In Phase 1, Retail businesses and malls can open at up to 50% capacity.
RETAIL & MALLS

OVERVIEW
As Connecticut’s retail stores reopen, the State wants to enable economic activities and demand to come back, while prioritizing the health and safety of employees and consumers. Various types of retail stores present different levels of interaction and potential to violate social distancing rules. For example, fitting rooms present challenges not posed by electronics stores. This set of rules developed by the State of Connecticut aims to mitigate the risks presented in all retail stores.

Businesses must exercise caution throughout the reopening, ensuring strict adherence to the rules listed here. Those businesses that are not able to meet the rules listed here by May 20, shall delay opening until they are able.

While these rules provide a way for retail stores to reopen as safely as possible, risks to customers and employees cannot be fully mitigated. Customers who choose to visit stores during this time should be aware of potential risks. Individuals over the age of [65] or with other health conditions should not go shopping, but instead continue to stay home and stay safe.

Businesses should take these rules as the minimum baseline of precautions needed to protect public health in Connecticut. Individual businesses should take additional measures as recommended by industry guidelines or by common sense applied to their particular situation. We urge customers to stay vigilant and pay attention as to whether retail establishments they frequent are faithfully implementing these rules.

STATE GUIDANCE FOR RETAIL & MALLS
These rules are intended to help retail stores safely get back to work. The information here can be supplemented with guidance from professional organizations and by other industry groups, some of which are listed below. These guidelines may be updated.
