### Victim/Witness Statement of: Officer James Boulay

Approximately half way into the parking lot between Washington Avenue and Fairfield Avenue is when Patrol Officer Pecirep turn on our marked patrol car's overhead lights and sirens to conduct a motor vehicle stop on the blue Subaru Forester ("Suspect motor vehicle".) The Suspect motor vehicle disregarded our signal to stop and increased speed, traveling down the parking lot towards Fairfield Avenue. The Suspect motor vehicle made a left hand turn onto Fairfield Avenue (a one way street), heading into on-coming traffic. In making this left hand turn onto Fairfield Avenue, the Suspect motor vehicle was traveling the wrong way down a one way street. Officer Pecirep continued down the parking lot and stopped our patrol car at the edge of Fairfield Avenue. There were multiple cars stopped at the red light on Fairfield Avenue.

I exited my patrol car at this time because I did not believe the suspect motor vehicle could continue any further on Fairfield Avenue due to traffic. As I exited my patrol car, I drew my service weapon as this was a felony motor vehicle stop. I ran up to the suspect motor vehicle on the driver side using the "A-Pillar" as cover and pointed my service weapon towards the suspect motor vehicle. I stated multiple times in a clear and loud voice, "STOP THE CAR, GET OUT OF THE MOTOR VEHICLE." At this point the operator, attempting to escape, accelerated the car past me striking the motor vehicle in front of him. At this time I was positioned at the "C-Pillar" of the suspect motor vehicle. Directly in front of me, approximately 2 to 3 feet away, was the left rear tire of the suspect motor vehicle. Because the operator (suspect) was using his car in a dangerous manner, putting other people's lives in danger by striking other motor vehicles in an attempt to escape, I decided to fire my service weapon multiple times towards the ground into the left rear tire. I believe I fired two rounds at the vehicle's left rear tire.

Once I saw the tire deflate, I ran up and attempted to open the driver door, thinking that the motor vehicle was disabled. I was able to open the driver door and put my back against the door so I was facing the driver. With my service weapon pointed at the driver I, again in a loud and clear voice, stated multiple times, "GET OUT OF THE CAR AND SHOW ME YOUR HANDS." After repeating my commands multiple times, and realizing that the operator (suspect) was not complying, I attempted to pull the suspect out of the motor vehicle. The suspect at this time pulled away from me and leaned towards the passenger side, almost sitting on top of the center console. I continued to grab the suspect in attempt to gain control and pull him away from the car that he was using as a dangerous weapon.

### Victim/Witness Statement of: Officer James Boulay

The suspect continued to resist my commands to comply and exit the vehicle. The suspect driver was sitting on top of the center console, when he reached over and put the motor vehicle in reverse, and then stepped on the gas pedal. The engine of the motor vehicle started to rev, and the motor vehicle was moving in reverse towards my paulol car quickly. I grabbed hold of something inside the motor vehicle to keep from going under the motor vehicle. As the motor vehicle continued in reverse, I was getting dragged and pulled under the door and under the motor vehicle. I noticed as I glanced back towards the rear of the motor vehicle the front of my patrol car coming at me. Unable to move because I was being dragged by the suspect motor vehicle, I feared for my own life and knew that as I was losing my footing. I decided to fire my service weapon multiple times into the front driver side, aiming at the operator of the motor vehicle in order to stop him from pushing the gas pedal. I knew that since I was losing my footing, if I did not stop the driver I would be scriously harmed by the vehicle. After I fired my weapon the vehicle stopped and I was able to get back to my feet. While the vehicle was moving in reverse the door broke at its hinges. Officer Borrico came up to the driver's side of the suspect motor vehicle and said, "GET HIM OUT OF THE CAR." I grabbed one leg and Officer Borrico grabbed another and we were able to pull the suspect out of the motor vehicle. Officer Borrico and I were able to turn the suspect onto his stomach and I reached for my handcuffs and handcuffed the suspect.

At this time, Patrol Officer Diez, grabbed me and brought me to his patrol car and escorted me to St Vincent's Hospital. At St Vincent's hospital I was treated for injuries sustained to my left hip, left shin, and left ankle. I had sustained deep bruising to my left hip from being dragged by the suspect motor vehicle and when the door broke its hinges, pinning the door against the front hood of the suspect motor vehicle. I sustained a laceration and swelling to my left shin from being struck by the driver side door when the suspect (operator) drove the motor vehicle in reverse. I also had a swollen left ankle from being dragged by the suspect motor vehicle. At this time, I am still being treated by medical professionals for the injuries sustained during the incident.
