The Diamondback riflescope completely changes the rules when it comes to “you get what you pay for”. The performance-to-price ratio on this classic go-to hunting scope is off the charts when it comes to image quality, build quality and overall feel of the turrets and the fast-focus eyepiece. If you’re in the market for a high-quality riflescope, look no further than the Diamondback—a quality rifle scope that offers a variety of configurations at a price that will leave you with plenty of money left over for ammo.

MENTOR A JUNIOR HUNTER, page 6
Help a new generation discover a passion for hunting and the outdoors! Elijah Smith, at 13 years old, harvested a doe and this buck on opening day of the 2019 deer season. This was the first buck he ever harvested.

RABBIT HEMORRHAGIC DISEASE POSES THREAT TO WILD RABBITS, page 32
Hunters can take steps to avoid the possible spread of this deadly disease to wild rabbits.

On the cover:
On November 30, 2019, Shane and his daughter Aryana (15) headed into the woods in Oxford, CT. It was a cold morning when Shane spotted a deer approaching in the distance. Shortly after, Aryana noticed another about 30 yards away from their stand. She set her sights on the deer, as it was the easier shot. She slowly moved her .243 rifle into position so as to not scare the deer, and then made the successful shot. Shane could not be prouder of his daughter harvesting her first deer. He has been hunting with her since she was 13 years old and continues the tradition every year.

The Connecticut Department of Energy and Environmental Protection is an Affirmative Action/Equal Opportunity Employer that is committed to complying with the requirements of the Americans with Disabilities Act. Please contact us at 860-418-5910 or deep.accommodations@ct.gov if you have a disability and need a communication aid or service; have limited proficiency in English and may need information in another language; or if you wish to file an ADA or Title VI discrimination complaint.

This guide is intended to provide a summary of the most pertinent laws and regulations concerning hunting and trapping, and to provide information on these opportunities in Connecticut. No attempt has been made to employ the exact wording of laws and regulations, nor to provide their complete listing. For legal purposes the Regulations of Connecticut State Agencies and the General Statutes of Connecticut must be consulted. A listing of the General Statutes of Connecticut can be found on the Connecticut General Assembly website at www.cga.ct.gov and information on state regulations is at https://eregulations.ct.gov.

* Connecticut Resident Game Bird Conservation Stamp required.
* Connecticut Migratory Bird Conservation Stamp required.
* Connecticut Migratory Bird Conservation Stamp required.
Connecticut Bird Hunting Stamps are for the Birds!

The Resident Game Bird Conservation Stamp is required to hunt pheasants, wild turkey, quail, partridges, and ruffed grouse. All revenue from the sale of Resident Game Bird Conservation Stamps is deposited into a non-lapsing, dedicated fund to provide a stable funding source for game birds and their habitat.

The Connecticut Migratory Bird Conservation Stamp Program is a great example of how conservation works—concerned citizens paying into a program that was formed to protect and enhance vital habitat. All revenue from the sale of Connecticut Migratory Bird Conservation Stamps goes into a dedicated account that is used solely for wetland habitat management and acquisition or for improving hunter access. Over 3,145 acres of critical wetlands have been protected in Connecticut using stamp funds. These wetlands benefit not only waterfowl, but also a multitude of other wildlife species like herons, egrets, fish, and amphibians.

Migratory bird hunters are required to purchase a Connecticut stamp to participate in migratory bird hunting seasons. Other licensed hunters are encouraged to purchase a Connecticut Duck Stamp (even if they do not participate in the migratory bird hunting seasons) to show their support for the conservation and purchase of wetland habitats. Hunters can purchase stamps for $17 each wherever hunting and fishing licenses are sold: participating town clerks, participating retail agents, DEEP License and Revenue (79 Elm Street in Hartford), and through the Online Sportsmen Licensing System (www.ct.gov/deep/sportsmenlicensing).

Do your part for wetland conservation — buy a Connecticut Migratory Bird Conservation Stamp!
Connecticut designates specific days when experienced adult hunters are encouraged to take a youth hunting, helping them learn safe and effective hunting practices, develop observational skills, and gain confidence and a comfort level they need to discover a passion for hunting and the outdoors. Mentors usually come away from the experience knowing they have introduced a young person to a sport they love and inspired him or her to become an avid and successful hunter and conservationist. On these days, licensed junior hunters (12 to 15 years of age) may hunt when accompanied by a licensed adult hunter 18 years of age or older. The adult mentor may not carry a firearm and must remain within physical contact in a position to provide direct supervision and instruction at all times.

**Stay up-to-date on Junior Hunter events and activities on the DEEP website at** [https://portal.ct.gov/DEEP-Junior-Hunting](https://portal.ct.gov/DEEP-Junior-Hunting).

### Junior Hunter Training Days

**TURKEY**
April 17 through April 24, 2021 (excluding Sunday)
Private Land: Licensed junior hunter and adult mentor must both have a valid Resident Game Bird Conservation Stamp and written consent from landowner. State Land: Licensed junior hunter and adult mentor must both have a Resident Game Bird Conservation Stamp. Adult mentor may assist in calling turkeys. Hunting hours for Junior Turkey Hunter Training Days only are 1/2 hour before sunrise to sunset.

**Report Your Harvest:** Immediately upon harvest, complete a Deer/Turkey Harvest Tag (page 34). All turkey and deer taken must be reported within 24 hours via the DEEP’s website ([https://portal.ct.gov/DEEPHunting](https://portal.ct.gov/DEEPHunting)) or by telephone at 1-877-337-4868.

**WATERFOWL**

Junior hunters (ages 12 to 15) must have a valid small game junior hunting license and a 2021 Connecticut Migratory Bird Conservation Stamp. Sixteen and 17-year-old hunters can participate in the training day, but they must have a valid hunting license, a 2021 Connecticut Migratory Bird Conservation Stamp, and federal 2021–2022 Migratory Bird Hunting and Conservation Stamp. Adults must possess a valid hunting license; however, they are not allowed to carry a firearm. Ducks, geese, mergansers, and coots may be hunted. Bag limits and shooting hours are the same as for the regular duck and goose hunting seasons.

In 2014, the Connecticut Waterfowl Association (CWA), in conjunction with the DEEP Wildlife Division, developed a Waterfowl Hunter Mentoring Program to help out hunters who have no one to mentor them. CWA’s program pairs up experienced volunteer mentors with youths and adult novice hunters. Learn more at [http://www.ctwaterfowlers.org/mentoring-information.html](http://www.ctwaterfowlers.org/mentoring-information.html).

**PEAHCANT**
Saturday, October 9, 2021
State and Private Land: Youth participants must possess a current junior hunting license and a Connecticut Resident Game Bird Conservation Stamp. There may be exceptions if hunting on a private shooting preserve or a hunting club property with a Resident Game Bird Stamp exemption. Adults must possess a valid hunting license; however, they are not allowed to carry a firearm.

**DEER**
Saturday, November 6 through Saturday, November 13, 2021 (excluding Sunday)
Private Land: Licensed junior hunter and adult mentor must each have a valid private land shotgun/rifle deer permit and written consent from landowner. State Land: Licensed junior hunter must have a state land shotgun deer permit (Lottery or No-Lottery). Adult mentor must have a valid deer permit of any type. Deer hunting on Junior Deer Hunter Training Days is permitted on any Lottery or No-Lottery Deer Area, regardless of area designated on the permit, with the following exceptions:
1. Yale Forest, MDC Barkhamsted Reservoir East Block, MDC Barkhamsted Reservoir West Block, and MDC Nepaug Reservoir-Valentine/Pine Hill Block are not open during Junior Deer Hunter Training Days.
2. Centennial Watershed State Forest and Bristol Water Company are only open to junior hunters and mentors who have both been awarded a permit for these areas.

