DEFINITIONS

- **Authorized Signatory** – Person authorized to enter contracts on behalf of the company. DDS verifies this with a Corporate Resolution that is uploaded to Biznet. The Authorized Signatory is the only user under the company’s Biznet account that has permissions to access the electronic signature page.

- **Authorized User** - General user authorized by the company to access the company’s Biznet account. All authorized users under the company’s account can modify company information, upload and download documents, and add or delete authorized users. In order to add an authorized user, that person must have an individual Biznet account registered to the email address you are attempting to add under the company’s Biznet account.

- **Electronic Signature Agreement** – By signing this document, the provider and DDS agree to conduct all future contractual transactions electronically. The Electronic Signature Agreement is signed by the Authorized Signatory and does not need to be signed again unless there is a change of the Authorized Signatory or required by DDS.

- **Individual Biznet Account** – Each user must register an account with Biznet in order to use the functions within the application and be added to the company’s Biznet account. The individual Biznet account must be registered using the email address that will be tied to the company’s Biznet account.

- **Internal Biznet Administrator** – This is a user that the agency designates as the administrator of its company Biznet account. The Biznet administrator role receives no special or additional functions within the Biznet application nor is there any way to designate a user as an administrator within the Biznet application itself. The recommended role of the company’s Biznet administrator is to ensure that the users accessing the company’s Biznet account are using the account as intended and to add and delete users when needed. DDS does not oversee nor does it require that each agency choose a Biznet administrator but it is strongly recommended.

- **Notifications** – The Biznet application sends notifications via email to all authorized users when:
  
  i. DDS uploads a document to your company’s Biznet account.
  
  ii. An authorized user under your company’s Biznet account uploads a document to Biznet.

- **Signature Code Number (SCN)** – This is a unique number issued to and for the sole use of the Authorized Signatory. The SCN is sent to the Authorized Signatory by the agency’s assigned DDS Provider Specialist via email after the Electronic Signature Agreement is signed by the Authorized Signatory and DDS. This unique number is used to verify the identity of the Authorized Signatory when submitting an electronic signature.
INTRODUCTION
The Electronic Signature Process for DDS contracts and amendments will be managed by DDS and hosted by Biznet. Each POS contract provider is required to have an active Biznet account registered under the company’s legal business name exactly as it was registered with the Connecticut Secretary of State. You can find the name of any business registered to the Connecticut Secretary of State by clicking this link [CT.C.O.N.C.O.R.D.](#) and following the directions on the webpage.

As this is a web application, any of the provider’s authorized users have the ability to log in to their company’s Biznet account anywhere an internet connection is available. The Biznet login page can be found by clicking this link [BIZNET LOGIN](#) that will be referenced throughout this guide.

Please note that DDS cannot access the provider’s company or individual authorized user accounts of the Biznet application under any circumstances, nor is DDS able to upload or download documents to Biznet on behalf of the provider. The users authorized by the company to access the company’s Biznet account are at the sole discretion and responsibility of the provider. DDS cannot monitor the activities of nor is responsible for the actions of any users authorized by the provider to access the provider’s Biznet company account(s). If a provider suspects unauthorized use or misuse of the company’s Biznet account, the provider should immediately notify their assigned DDS Provider Specialist via email.

For technical assistance, please email David David at David.David@ct.gov.

Blue font hyperlinks to reference material are provided throughout this guide when applicable.

CREATING A BIZNET USER ACCOUNT

1. In order to be added as an authorized user of the company’s Biznet account or to create a Biznet account for the company as a new POS contract provider, an individual Biznet user account must be created.
2. It is strongly recommended that the email address that users activate their individual Biznet accounts with is a company email address and not a personal email address.
3. The user will create an individual Biznet account for him/herself by following this link [BIZNET LOGIN](#) and click “Create New Account”. An authorized user cannot be added nor can a Biznet company account be created for the company unless the individual authorized user being added to the company account or creating the company account has an individual, active Biznet account. Detailed instructions to create a Biznet account can be found here [CREATING A BIZNET ACCOUNT](#). Follow steps 3-6.
4. After activating the individual user account by clicking the link in the verification email, the user can either be added as an authorized user under the company’s Biznet account or a business account can be created on behalf of the company by that user.

