

Please close Southbury Training School. I am a parent of a 31 yr old daughter with down syndrome. My wife and I are both 66 yrs old and we are more than happy to have our daughter live with us at home. Our concern is what happens to Becky when we are too old to take care of her. I've read many articles on the cost per person to live at Southbury training School and you could help three or four times the people that you do now by using the money you would save if you closed Southbury and opened private sector group homes. Thank you, Michael Flynn