**Report Your Harvest:** See instructions under Junior Turkey Hunter Training Days.

Navigating a “New Normal”

Well, 2020 has certainly been a year to remember (or forget). From pandemics to social unrest, from violent storms to rampaging wildfires, we all experienced unprecedented upheaval and are searching for the new normal. Although no one wants a repeat of what we went through, we did learn some valuable lessons and even found a few silver linings. Most notable is just how important our natural resources are. As people’s lives changed, they sought refuge in our wild places. The decision to open the trout fishing season early led to tens of thousands of early season trips. Our State Parks, State Forests, and Wildlife Management Areas saw record-setting visits, many from people who have never connected with our wild places before. As you head out to participate in the hunting and fishing seasons, please be aware that many of our outdoor spaces are being used by more people who have discovered what the Connecticut outdoors has to offer.

The practices we hold most dear — hunting, fishing, and trapping — are tailor made for finding a respite from the troubles of our day. And, there is no better form of social distancing than occupying your favorite spot on a forest edge, waiting for dawn to break and listening for the gobbler that is soon to come your way. If you fish with me, either fly fishing or casting a plug, it is a safe bet you are going to want to be more than six feet away. I am dangerous. The beauty in this is that more and more people were introduced, or reintroduced, to our wild places in 2020 than in any year previous. And, that is a wonderful thing. The more we all connect with our fisheries, forest, and wildlife resources, the more we each take ownership. The more ownership one takes, the more support we receive to ensure these resources are protected and nurtured for those who come after us.

One thing the pandemic did is cause all of us at DEEP to drastically change the way we do business. It was abrupt, disruptive, dramatic, and a bit scary. It was also liberating. We were no longer constrained in our approach to how we provide services to you, our customers — the constraints of “because that’s the way we’ve always done it.” Instead, we had to forge new processes and approaches. And, these services are being provided faster, and more efficiently and effectively. In short, they are going to be retained as our new normal.

The upheaval of 2020 has also caused us to consider what other services might be improved through creative thinking. Be they in the realms of public policy (laws and rules), licensing, programming, land access, or information distribution, all are ripe for re-engineering. I do not have any specific changes to bring to you as I write this, but I look forward to engaging with you as we define our new normal.

I hope to see you afield, and all the best in 2021,

Rick Jacobson
Chief, DEEP Bureau of Natural Resources

Message from the Bureau Chief

If you’ve tried the rest, try the best!

The Sportsman’s Second Home
Since 1996

Our 300+ acre facility is located in the beautiful dairy farm country in Lebanon, CT. An easy drive from Hartford, New Haven and New London counties plus MA, NY and RI. We’re open to the public.

Pheasants, Hungarian Partridge, Chukar Partridge, Bobwhite Quail. Upland game - no license required! Deer, Geese, Duck, Turkeys, Rabbits and Coyotes - license required.

Use our hunting dogs or bring along your own. German Shorthaired Pointer pups for sale. If you need your dog trained or finished for hunting, we provide year-round training!

INFO@MILLSTREAMPRESERVE.COM
Licenses and permits to hunt and trap in Connecticut are available online, at most town clerks, and at some sporting good stores and DEEP offices. Licenses are valid for a calendar year. To buy licenses online, or for a listing of places that sell licenses, go to: https://portal.ct.gov/DEEPHunting.

Conservation ID#: Everyone issued a license has been issued a unique Conservation ID# that should be used every time and every year when purchasing licenses and permits. If you log on to the Online Sportsmen Licensing system, or go to a vendor for your licenses, always use your Conservation ID# as a means of identification. You should write your Conservation ID# down and keep it in a safe place. Your Conservation ID# is your license number. You can get a Conservation ID#, if you do not already have one, at https://portal.ct.gov/getconid.

Hunter Education Requirements: No hunting or trapping licenses will be issued to any person unless proof is provided that they have held a RESIDENT license in the respective discipline within the last 5 years OR the person has a certificate indicating successful completion of a Connecticut Conservation Education/Firearms Safety (CE/FS) course (or recognized equivalent) in the respective discipline for which they are applying. Hunter education coursework may have been completed online but MUST have been accompanied by a field day. “Apprentice” or “Mentored” hunting licenses issued in other states do not qualify. To become certified in firearms or bowhunting, a person must be 10 years or older. All bowhunters must show proof when purchasing a small game/deer archery permit (since 1982) or its equivalent from another state or country. Certifications from another state or country must specify Bowhunter Education. If you have previously purchased a 2002 or later Connecticut bowhunting license, you have already provided such proof. Obtain course listings by visiting https://portal.ct.gov/getconid or calling the Wildlife Division at 860-424-3011.

Printing Hunter Safety Certificates: After successfully completing a hunter safety course, your certification will be uploaded to your online license profile and will print directly at the bottom of your hunting or fishing license (you may print your certification without making a purchase). Certificates will no longer be mailed. To print your certificate, visit www.ct.gov/deep/SportsmenLicensing.

Age 65+ Annual Licenses: Firearms hunting and trapping licenses are issued free to residents who meet hunter and trapper education requirements. These licenses must be renewed annually. Hunting by Minors: A person must be 12 years of age or older to hunt. Persons 12 through 15 years of age must be licensed and accompanied by a licensed hunter 18 years of age or older while hunting. A person may not supervise more than 2 minors at one time while hunting. Minors are entitled to their own bag limits. Junior license holders do not have to purchase a new license if they turn 16 years of age during the same calendar year.

Trapping by Minors: There is no minimum age requirement for trapping. Persons under age 16 must purchase a Junior Trapping License.

Free License for Hunters with Disabilities: A person who has permanently lost the use of a limb may be issued a hunting or trapping license free-of-charge (permits and stamps not included). Non-residents are eligible for this free license if their state provides the same privilege to Connecticut residents. Verification of the disability, signed by a licensed physician, must be presented. These licenses are available at select DEEP offices.

Armed Forces: Any active full-time member of the U.S. armed forces may purchase a Connecticut hunting, fishing, or trapping license for the same fees as a resident. Proof of full-time membership during the calendar year must be carried while using the license. These licenses are only issued at DEEP or town clerk offices.

Lost License: At any time, you can log on to the Online Sportsmen Licensing system and reprint your license. You can also go to a licensing vendor or DEEP office to have your license reprinted.

FISHING/HUNTING GUIDE REGISTRATION

Anyone providing fishing and hunting guide services in Connecticut needs to register annually with DEEP. Guides can register online using DEEP’s Online Sportsmen Licensing System (www.ct.gov/deep/SportsmenLicensing), in person at DEEP offices, or at other vendors where hunting and fishing licenses and permits are available. There is a $100.00 fee for this registration.