**CHOOSING AN INTERNAL BIZNET ADMINISTRATOR**

- It is strongly recommended, but not required, that each provider choose an internal Biznet administrator who will control users’ access to the company’s Biznet account.
- The Biznet administrator role receives no special or additional functions within the Biznet application nor is there any way to designate a user as an administrator within the Biznet application itself.
- The recommended role of the company’s Biznet administrator is to ensure that the users accessing the company’s Biznet account are using the account as intended and to add and delete users when needed. DDS does not oversee nor does it require that each agency choose a Biznet administrator but it is strongly recommended.

**CREATING A COMPANY ACCOUNT**

**THIS STEP APPLIES TO NEW POS PROVIDERS OR CURRENT POS PROVIDERS THAT DO NOT HAVE A COMPANY BIZNET ACCOUNT**

*Providers that have a Biznet account registered under the company’s legal business name can skip this step. Go to [ADDING COMPANY ACCOUNTS (Authorized Users)](##).*

1. The authorized user will log in to his/her individual Biznet account at [BIZNET LOGIN](##).

2. Once logged in, click [DOING BUSINESS WITH THE STATE](##).
3. Click **COMPANY INFORMATION**

**Doing Business With The State**

**CHEA-DOH Consolidated Application**

**State Contracting Portal**

Enter and maintain Bids and Results for Connecticut State Procurement

**Supplier Diversity Application**

The State of Connecticut's Supplier Diversity Program was established to ensure Connecticut small businesses an opportunity to bid on a portion of the State's purchases. The main objective of the program is to increase the number of small and minority business enterprises. The Office of Supplier Diversity certifies throughout Connecticut. For more information click here.

**Contractor Prequalification Application**

The DAS Contractor Prequalification Program (CGS §4a-100) requires all contractors to prequalify before they can bid on any construction, alteration, remodeling, repair or demolition of any public building or work by the state or a municipality, estimated to cost more than $300,000 and which is funded in whole or in part with state funds. For more information click here.

10. Your company account is now active.

11. Go to **ADDING COMPANY ACCOUNTS (Authorized Users)**

**ADDING COMPANY ACCOUNTS (Authorized Users)**

This step shows the user how to add authorized users to your company’s Biznet profile. It is recommended that the internal Biznet administrator handle these functions, but it is not required. **Any authorized user added to the company’s Biznet account has the ability to add and delete users.** Due to this, it is strongly recommended that the Biznet administrator ensure that users no longer working for the company are removed at the time of separation.

1. Click **Company Accounts** from the menu on the left of the page.
2. In the text box to the left of the ADD ACCOUNT button, enter the email address of the authorized user you are adding. The email address must match the email address the person used to establish their individual Biznet user account. It must match exactly or you will not be able to add the person as an authorized user.

3. In the sample below, I am adding Sharon as an authorized user to my company’s Biznet account.

4. Click Add Account. If the email address is associated with an active Biznet account you will see the email address moved to the Active Account box.

5. If the person (in the example below, bill.jones@sample) does not have an active Biznet account you will see a message informing you that the user name is not a valid email address. Either the person has not activated an individual Biznet user account or the email address you are entering is not correct.
6. After you have added all authorized users to the Company Account, you will need to add each user’s contact information.

7. Go to **ADDING USER CONTACT INFORMATION**

**ADDING USER CONTACT INFORMATION**

Contact information must be added for each authorized user. It is recommended that the internal Biznet administrator handle this function, but it is not required. Each authorized user has the ability to enter and modify his/her contact information.

