- 2. FILL IN WETLANDS.** Does the proposed work include any filling of or activities within wetlands?

☐ Yes ☐ No

If yes, it is the intent of the General Permits to authorize certain activities within wetlands specifically associated and necessary to the dam maintenance, repair or alteration. In these circumstances a municipal wetland permit is not typically required as allowed by section 22a-403(b) of the CT General Statutes. Activities in wetlands occurring in areas not related to the dam are not intended to be authorized by these permits and may require municipal approval.

- 3. BEST MANAGEMENT PRACTICES.** Will the proposed activities occur in or will equipment traverse wetlands or floodplains or watercourses to reach work areas with the potential to cause erosion and sedimentation or release pollution? ☐ Yes ☐ No

If yes, a detailed description of the pollution prevention and best management practices that will be implemented to minimize construction in and disturbance of floodplains, wetlands, and watercourses, and prevent pollution is required with any general permit filing to DEEP and can be made available to the Municipality upon request.
