### Provider Description

**Information provided by the provider describing their agency:**

Founded in 1972, Chapel Haven remains a pioneer in teaching adults with developmental disabilities to live independent and productive lives. Started 38 years ago by two families who wanted their special needs children to become truly independent, Chapel Haven has grown to serve more than 200 adults in 3 programs that offer residential transitions and lifelong community supports.

In the traditional REACH (Residential Education at Chapel Haven) program adults 18+ live apartment-style in an intensive 24-month Residential Life Skills program. They learn to negotiate all aspects of independent living while enjoying a state approved education program and a nationally accredited transitional living program.

Students attend year-round education classes which serve as the foundation from which residents build lives of successful independence, consisting of blended subject areas: Language Arts, Math, Science, Social Studies, Life Skills, Employment Skills, Wellness, and Personal Enrichment. Students can also choose from 30 recreation activities per month. All programmatic offerings include Social Communicative Competency as an instructional component.

The second year of the program focuses on employment, offering more challenging opportunities as the student progresses. Upon completion, a transition team helps the graduate develop an individualized transition plan with supports to live and work successfully in the community in our Supported Living Program.

The Supported Living Program accepts individuals who have the skills to live independently with limited professional support. The Employment Program, Continuing Education Department and Recreational Programs work with Supported Living members to provide a broad and holistic service plan tailored to individual needs. The Supported Living Program takes a holistic approach to the individual by carefully monitoring financial, housing, employment, relationship, and health needs on a one-to-one basis. We also promote self-determination which not only places the served individual at the center of a plan but as the driver of their service plan.