1. Click **Company Contacts** in the menu on the left of the page.
2. Click **Add New Contact**.
3. Enter the contact information in the text boxes as seen below. The following are **required** fields:
   i. Name
   ii. Address
   iii. City
   iv. State
   v. Zip Code
   vi. Phone
   vii. Email Address
4. Choose contact type from the dropdown.
   A. General users should be listed as “Company-Vendor/Contractor”

   B. The Authorized Signatory must be listed as “Authorized Signatory”
      i. The authorized signatory must be added to the company’s Biznet account.
      ii. The authorized signatory is the only user that has access to the electronic signature page.
      iii. The authorized signatory is verified by DDS using the Corporate Resolution. The Corporate Resolution needs to be uploaded when the following applies:
          • New POS contract
          • POS Contract Renewals
          • Change of Authorized Signatory
          • Corporate Resolution not on file at DDS
          • As requested by DDS
      iv. The Corporate Resolution does not need to be uploaded to Biznet when processing amendments to the contract so long as the Corporate Resolution previously uploaded to Biznet is valid.
      v. DDS cannot upload any of the agency’s contract or amendment documents until an Authorized Signatory is added to the company’s Biznet account.
      vi. If there is more than one Authorized Signatory, each person must be added separately.
      vii. The Biznet administrator or authorized user uploads a copy of the Corporate Resolution.
      viii. Once the Corporate Resolution is uploaded to the company’s Biznet account, DDS will upload the Electronic Signature Agreement to the company’s Biznet Account.
      ix. The Electronic Signature Agreement does not require “wet signatures”. There are text boxes allowing the Authorized Signatory to sign electronically.
      x. The Authorized Signatory will download the Electronic Signature Agreement and complete the following fields:
STATE OF CONNECTICUT
DEPARTMENT OF DEVELOPMENTAL SERVICES
Electronic Contract and Amendment User’s Guide for Providers

- Signature (Electronic Signature)
- Authorized Signatory’s Name
- Date
- Authorized Signatory’s Email Address

xi. The Authorized Signatory uploads the completed Electronic Signature Agreement to the company’s Biznet account. Go to section UPLOADING DOCUMENTS TO BIZNET

xii. DDS reviews the Electronic Signature Agreement to ensure the following qualifications are met:
- The name of the Authorized Signatory on the Corporate Resolution matches the name on the Electronic Signature Agreement.
- The name of the Authorized Signatory listed on the Electronic Signature Agreement matches the name of the Authorized Signatory on the company’s Biznet account.
- The email address of the Authorized Signatory entered on the Electronic Signature Agreement matches the email address of the Authorized Signatory entered in the Contact Information of the company’s Biznet account.

xiii. If all qualifications are met, DDS signs the Electronic Signature Agreement.

xiv. If the qualifications are not met, your DDS Provider Specialist will contact you via email.

 xv. After DDS signs the Electronic Signature Agreement, DDS uploads it to the provider’s Biznet company account. Once DDS uploads the Electronic Signature Agreement all authorized users under the company’s Biznet account will receive a notification from Biznet that DDS uploaded a new document.

xvi. Once the Electronic Signature Agreement is signed by DDS and uploaded to the company’s Biznet account, the agency’s assigned DDS Provider Specialist will send a Signature Code Number (SCN) to the Authorized Signatory via the email the Authorized Signatory entered on the Electronic Signature Agreement. The SCN is for the sole use of the Authorized Signatory and is used by the Authorized Signatory as a verification of identity when submitting an electronic signature.

5. Click ADD

6. The contact type will be shown in black text below the dropdown box.
7. If you are done adding contact information, click **Save and Continue**.
8. To add contact information for additional users, click **Add Another Contact**.
9. When you have entered all contact information and click **Save and Continue**, you will be taken to the Company Contacts page. There you will see the names of the contacts you have added.
10. To view the contact information for a user, click the binoculars to the left of the person’s name.
11. To delete the user’s contact information click the trashcan.
   i. Note that any authorized user has permission to delete and add contacts under the company’s Biznet account.

12. This step is now complete. You are ready to upload and download documents when required.

**PROCESSING CONTRACT DOCUMENTS FOR ELECTRONIC SIGNATURE**

1. This process is used for new POS contracts and POS contract renewals.
2. The Biznet application will notify all authorized users under the company’s Biznet account via email that DDS uploaded contract/amendment documents. The notification will include who uploaded the document, the document file name, and the time and date the document was uploaded.