SNAPPING TURTLE TRAPPING ENDORSEMENT

• Required when using traps to catch snapping turtles. Available for free online or at DEEP offices.
• Season Dates: July 15 – September 30
• Bag Limits: Daily 5, Possession 10, Season 10
• Size Limit: Minimum 13” shell length
• Turtle eggs cannot be taken and turtle nests cannot be disturbed without DEEP authorization.
• The commercial trade of snapping turtles is prohibited.
• Legal Methods: Hand capture, dip net, turtle hook, floating or non-floating turtle trap, or hook and line.
• A maximum of 3 turtle traps can be used per individual at any given time, traps must be set in such manner as to allow turtles to surface and breathe and be constructed of 1” minimum mesh size. All traps must have a functional escape hole with minimum diameter of 7.5” to allow passage of fish and smaller turtles. Box-type traps cannot exceed 4’x4’x4’ and hoop-style traps cannot exceed 84”. Traps must be tagged with a plate or tag visible above the water line bearing the Conservation ID# of the trap. All traps may only be tended by the authorized trapper and must be checked at least once every 24 hours and emptied of catch. Any other wildlife captured must be immediately released at the point of capture.
• Traps cannot be used on any body of water owned, leased, or otherwise under control of the DEEP.

THREE-DAY OUT-OF-STATE BIRD HUNTING LICENSE
This license allows out-of-state hunters to hunt migratory and resident (non-migratory) game birds, including wild turkeys, for three consecutive privilege days (Sundays not included). The $35 fee for this license will go into the Game Bird Conservation account, which is exclusively for the purchase and management of game birds and their habitat. Out-of-state hunters will still need to purchase a Connecticut Migratory Bird Conservation Stamp and/or a Connecticut Resident Game Bird Conservation Stamp, depending on what species they intend to hunt.

CONNECTICUT RESIDENT GAME BIRD AND MIGRATORY BIRD CONSERVATION STAMPS

Connecticut Resident Game Bird Conservation Stamp
• Valid for Calendar Year
• Fees: $28 Resident, $28 Non-Resident

This stamp replaces all turkey permits. Required for hunting pheasant, partridges (Hungarian and chukar), grouse, quail, and wild turkey. Connecticut firearms hunting license or Small Game and Archery Deer Permit required. When purchased, authorization for resident game bird hunting will be printed on your license.

Connecticut Migratory Bird Conservation Stamp
• Valid for Calendar Year
• Fees: $17 Resident, $17 Non-Resident

This stamp has been merged with the Harvest Information Program (HIP) Permit. It is required for hunting waterfowl, woodcock, rail, snipe, and crow. When purchased, authorization for migratory bird hunting will be printed on your license. The actual state stamp no longer needs to be signed or carried while hunting. If you want a copy of the actual stamp mailed to you, answer “yes” to the prompt when selecting the stamp for purchase. Physical stamps can also be purchased by mailing a request with the enclosed fee to DEEP Licensing & Revenue, 79 Elm Street, Hartford, CT 06106. Starting in 2021, if a stamp is purchased through a license agent location (e.g., retail store, town clerk, or bait and tackle shop) the HIP certification that is required to legally hunt migratory birds will not be valid until you either call 1-877-337-4868 or go to https://ct.aspirifocus.com/hunterreporting to complete the HIP survey. Upon completion of the survey, you will be given a confirmation number. You can either write that number onto your existing license or go into the online system and reprint a new license.

Federal Migratory Bird Conservation Stamp
• Valid from July 1 through June 30
• Fees: $25 Resident, $25 Non-Resident

Available at most Post Offices, by telephone, and online. Go to www.fws.gov/duckstamps for more information. Stamp must be signed in ink across the face. Junior hunters ages 12–15 are exempt from purchasing a federal stamp.

https://portal.ct.gov/DEEPHunting
SPORTSMEN’S DOLLARS AT WORK

Wildlife management is largely funded through the Federal Aid in Wildlife Restoration Program. This program was initiated by sportsmen and conservationists in the 1930s to provide states with funding for wildlife programs. Funds are derived from a federal excise tax on firearms, ammunition, and archery equipment. These funds are collected from the manufacturers by the Department of the Treasury and are apportioned each year to the states for wildlife programs.

The Wildlife and Sport Fish Restoration Program...
Partnering to fund conservation and connect people with nature.

Turkey permits have been replaced by the Resident Game Bird Conservation Stamp. Landowners may take turkeys on their property (any season) with either a Free Landowner Resident Game Bird Conservation Stamp or Resident Game Bird Conservation Stamp. There is no additional bag limit for turkeys due to the free stamp. Landowners may take deer on their property with a Free Landowner Deer Permit. Landowners may take two deer on their property with the Free Landowner Deer Permit.

Licenses & Permits

FIREARMS DEER HUNTING PERMITS

- Fees: $19 Resident, $68 Non-Resident, $10 for resident 12 to 17 year olds
- A current firearms hunting license is required to purchase firearms deer permits.
- Lottery permits can be applied for starting January 1. See page 24 for details.
- No one may purchase both a State Land Lottery Permit and a State Land No-Lottery Permit.

If you are rejected for a lottery permit, you may still purchase a State Land No-Lottery Permit.

Revolver Deer Endorsement - Fee: $5

Allows persons hunting with a Free Landowner Permit or Connecticut residents hunting with a Private Land Shotgun/Rifle Permit to use a revolver rather than a rifle or a shotgun to hunt deer on private lands of at least 10 acres in size. A person using a handgun for hunting must possess any required state/town permits to carry.

LANDOWNER HUNTING PERMITS

Turkey permits have been replaced by the Resident Game Bird Conservation Stamp. Landowners may take turkeys on their property (any season) with either a Free Landowner Resident Game Bird Conservation Stamp or Resident Game Bird Conservation Stamp. There is no additional bag limit for turkeys due to the free stamp. Landowners may take deer on their property with a Free Landowner Deer Permit. Landowners may take two deer on their property with the Free Landowner Deer Permit.
ANTICOSTI ISLAND
THE ULTIMATE HUNTING TRIP

EUROPEAN PLAN + GUIDE

Starting at $2,091 /hunter (USD)*

*Taxes and hunting licence not included. Product priced in Canadian dollar; based on 2021 rates. Prices in U.S. dollars may vary according to exchange rate fluctuations and fees by credit card issuers. Departures available from Mont-Joli, Montreal and Québec City. Certain conditions apply.

Photo: Steve Deschênes

All packages include:
- 2 DEER/HUNTER
- Huge & exclusive territory
- Air transportation
- 4x4 truck
- 1 guide for 4 hunters
- Cabin accommodation

sepaq.com/anticosti | 1-800-463-0863
The use and possession of firearms, ammunition and bowhunting equipment is regulated in the interest of public safety and the conservation of wildlife. Hunters are also subject to any federal, state, or municipal firearms regulations. General restrictions on the use of firearms, air guns, and bowhunting equipment are described below. New statutes and regulations related to hunting and trapping may be added during the calendar year or some may change. Although we do our best to have the most up-to-date information in this guide, be prepared for changes to occur. The best way to stay current is to check the DEEP website often, especially before hunting seasons start, at https://portal.ct.gov/DEEPHunting; follow our Facebook page at www.facebook.com/CTFishandWildlife; and subscribe to our free E-newsletter Wildlife Highlights (https://portal.ct.gov/DEEP-Wildlife-Highlights) and Connecticut Wildlife magazine (https://portal.ct.gov/DEEP-CT-Wildlife-Magazine; $8.00 for 6 issues).

