

**Connecticut Conservation Education/Firearms Safety Program**  
**COVID-19 Modified Trapping Education Track:**  
**Trapping Certificate Instructions and Checklist**

**Course Description:** The Modified Basic Trapping Course is two parts. The first part will be held on an interactive videoconferencing platform which provides the opportunity for dialogue between the instructors and students. Each student must have their own device with audio and video capabilities for the online portion. The second part is an in-person field day. Attendance at both parts is mandatory to successfully complete the Modified Basic Trapping Course and receive your certification.

Students must complete and submit the following online prerequisites prior to registering for a modified field day event. Those who have not completed these prerequisites will not be allowed to attend the field day.

**Online Prerequisites:**

- Complete the [North American Trapper Education Course](#) and submit certificate of completion to [DEEP.huntereducation@ct.gov](mailto:DEEP.huntereducation@ct.gov). **Submissions must include student's first and last name and conservation ID number in the subject line; those that do not will not be accepted.**
- Register for a Modified Basic Trapping Field Day using your Connecticut Conservation ID and the [CT Hunter Education Registration System](#).

**What to bring to your Modified Basic Trapping Field Day:**

- Note:** Hunting and trapping students under the age of 18 must have a parent or legal guardian present to sign their registration card at the time of the field day.
- Mask (must cover both nose and face completely)
- Pen
- Mobile device with data (if you intend on taking the exam electronically)
- Chair (folding, sports, or camping) for use when taking the test.

Students will not be allowed to participate if they do not bring and wear proper PPE throughout the entire event. The Modified Basic Trapping Field Day will consist of field exercises including equipment handling and demonstrations. The field day will include a proctored exam and will be approximately 3 hours.
