

Notice of Opportunity (NOO) - Supportive Housing options in a non-project-based setting

Questions

I've never submitted a proposal before is there a template to provide or what information do you need? I think this would be great for families we serve with parent support services.

There is no template. Proposals should include the components identified in the Notice of Opportunity.

We currently have two residential sites in mind that meet the criteria for this grant. Are we able to submit one grant proposal for both sites? Reading the grant, it doesn't look like it was written with that in mind, but it would increase our program's growth capacity. If not, should we submit two separate grant requests?

Please submit the proposals separately.

How do the non-project based RAP's work if an individual wants to move in to a 2br apt. alone?

This would only be allowable if the tenant found a two-bedroom unit for the Fair Market Rent/Maximum Allowable Rent cost of a one-bedroom unit.

Are expansions of existing supportive housing projects eligible for this grant opportunity?

Expansion of existing non-project based supportive housing projects are eligible for this Notice of Opportunity, however priority will be given to new settings in areas that do not currently have supportive housing projects. Expansion of existing Project Based supportive housing projects are not eligible for this Notice of Opportunity, such as the IDASH and Low Income Housing Tax Credit (LIHTC) developments.

Is there a deadline for question submissions?

The deadline is February 28, 2023