**Hunting — General**

**Sunday Hunting:** Possession of hunting implements in the open on Sunday is prima facie evidence of violation (except for archery deer hunters on private land). Sunday hunting is allowed on licensed private shooting preserves and regulated dog training areas when the operator has permission from the town. Hunting may also take place on Sunday at permitted field trial events.

Archery deer hunters (including landowners hunting with a bow during the Free Land owner Deer Season) can hunt on Sundays on private land in ALL Deer Management Zones. All archery deer hunting on Sundays must take place at least 40 yards away from blazed hiking trails.

**Deer Management Zone 2 and 4A Restrictions:** During the Private Land Shotgun/Rifle and Private Land Muzzleloader seasons, the “Antlerless Only” tag is NOT valid in Deer Management Zones 2 and 4A. Only the “Either-sex” tag will be valid in Zones 2 and 4A.

**Prima Facie Evidence of Hunting:** Possession by any person of a loaded hunting implement while at or entering or leaving an area where a reasonable person would believe the objective was to take wildlife. Except that a person may, one hour before sunrise during the regulated deer and turkey firearms hunting seasons, be in possession of a loaded rifle or shotgun provided a live round is not in the chamber of the rifle or shotgun.

**Loaded Hunting Implement:** (A) a rifle or shotgun with a live round in the chamber or in a magazine which is attached to such rifle or shotgun, a muzzle-loaded firearm with the primer in place, or a flintlock firearm with powder in the pan, (B) a bow and arrow with an arrow notched on the bow, (C) a drawn crossbow with a bolt in place, or (D) a high velocity air gun that is charged with a projectile in the chamber or in a magazine that is attached to such air gun.

**Hunting While Under the Influence or Impaired:** No person shall engage in hunting while under the influence of intoxicating liquor or any drug, or both, or while impaired by the consumption of intoxicating liquor.

**Hunting Near Roads, Buildings, People, and Domestic Animals:** Hunting or shooting from or across the travelled portion of any public roadway is prohibited. Shooting toward any person, building, or domestic animal when within range is prohibited.

**Motor Vehicle/ATV Use:** Hunting or shooting from a motor vehicle is prohibited. The use of all-terrain vehicles is prohibited on state land (see exceptions under Hunting Opportunities for Persons with Disabilities on page 38).

**Closed Season:** No hunting and no training of dogs from October 9 through 1/2-hour before sunrise, on October 16, 2021, except for the hunting of rails in marshes; waterfowl hunting; squirrels, deer, turkey, and coyote hunting; licensed private shooting preserves operating under the provisions of Sec. 26-48; field trials held under the provisions of Sec. 26-51 and Sec. 26-52; the training of hunting dogs under the provisions of Sec. 26-49 of the General Statutes; and the training of hunting dogs on any area approved by the department for this purpose.

**Electronic Calling Devices:** The use of electronic calling devices is prohibited when hunting migratory birds (except crows) and turkeys. Electronic calling devices can be used when hunting crows, coyotes, other small game, and deer.

**Hunting Prohibited in Westport:** By special state regulation, hunting within Westport town borders is prohibited.

**Public Shooting Ranges:** Trap or target shooting on any state property or public hunting area is prohibited unless the area is a designated shooting range. Four state-owned public shooting ranges are available for target shooting, patterning shotguns, and sighting in rifles (see box on this page).

**FIREARMS HUNTING**

The holder of a firearms hunting license may use rifles, shotguns, muzzleloaders, handguns, and high-velocity air guns subject to certain restrictions.

**500 Foot Zone:** It is prohibited to hunt with, shoot, or carry a loaded firearm within 500 feet of any building occupied by people or domestic animals, or used for storage of flammable material, or within 250 feet of such buildings when waterfowl hunting in tidal areas from land shooting positions or from floating blinds anchored adjacent to land or from rock positions, unless written permission for lesser distances is obtained from the owner and carried. Landowners, their spouse, and lineal descendants are exempt from this restriction, providing any building involved is their own. The 500 foot zone does not apply to bowhunting.

**Firearms in Vehicles:** It is prohibited to carry a loaded firearm in a vehicle. This does not apply to persons with handguns who have a valid Connecticut permit to carry pistols or revolvers.

**Rifles and Handguns:** Rifles or handguns using ammunition larger or heavier than .22 caliber rimfire are prohibited on state-owned land. Rifles or handguns of any caliber are prohibited on State-leased and Permit-Required Hunting Areas (see Permit-Required and State-Leased...
Hunting on private land with ammunition larger than .22 caliber rimfire during the private land shotgun/rifle deer season is prohibited unless the user has a valid private land deer season permit and landowner consent form. The use of rifles or revolvers to hunt deer is subject to additional restrictions (see Private Land Shotgun/Rifle Deer Season). The use of ammunition larger or heavier than .22 caliber rimfire to hunt raccoon or opossum at night is prohibited. A person using a handgun for hunting must possess any required state/town permits to carry. Note: it is legal to use .17 caliber rimfire firearms in all situations where it is legal to use .22 caliber rimfire firearms.

**Shotguns:** The possession of shotgun ammunition larger than #2 shot is prohibited on state-owned lands, state-leased lands, and Permit-Required Hunting Areas, at all times, and is prohibited on private lands during the Private Land Shotgun/Rifle Deer Season (see Permit-Required and State-Leased Hunting Area sections for exceptions). However, on any lands, waterfowlers hunting from a boat, blind, or stationary position may use up to and including size BB steel shot. The possession of lead shot while hunting waterfowl, rails, and coots is prohibited. The use of shotguns larger than 10-gauge for hunting waterfowl is prohibited. Shotguns must not be capable of holding more than 3 shells (2 in the magazine, 1 in the chamber) when hunting waterfowl, other migratory birds (except crows), deer on state lands, and turkey. The exception is that unplugged shotguns are legal to use during the September Canada goose season. The use of shotguns to hunt deer or turkey is subject to additional restrictions (see Deer Hunting and Turkey Hunting).

**Muzzleloaders:** During Muzzleloader Deer Seasons, a muzzleloader means a rifle or shotgun, .45 caliber minimum, incapable of firing a self-contained cartridge, using powder and a single projectile loaded separately at the muzzle end. Shotgun converters and telescopic sights are legal. Restrictions on the use of smoothbore muzzleloaders for hunting small game and waterfowl are the same as those for shotguns. Restrictions on the use of muzzleloading rifles for hunting small game and waterfowl are the same as those for rifles, except that on state-owned land, up to a .36 caliber muzzleloading rifle using round ball ammunition only may be used. A percussion/in-line muzzleloader with a cap or primer installed, an electronic muzzleloader with a battery connected or a flintlock muzzleloader having powder in the pan are considered loaded firearms.

**High-Velocity Air Guns:** Are restricted to those that use a single ball or pellet-like projectile. Additional restrictions on the use of air guns are the same as those for rifles and handguns.

**BOWHUNTING**

**Bowhunter Education:** All bowhunters must show proof when purchasing a small game/deer archery permit that they have completed the CE/FS bowhunting course (since 1982) or its equivalent from another state or country. If you have previously purchased a 2002, or later, Connecticut bowhunting license you have already provided such proof.

