

# We check the CPMRS before prescribing

## CT Prescription Monitoring and Reporting System (CPMRS)

In an effort to provide better patient care, our office uses the CPMRS to:

- Review patient's controlled substance history, including medical marijuana.
- Help avoid drug therapy complications.
- Improve communication with pharmacists to help prevent drug misuse, addiction and overdose.
- Counsel patients about the dangers of NOT taking medications as directed.

For more information, visit the Prescription Monitoring Program's website at:
