RE: Medication Administration Recertification Extensions

After further review and discussion, the Department of Developmental Services (DDS) has made the decision to offer an additional extension for Medication Administration Recertifications. Any employee with a medication administration certification from July 1, 2020 through August 31, 2020 will have an extension through October 1, 2020.

Please remember to start the process as soon as possible, this extension is meant to relieve pressure during a challenging time, not prolong the process.

For further clarification on the extension process please see below:

March 1, 2020 – June 1, 2020: 90-day extension(initially) then an additional 30 days issued

June 2 – June 30: 90-day extension issued

July 1 – August 31: extension issued until October 1, 2020

Thank you to those who have already started the process of getting your employees recertified. DDS encourages providers to please start and continue to process if you have not done so already. Please remember social distancing guidelines, small groups and disinfecting methods between each group/person.

Thank you for your continued support and patience through this time.