**Legal Bows and Arrows:** For the purposes of hunting deer and turkey, legal bows include long, recurved, or compound bows with a minimum draw weight of 40 pounds and crossbows. Mechanical string release devices are permitted. Projectiles coated with any drug, poison, or tranquillizing substance are prohibited.

**Crossbows:** The use of crossbows for hunting deer, turkey, and all other species is permitted. Legal crossbows must have a minimum draw weight of 125 pounds and permanent fixed rifle type stock with a functional mechanical safety device. Adjustable crossbow stocks are permitted, but folding stocks are not. The bolt (arrow) length must be at least 18 inches, excluding the broadhead. Crossbows are considered loaded when fully drawn with a bolt in place. Telescopic sights are permitted. Legal arrowheads for hunting deer and turkey must have at least two blades and be at least 1/4 inch wide at its widest point. Arrowheads that are designed to open on impact are legal provided they meet the above requirement.

**PROPAGATED GAME BIRDS FOR SHOOTING PRESERVES, DOG TRAINING & FIELD TRIALS**

The taking of propagated game birds (pheasant, partridge, quail) on regulated private shooting preserves, regulated dog training areas, and field trial events requires that each bird taken be identified with a tag containing the permittee’s name and date of taking. Handwritten tags are permitted or copies of the tags below may be used. A full sheet of tags may also be downloaded for printing from the DEEP’s website at [https://portal.ct.gov/DEEPHunting](https://portal.ct.gov/DEEPHunting). Importation of game birds requires a permit from the Department of Agriculture (860-713-2508).

Possession of a Firearm: Possession of a firearm while bowhunting is prohibited.

DEFINITION OF BAG LIMITS

Daily Limit: the number of a particular species that may be taken by an individual during a day (from 12:01 a.m. to 12:00 midnight). While in the field, a hunter may not have in their possession more than the daily bag limit for a species.

Possession in Storage: the number of a particular non-migratory game species kept in storage may not exceed the cumulative daily bag limits for that species since the season began, and at no time can it exceed the season limit. The possession in storage of migratory game species such as waterfowl, woodcock, snipe, coots and rail may not exceed the federally regulated possession limit.

Season Limit: the total number of a particular species that may be taken during an open season.

PRIVATE LAND PERMISSION

All hunters are required to have permission from the landowner when hunting on private lands. Verbal permission for the hunting of species other than deer and turkey is sufficient.

Deer Hunters and Turkey Hunters: must have written permission of the landowner for the current season on official DEEP forms. Copies of the form must be carried while hunting. Old forms, still available at some town clerks and DEEP offices, or a photocopy of the official form found in this guide must be used. Forms may also be downloaded from the DEEP website (https://portal.ct.gov/DEEPHunting). The form must be dated for the current season, indicate the hunting implement types authorized by the landowner, and have the landowner’s original signature. A landowner must have a minimum of 10 acres to authorize the use of a rifle or revolver for deer hunting. There is no minimum acreage requirement for using a shotgun, muzzleloader, or archery equipment.

Landowners and Lineal Descendants: are exempt from the requirement to carry written permission while hunting deer or turkey on their own land.

LANDOWNER LIABILITY RELEASE

Connecticut law provides protection from liability to landowners who allow, without a fee, the recreational use of their property.

Sec. 52-557g. Owner of land available to public for recreation not liable, when: (b) Except as provided in section 52-557h, an owner of land who, either directly or indirectly, invites or permits without charge, rent, fee, or other commercial service any person to use such land or part thereof for recreational purposes does not thereby:

1. Make any representation that the premises are safe for any purpose;
2. Confer upon such person who enters or uses such land for such recreational purposes the legal status of an invitee or licensee to whom a duty of care is owed;
3. Assume responsibility for or incur liability for any injury to person or property caused by an act or omission of such owner.

Sec. 52-557h. Owner liable when: Nothing in sections 52-557i to 52-557/1, inclusive, limits in any way the liability of any owner of land which otherwise exists;

a. For willful or malicious failure to guard against dangerous condition, use, structure, or activity;

b. For injury suffered in any case where the owner of land charges the person or persons who enter or go on the land for the recreational use thereof, except that, in the case of land leased to the state or subdivision thereof, any consideration received by the owner for such lease shall not be deemed a charge within the meaning of this section.

FLUORESCENT ORANGE REQUIREMENT

During the period September 1 through the last day of February, hunters (including persons hunting with deer damage permits) are required to wear at least 400 square inches of fluorescent orange clothing above the waist and visible from all sides. An orange hat, in addition to a coat or vest, is strongly recommended. The following hunters are exempt from this requirement:

- Archery Deer Hunters hunting from September 15 to November 16 and from January 1 to January 31.
- Archery Deer Hunters hunting during the November 17 to December 31 time period may remove their fluorescent orange clothing when hunting from an elevated stand at least 10 feet above the ground.
- Firearms and Archery Turkey Hunters
- Waterfowl Hunters while hunting from boats, duck blinds, or other stationary positions.
- Crow Hunters while hunting from a blind or a stationary position.
- Coyote and Fox Hunters when hunting from a blind except during firearms deer seasons and fall firearms turkey seasons.
- Raccoon and Opossum Hunters when hunting from ½ hour after sunset until ½ hour before sunrise.
- Landowners while hunting deer only on their own property. Family members are still required to wear fluorescent orange.

LICENSE SUSPENSION—REMEDIAL HUNTER ED REQUIREMENT

In accordance with Connecticut General Statute 26-61, payment of a fine, forfeiture of a bond, or a plea or judgment of guilty for fishing, hunting, or trapping violations may result in the suspension of all sport fishing, hunting, and trapping licenses and privileges.

To comply with the provisions of C.G.S. Section 26-31(g), any person having their hunting license suspended for the following safety violations will be required to complete a remedial hunter education course prior to reinstatement of such license following the suspension period. Completion of a CE/FS course is required if the hunter under suspension has not been previously certified.

Laws

- Sec. 26-61 as amended by PA 16-160: Suspension of license, registration, or permit. Restoration. Fines.
- Sec. 26-62: Hunting related injuries/death to any person, animal other than a wild animal or damage to property of another
• Sec. 26-73: Hunting on Sunday (Exceptions: private shooting preserves and archery deer hunters on private land)
• Sec. 26-74: Use of motor vehicle in hunting
• Sec. 26-91: Taking of migratory birds—violations for hunting before or after legal hunting hours
• Sec. 53-204: Hunting from a public highway
• Sec. 53-205: Loaded weapon in a motor vehicle
• Sec. 53-206d as amended by PA 16-152: Carrying of firearm while under the influence of intoxicating liquor or drug

Regulations — Behavior and Actions of Hunters
• Section 26-66-1:
  — (c) hunting before or after legal hours
  — (d) hunting within 500’ of occupied buildings
  — (e) discharging toward people/animals or across public roadways
• Section 26-86a-6:
  — (a) hunting before or after legal hours

**DEALING WITH HARASSMENT**

All hunters, regardless of where they hunt, should be prepared for the possibility of being harassed. Your behavior if you are harassed is extremely important. Maintain your composure and do not retaliate. If you are interviewed by the media, project a positive image.

**Connecticut has a hunter harassment law that protects the rights of sportsmen.** If you decide to press charges, make sure you have a strong case by: (1) making it evident that the antagonists are following you by going in several directions, (2) asking your antagonists why they are harassing you, (3) being able to identify and describe the individuals, (4) taking the license numbers of their vehicles if possible, and (5) not responding with violence or threatening a protester with bodily harm.

