

## 2022 Project SEARCH Pilot Frequently Asked Questions

October 28, 2022

Q: If a proposed project includes a target audience of transition aged youth; specifically young people who will be exiting school within the next year, will they be able to be covered by the funding provided through this grant award?

A: The awarded funds are strictly intended for licensing/start-up costs for a new Project SEARCH program. While applicants may propose a hybrid model that includes transition age youth, it is an expectation that any awarded program serve our DDS population.
