I. Overview

We are issuing this advance notice of proposed rulemaking (ANPRM) to announce our intention to publish a proposed rule and solicit public comments on the changes necessary to provide States the option to design home and community-based services (HCBS) waiver programs serving more than one target population. We are particularly interested in receiving comments on how removal of the existing regulatory barrier regarding target groups may increase a State’s ability to design service packages based on need, rather than diagnosis or condition. Furthermore, we are interested in receiving comments on how this change may affect the State’s ability to serve individuals requiring an institutional level of care and may facilitate compliance with the Americans with Disabilities Act of 1990 (ADA). We are intending to propose this change in an effort to remove barriers to person-centered, needs-based service delivery methods. Consequently, we are also hoping to hear from interested parties regarding recommendations to strengthen person-centered principles and practices for the successful operation of any HCBS waiver program, including those that may serve individuals based upon identified needs, rather than diagnosis.

It is also our intention to publish as a part of the proposed rule requirements related to identifying the home and community-based character of the settings in which HCBS participants...
