

## Residential Transition Workgroups

1. CLA/CRS Rate Structure: Review and recommend a rate structure to use for CLA/CRS settings.

Members: All committee members will participate in this group.

2. IHS Rate Structure: Review the rate structure proposed by the IHS Rate group and make recommendations.
3. Transition and Implementation:
  - Develop an implementation and Transition process for the residential rates
  - Develop provisions for financial hardship.
  - Identify and review other issues that may impact implementation.
  - Develop a mechanism for an on-going assessment to re-examine rates on a regular basis.
  - Address the issue of Collective Bargaining Agreements
4. Sustainability: Review the work of the Day transition report on Sustainability and make recommendations for the Residential Rate transition work group.
5. Residential Issues: explore issues and programs that may impact implementation
  - Aging in Place
  - Technology Options
  - Identify new/creative residential options
6. Data Management:
  - identify strategies to better collect and disseminate information as an interim step to use while the Information Technology system is created with the Advance Planning Document grant.
  - Develop a process to continue to collect data for committee review and analysis to determine trends and impact.
7. CCH Rate Structure: Review and recommend a rate structure to use for CCH settings.