**FALCONRY**

Individuals wishing to participate in the sport of falconry must obtain a Connecticut falconry permit prior to obtaining a falconry bird. Falconers are required to abide by the same regulations that pertain to other hunters who hunt small game and waterfowl. Falconers must wear fluorescent orange and must obtain the same licenses, permits, and stamps required for small game and waterfowl hunting. A non-resident falconry permit is required for any non-resident practicing falconry in Connecticut. To obtain application materials, visit the DEEP website (https://portal.ct.gov/DEEPHunting).

**FUNDAMENTAL RULES FOR SAFE GUN HANDLING: ACTT**

The most common causes of hunting-related shooting incidents are failure to identify the target, shooter swinging on game, and careless handling of a firearm. ALWAYS follow these rules for safe gun handling:
- **Assume** the firearm is LOADED.
- **Control** the MUZZLE; keep the MUZZLE pointed in a safe direction.
- **Trigger**: keep your finger off the TRIGGER until ready to shoot.
- **Target**: be sure of the TARGET and what lies beyond.

https://portal.ct.gov/DEEPHunting
Legal Firearms: See firearms and ammunition regulations on page 12.

Resident Game Birds

Species: Pheasant, Ruffed Grouse, Quail, Chukar and Hungarian Partridge, Wild Turkey (see pages 18-19 for turkey hunting season information)

Season Dates
- Pheasant: Jan. 1 – Feb. 27 and Oct. 16 – Dec. 31
- Ruffed Grouse: Oct. 16 – Nov. 30
- Quail: Oct. 16 – Oct. 30
- Chukar and Hungarian Partridge: Jan. 1 – Feb. 27 and Oct. 16 – Dec. 31

Bag Limits
- Pheasant: Daily (2); Season (10)
- Ruffed Grouse: Daily (1); Season (8)
- Quail: Daily (2); Season (10)
- Chukar and Hungarian Partridge: Daily (2), Season (10)

Hunting Hours: ½ hour before sunrise to ½ hour after sunset.

License and Permits: Firearms or Archery Hunting License and Connecticut Resident Game Bird Conservation Stamp

Legal Firearms: See firearms and ammunition regulations on page 12.

Special Conditions
- Extended Quail Season: Quail may be hunted at the Nod Brook WMA and the Flaherty, Mansfield, and Sugarbrook Field Trial Areas from Jan. 1 – Feb. 27 and from Oct. 16 – Dec. 31.
- Landowners hunting game birds on their own land must obtain a Free Resident Game Bird Conservation Stamp and are restricted to daily and season bag limits. Private hunting clubs can apply for exemption from stamp requirements. Contact the Wildlife Division at 860-424-3011 for details. Members and guests of such exempt clubs are not subject to seasonal bag limits when hunting on club lands. They are also exempt from daily bag limits if they use club tags on all released game birds taken on such club lands. Club tags must be applied immediately upon kill and contain club name, hunting license number, and date taken. Game birds identified in this manner do not count towards the statewide daily limit.
- Junior Pheasant Hunter Training Day: Saturday, October 9, 2021. See page 6 for details.

Small Game Hunting Seasons

Licensing and permit costs are listed on page 8–10. Specific laws and regulations for each season are below. You must have verbal permission to hunt small game on private lands.

Small Game Mammals

Species: Gray Squirrel, Cottontail Rabbit, Snowshoe Hare, European Hare, Woodchuck

Season Dates
- Gray Squirrel: Jan. 1 – Feb. 27 and Sept. 1 – Dec. 31
- Cottontail Rabbit: Jan. 1 – Feb. 27 and Oct. 16 – Dec. 31
- Snowshoe Hare: Jan. 1–30 and Nov. 20 – Dec. 31
- European Hare: Jan. 1 – Feb. 27 and Oct. 16 – Dec. 31
- Woodchuck: March 15 – Nov. 15

Bag Limits
- Gray Squirrel: Daily (8); Season (40)
- Cottontail Rabbit: Daily (3); Season (25)
- Snowshoe Hare: Daily (2); Season (10)
- European Hare: Daily (1); Season (10)
- Woodchuck: No Limit

Hunting Hours: ½ hour before sunrise to ½ hour after sunset.

License and Permits: Firearms or Archery Hunting License

Legal Firearms: See firearms and ammunition regulations on page 12.

Special Conditions
- None

Fox and Coyote Hunting

Species: Red Fox, Gray Fox, Coyote

Season Dates
- Red & Gray Foxes: Jan. 1 – Feb. 27 and Oct. 16 – Dec. 31
- Coyote: Jan. 1 – Dec. 31

Bag Limits
- Red and Gray Foxes (combined Daily and Season Limits): Daily (3); Season (30)
- Coyote: Daily (No Limit); Season (No Limit)

Migratory Game Bird Hunting

Crow Hunting

Season Dates: Hunting only on certain days.
- Jan. 9 – Mar. 31 (Mon. through Sat.)
- Oct. 16 – Nov. 27 (Wed., Fri., Sat.)

Bag Limits: No limit

Hunting Hours: ½ hour before sunrise to ½ hour after sunset.

License and Permits: Firearms or Archery Hunting License and a Connecticut Migratory Bird Conservation Stamp.

Legal Firearms: See firearms and ammunition regulations on page 12.

Special Conditions
- Federal Regulations: In addition to Connecticut hunting laws, migratory bird hunters are subject to all Federal Laws and Regulations.
- Non-Toxic Shot: Non-toxic shot is required for hunting rails. The maximum size shot allowed is BB for steel and #2 for other federally approved non-toxic shot types.

Waterfowl Hunting

Species: Duck, Merganser, Goose, Coot

Season Dates: See Migratory Bird Hunting Guide

Bag Limits: See Migratory Bird Hunting Guide

Hunting Hours: See Migratory Bird Hunting Guide

License & Permits: Firearms or Archery Hunting License and Connecticut Migratory Bird Conservation Stamp. Junior Hunters (ages 12–15) are no longer exempt and must obtain the Connecticut Migratory Bird Conservation Stamp. A Federal Migratory Bird Hunting and Conservation Stamp also is required for hunters 16 years or older. See
**Hunting Hours:** ½ hour before sunrise to ½ hour after sunset.

**License & Permits** Firearms or Archery Hunting License

**Legal Firearms** See firearms and ammunition regulations on page 12.

**Special Conditions** Foxes and coyotes taken by hunting must be reported by telephone (1-877-337-4868) or online at https://portal.ct.gov/DEEP-Hunting. Or, they can be pelt tagged (see Pelt Tagging on page 44).

---

### Raccoon and Opossum Hunting

#### Season Dates
Jan. 1–16 and Oct. 16 – Dec. 31

#### Bag Limits
- **Raccoon:** Daily (5); Season (No Limit)
- **Opossum:** Daily (No Limit); Season (No Limit)

#### Hunting Hours
No restrictions on state-owned lands open to hunting and on private lands where landowners have given permission.

**License and Permits** Firearms or Archery Hunting License

**Legal Firearms** See firearms and ammunition regulations on page 12. Also, when hunting at night, rifles or handguns using ammunition larger than .22 caliber rimfire or shotgun shells larger than #2 shot may not be used.

