target Population

Families involved with DCF Child Protective Services who are impacted by IPV and have caretaking responsibilities for a child or children. It addresses families where the children remain in the home or are placed out of the home with a goal of reunification.

Length of Service

FAIR is a 4 – 6 month intervention engaging all family members.

Program Coverage and Providers

IPV FAIR is available to families statewide through geographically dispersed teams at different agencies. Each team covers a region of surrounding towns. Choose the team closest to your location.