Electronic Contract and Amendment User’s Guide for Providers

Any authorized user of the company’s Biznet account has the ability to download the contract documents that DDS uploaded to the company’s Biznet account. It is the provider’s responsibility to decide which user(s) should download these documents.

i. Note that all contract documents uploaded by DDS must be downloaded in order for the Authorized Signatory to access the Electronic Signature Page.

ii. Once the documents are downloaded, the user that initially downloaded the documents is listed in the description column with the time and date he/she downloaded the documents.

iii. By downloading contract documents and moving forward in the electronic signature process, the provider is confirming that the Authorized Signatory has read and agrees to the contract documents uploaded by DDS. If the Authorized Signatory does not agree to the contract documents that were uploaded by DDS, the Authorized Signatory or an agent thereof must contact the provider’s assigned DDS Provider Specialist via email.

3. Download all documents listed on the notification email.

   a. Click the **BINOCULARS** of the company you need to download documents for.

   b. Click, **CLICK HERE TO UPLOAD DOCUMENTS**.

d. Select the DDS contract from the SELECT CONTRACT DROPOUT that you need to download documents for. If you have contracts with other State of CT agencies, you can view those contract documents by selecting the applicable contract number.

![ DDS Contract Documents SELECT CONTRACT DROPOUT Image ]

e. After choosing the DDS contract, you will see two sections on the page.
   i. REQUIRED COMPANY DOCUMENTS – These are general POS/PSA documents that all companies doing business with the State of CT must upload. Documents such as the Non-Discrimination Certificate and the CHRO form.
   
   ii. PROVIDER CONTRACT DOCUMENTS – These are POS contract documents specific to the POS contract with DDS. This section is where providers will download DDS contract/amendment documents unique to the provider.

f. The file that I was instructed to download was named AMENDMENT 1 BUDGET SUMMARY. The unique provider DDS contract/amendment documents are always located in the PROVIDER CONTRACT DOCUMENTS section.
g. Click the file name in the Document Download column.

h. Choose to either open or save the file.

4. The document has now been downloaded and can be reviewed. The document can be downloaded as many times as needed by any of the authorized users.

5. Once all amendment documents have been downloaded by the provider, the Authorized Signatory will log in to Biznet.

6. The Authorized Signatory will follow the directions in **SUBMITTING AN ELECTRONIC SIGNATURE**.

7. All technical questions should be communicated to David David via email at David.David@ct.gov. Please do not contact DAS.

**UPLOADING DOCUMENTS TO BIZNET**

8. Uploading Documents from Biznet - When processing a new POS contract or a POS contract renewal there are contract related documents that need to be uploaded to your company’s Biznet account. If these documents are not uploaded, the Authorized Signatory will be restricted from viewing the Electronic Signature Page by the Biznet application. Below is a general list of the documents that must be uploaded before the Authorized Signatory can access to the Electronic Signature Page. This list may vary depending state statutes and DDS requirements. There are certain requirements of when some of these forms are signed in relation to when the contract is signed. Additional directions will be sent to providers at the time of initial POS contract or POS contract renewal.
   i. Affirmation of Receipt of State Ethics Law Summary
   ii. Gift and Campaign Contribution Certification
   iii. Consulting Agreement Affidavit
iv. Non-Discrimination Certificate (Varies depending on the contract amount and company type) See more information regarding OPM Non-Discrimination Certificate requirements at OPM NON-DISCRIMINATION

v. Commission On Human Rights and Opportunities (CHRO) Workplace Analysis Affirmative Action Report Employee Information Form. This form is not uploaded. To complete the form, you click, OPEN FORM, and enter the data in the Biznet application.

- No

**ELECTRONIC SIGNATURE OF PERSON AUTHORIZED TO SIGN CONTRACTS ON BEHALF OF THE CONTRACTOR:**

I, David D, of DAVID SAMPLE 2, am duly authorized to sign documents on behalf of DAVID SAMPLE 2. By clicking on the “electronic signature” box below, I confirm and understand that an electronic signature is taking place and I intend to be bound by and authenticate this electronic record, and attest to the statements contained within. I hereby certify that all information supplied is true to the best of my knowledge and belief, subject to the penalties of false statement.

In addition, the above-named contractor fully acknowledges and agrees with all of the terms and conditions contained in DDS Contract # TEST 2 APRIL 26.
