All 3 components are tied to 1 registration the listings in this section are for Phase 1 in person classes initial exam and Phase 2 these registrations will be done through CT Train.

- The employees must create an account on CT Train
- The employee must verify their email address on CT Train (Must use personal email address not a work email address.)
- The employee must write their CT Train ID # on their Initial paper application for E-license
- Once their initial paper application is filled out their Med Coordinator will complete the electronic application in E-license

RETRAINING

OVERVIEW

The Retraining Course is intended for employees who have made multiple medication administration errors and have already been retrained on site by their delegating RN, but continue to make medication administration errors. The course will be held over two full days, for a total of 12 retraining hours.

Registration for the retraining should be completed through the online registration link that can be found on the DDS website. In addition to the registration form completed by the agency Med Coordinator, the delegating RN that oversees the employee must provide documentation of the staff's med errors and retraining history. The RN needs to provide this information through the online form. Everything should be submitted at one time.

The employee will not be registered in the class without documentation of all errors and retraining history from the RN.

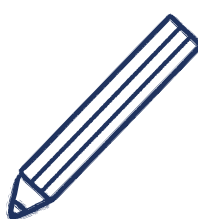

REMINDER: This is NOT a course for employees who are struggling with the recertification exam. Recertification exam review or retraining must be handled by the delegating RN at the agency. The Retraining courses offered through DDS are for employees who have made multiple medication administration errors and have already been retrained by their delegating nurse and are still struggling with med errors.

Retraining classes may be cancelled due to low enrollment. Agency Med Coordinators will be notified of cancellations.
