

**Connecticut Interagency PFAS Task Force
Pollution Prevention Committee Meeting**
August 15, 2019

Welcome – Co-chair Peter Zack, Assistant Director, DEEP Emergency Response and Spill Prevention Division and Raymond Frigon, Assistant Director, DEEP Remediation Division

Ground rules

Committee and member introductions

Topics for discussion

1. Aqueous film-forming foam
 - Inventory of concentrate within state government and local fire departments
 - Alternatives to AFFF
 - Protocol for responsible AFFF use, best management practices for handling and disposing of deployed AFFF and associated impacted media, and proper storage until a new product is available
2. PFAS in domestic and industrial wastewaters
3. Agricultural impacts due to biosolid application as a soil amendment/fertilizer and/or irrigation from surface waters
4. Determine universe of potential PFAS sources (including but not limited to consumer products such as microwave popcorn bags, paper products, etc.) and consider alternatives
5. Education, outreach, and communication
6. Additional topics suggested by committee members
