Provider Description

Information provided by the provider describing their agency:

My name Dr. Ali Khalafalla Ahmed, I have extensive clinical behavioral consultation experience for over 14 years, I graduated from Azhar Medical School, in Cairo, and earned Applied Behavioral Analysis Graduate Certificate from University of Penn State in Pennsylvania in 2001.

I designed hundreds of positive behavioral plans based on functional behavior assessment and applied behavioral analysis science; consulted and trained parents, teachers, and supporting therapeutic staff on strategies to modify the challenging behavior of individuals with autism, and intellectual disability.

Along with other team members I was successful to modify the challenging behaviors of individuals with autism, and intellectual disability with socially acceptable behaviors, and helped them on gaining and maintaining life, functional and communication skills.

My intention is to assist individuals with autism, and intellectual disability to be integrated in the community, to help them gaining the necessary academic, social, communication and functional skills in efforts to promote their independence, and support them on holding jobs and establishing human relationships.