**Special Conditions** It is illegal to take raccoons or opossums with the use of a light from a motor vehicle.

---

page 10 for information about obtaining the Connecticut stamp. Note: federal waterfowl stamps are not valid unless signed in ink on the face of the stamp.

**Legal Firearms** Shotguns are the only firearms which may be used. Refer to the *Migratory Bird Hunting Guide* for regulations regarding the number of shells a shotgun may hold.

**Special Conditions**
- **Non-Toxic Shot:** Non-toxic shot is required for hunting waterfowl, coot, and rails. The maximum size shot allowed is BB for steel and #2 for other federally approved non-toxic shot types.
- **Possession of Lead Shot:** Possessing lead shot while waterfowl hunting is prohibited.
- **Federal Regulations:** In addition to Connecticut hunting laws, waterfowl hunters are subject to all Federal Laws and Regulations.
- **No Hunting Buffer Zone:** While hunting in tidal areas from land or from floating blinds anchored to land or rock positions, the no hunting buffer zone around permanent buildings is 250 feet (see 500-foot regulation on page 12).
- **Fluorescent Orange Clothing:** While hunting waterfowl from boats or stationary positions, a hunter is exempt from the fluorescent orange clothing regulation (see page 14).
- **Junior Waterfowl Hunter Training Days:** See *Migratory Bird Hunting Guide*.

---

**FOR ALL YOUR TRAINING AND BOARDING NEEDS**

Gun Dog training for retrievers, flushing dogs, and pointers. Pre-season tune ups and fitness training, live bird work, hunt test and field trial preparation for spaniels, pointers and retrievers. Boot camp training program for gun dogs, all-breed obedience and behavior problems. Private lessons available.

**MORE THAN BIRDS**

Enroll in our two-week program for pups 12 weeks and up. Let us put your pup on birds, condition them to gun shot as a future field dog, or help them become a wonderful family companion.

**DEDICATED QK VETERINARIAN ON SITE NOW! STOP BY FOR A VISIT!**

Features state-of-the-art boarding, grooming, performance fitness, wellness and canine rehabilitation.

265 N Society Rd, Canterbury, CT | 860-546-2116 | contact@QKDogs.com
**Turkey Hunting**

**Legal Firearms**
Shotguns, 20 gauge or larger, with: #4, 5, 6, 7, 7½ shot, or any combination. Shotguns must not be capable of holding more than 3 shells.

**Legal Bows**
See page 13 for a description of legal bows and arrows for turkey hunting. Mechanical string release devices are permitted.

**Special Conditions**
- **State Land Hunting:** See tables on pages 40–43 for state lands open for spring turkey hunting.
- **Tagging and Reporting:** See pages 27–30 and 34 for information on tagging and reporting.
- **Private Land Permission:** Signed written consent of the landowner on official forms for current season must be carried while hunting (see page 35).
- **Decoys:** Decoys may be used, but live decoys are prohibited.
- **Free Landowner Resident Game Bird Conservation Stamp:** Only available to persons owning 10 or more contiguous acres of land. This stamp does not allow the harvest of turkeys over standard bag limits.
- **Junior Turkey Hunter Training Days:** Saturday, April 17 through Saturday, April 24, 2021 (excluding Sunday). See page 6 for details.

**SPRING TURKEY SEASONS**

**Season Dates**
- April 28 – May 29 State Land, Private Land, and Landowner

**Bag Limits**
- 5 bearded birds per season on private land or state land or a combination of both.

**Hunting Hours**
½ hour before sunrise to sunset

**License and Permits**
CT Residents: Firearms hunting license or Small Game and Deer Archery Permit and a Connecticut Resident Game Bird Conservation Stamp.

Non-residents: 3-day out-of-state bird hunting license or non-resident firearms hunting license and a Connecticut Resident Game Bird Conservation Stamp.

**FALL ARCHERY TURKEY SEASONS**

**Season Dates**
- Jan. 1 – Jan. 30 Private Lands (Zones 11–12)
- Sept. 15 – Dec. 31 Private Lands (All Zones)
- Sept. 15 – Nov. 16 State Land
- Dec. 22 – Dec. 31 State Land Bowhunting Only Areas

**Bag Limit**
2 Either Sex

**Hunting Hours**
½ hour before sunrise to sunset.

---

**FROM FIELD TO TABLE AND EVERYWHERE IN BETWEEN.**

The new Havalon® Talon™ Quick-Change II™ Multi-Blade Cutlery System brings together nearly 40 years of expertise in the surgical field and decades of quality time spent out in the back country.

This innovative platform features a variety of reliable add-on blades designed to make clean work of the dirty work all the way from field to table.
License and Permits  Small Game and Deer Archery Permit and Connecticut Resident Game Bird Conservation Stamp.

Legal Bow  See page 13 for a description of legal bows and arrows for turkey hunting. Mechanical string release devices are permitted.

Special Conditions
• Tagging and Reporting: See pages 27–30 and 34 for information on tagging and reporting.
• Private Land Permission: Signed written consent of the landowner on official forms for current season must be carried while hunting (see page 35).
• Decoys: Decoys may be used, but live decoys are prohibited.
• State Land Hunting: See tables on pages 40–43 for listing of lands open to fall bow hunting.
• Free Landowner Resident Game Bird Conservation Stamp: Only available to persons owning 10 or more contiguous acres of land. This stamp does not allow the harvest of turkeys over standard bag limits.
• Fanning: Use of a turkey fan to sneak in on turkeys is discouraged.

FALL FIREARMS TURKEY SEASONS

Season Dates
• Oct. 2 – Oct. 30  State Land, Private Land, and Landowner

Bag Limits
• 3 either sex per season on private land or state land or a combination of both.

Hunting Hours  ½ hour before sunrise to sunset.

License and Permits  Firearms hunting license or a 3-day out-of-state bird hunting license, and a Connecticut Resident Game Bird Conservation Stamp.

Legal Firearms  Shotguns, 20 gauge or larger, with: #4, 5, 6, 7, 7½ shot, or any combination. Shotguns must not be capable of holding more than 3 shells.

TURKEY HUNTING PROHIBITED ACTIVITIES
• The use of bait, electronic calling devices, live decoys or animals (including dogs) to hunt wild turkeys is prohibited. Except that a dog may be used to hunt turkey during the fall firearms season on private lands only.
• You may not call turkeys for another hunter. Exceptions:
  — If you have a current Connecticut Resident Game Bird Conservation Stamp with or without unused tags remaining, you may call for another hunter on state land.
  — If you have a current Connecticut Resident Game Bird Conservation Stamp with or without unused tags remaining and a signed consent form for a private land parcel, you may call for another hunter hunting on that private land parcel.
• You may not attempt to take turkeys by participating in a cooperative drive.
• You may not shoot turkeys from a building or other permanent structure.
• You may not shoot turkeys roosting in trees.

TAGGING & REPORTING TURKEY KILLS
Immediately upon killing a turkey, complete and sign a Harvest Tag and keep it with the carcass at all times. The Harvest Tag must remain with the turkey until it is cut up for consumption. See pages 27-30 and 34 for more information on Harvest Tags and reporting.

TURKEY HUNTER SURVEYS
Anybody who obtains a Connecticut Resident Game Bird Conservation Stamp may be asked to respond to a survey concerning their turkey hunting activities. Even if you did not hunt, you should complete the survey. Information gathered from the survey is important to the management of Connecticut’s wild turkey population. Surveys may be conducted by mail, telephone, or the internet.

HELP COMBAT ILLEGAL WILDLIFE TRADE

Freshwater turtles are some of the most commonly trafficked species in the U.S. If you see or hear about suspicious behavior that may be connected to the poaching of reptiles, notify Connecticut’s TIP hotline at 1-800-842-HELP (4357) or the U.S. Fish and Wildlife Service (USFWS) at 1-844-FWS-TIPS (397-8477) or email FWS_TIPS@FWS.GOV. You can remain anonymous. Note the exact location, what happened, and who was involved (including vehicles). Take photos if it is safe to do so. Do NOT confront suspicious persons or try to stop the crime yourself. Leave that to law enforcement. The USFWS is authorized to pay rewards for information or assistance related to investigations. More information can be found at https://portal.ct.gov/DEEP-Combat-Illlegal-Wildlife-Trade.
DEER HUNTING SEASONS

DEEP provides hunters with a variety of opportunities to harvest deer in Connecticut. Unique deer seasons are based on equipment used to harvest deer. These seasons include: Archery, Private Land Shotgun/Rifle/Revolver, State Land Shotgun, Private and State Land Muzzleloader, and Free Landowner. To participate in the archery deer season, a hunter must purchase a Small Game and Deer Archery Permit. All firearms season hunters must first purchase a Firearms Hunting License and a separate permit which corresponds to a specific equipment type. To hunt with a revolver, a hunter must purchase a Firearms Hunting License, Private Land Shotgun/Rifle Deer Permit, and a Revolver Deer Endorsement. Licensing and permit costs are listed on pages 8–10. Specific laws and regulations for each deer season are below.

ARCHERY DEER

Season Dates
- Jan. 1 – Jan. 31: Private Lands (Zones 11–12)
- Sept. 15 – Dec. 31: Private Lands (All zones)
- Sept. 15 – Nov. 16: State Land
- Dec. 22 – Dec. 31
- Sept. 15 – Dec. 31: State Land Bowhunting Only Areas

Bag Limits
- 2 Either Sex and 2 Antlerless (Total); additional bag of 1 Either Sex and 1 Antlerless (2 Total) during the Jan 1–31 season on private lands in Zones 11 and 12.

Hunting Hours
- ½ hour before sunrise to sunset.

License and Permits
- Small Game and Deer Archery Permit. Must show proof of completion of the CE/FS bowhunting course (since 1982) or its equivalent from another state or country when purchasing a small game and deer archery permit. A previous Connecticut bowhunting permit purchased in 2002 or later also qualifies.

Legal Bows
- See page 13 for a description of legal bows and arrows for deer hunting. Mechanical string release devices are permitted. There is no minimum acreage requirement for bowhunting.

Special Conditions
- Possession of a Firearm: Possession of a firearm while bowhunting is prohibited.
- Tagging and Reporting: See pages 27–30 and 34 for information on tagging and reporting.
- Private Land Permission: Signed written consent of the landowner on official forms for the current season must be carried while hunting (see page 35).
- State Land Hunting: See tables on pages 40–43 for listing of lands open to archery deer hunting. Certain state lands that do not allow firearms deer hunting are designated as bowhunting only areas. These lands are open to deer bowhunting during the state land shotgun and muzzleloader deer seasons (Nov. 17 – Dec. 21).
- Fluorescent Orange: Bowhunters are required to wear 400 sq. in. of fluorescent orange from Nov. 17 – Dec. 31. Bowhunters may remove fluorescent orange clothing while in a tree stand at least 10 feet off the ground.
- Decoys: Decoys may be used during the early and late archery deer seasons, but must be covered with 400 sq. in. of fluorescent orange during transport. Decoys cannot be used during the Nov. 17–Dec. 31 time period.
- Replacement Tags: Available for this permit type. See page 26 for details.
- Notice: Saturday, November 6 through Saturday, November 13, 2021 (excluding Sunday) are Junior Deer Hunter Training Days and junior hunters with firearms deer permits may be hunting with firearms. See page 6 for details.
- Sunday Archery Deer Hunting: Archery deer hunters (including landowners hunting with a bow during the Free Landowner Deer Season) can hunt on Sundays on private land only in ALL Deer Management Zones. All archery deer hunting on Sundays must take place at least 40 yards away from blazed hiking trails.

PRIVATE LAND SHOTGUN/RIFLE/REVOLVER

Season Dates
- Nov. 17 – Dec. 7

Bag Limits
- Statewide: 1 Either Sex and 1 Antlerless, Zone 7: 1 Extra Antlerless, Zones 11 and 12: 2 Extra Antlerless, Zones 2 and 4a: 1 Either Sex (‘Antlerless Only’ tag NOT valid).

Hunting Hours
- ½ hour before sunrise to sunset.

License and Permits
- Firearms hunting license and Private Land Shotgun/Rifle Deer permit. Note: Revolver Deer Endorsement is also required if using a revolver.

Legal Firearms
- 12, 16, or 20 gauge breech loading shotgun loaded with single soft alloy projectile ammunition. Rifled or smoothbore barrels allowed. Centerfire rifle 6mm (.243 caliber) or larger or revolver .357 caliber or larger may be used if the landholding is 10 or more acres and the landowner has authorized use on the consent form. To use a revolver, you must also have Revolver Deer Endorsement for the current season. Muzzleloading rifle or shotgun, .45 caliber minimum. Single projectile loaded from muzzle end. Telescopic sights and shotgun converters are permitted. No minimum acreage required for shotguns or muzzleloaders.

Special Conditions
- Tagging and Reporting: See pages 27–30 and 34 for information on tagging and reporting.
- Private Land Permission: Signed written consent of the landowner on official forms for the current season must be carried while hunting (see page 35).
- Replacement Tags: Available for this permit type. See page 26 for details.

PRIVATE LAND MUZZLELOADER

Season Dates
- Dec. 8 – Dec. 31

Bag Limits
- Statewide: 1 Either Sex and 1 Antlerless, Zone 7: 1 Extra Antlerless, Zones 11 and 12: 2 Extra Antlerless, Zones 2 and 4a: 1 Either Sex (‘Antlerless Only’ tag NOT valid).

Hunting Hours
- ½ hour before sunrise to sunset.

License and Permits
- Firearms hunting license and private land muzzleloader deer permit.

Legal Firearms
- Muzzleloading rifle or shotgun, .45 caliber minimum. Single projectile loaded from muzzle end. Telescopic sights and shotgun converters are permitted. No minimum acreage required for muzzleloaders.

Special Conditions
- Tagging and Reporting: See pages 27–30 and 34 for information on tagging and reporting.
- Private Land Permission: Signed written consent of the landowner on official forms for the current season must be carried while hunting (see page 35).
- Replacement Tags: Available for this permit type. See page 26 for details.

STATE LAND MUZZLELOADER

Season Dates
- Dec. 8 – Dec. 21

Bag Limits
- 1 Either Sex

Hunting Hours
- ½ hour before sunrise to sunset.

License and Permits
- Firearms hunting license and state land muzzleloader deer permit.

Legal Firearms
- Muzzleloading rifle or shotgun, .45 caliber minimum. Single projectile loaded from muzzle end. Telescopic sights and shotgun converters are permitted.

Special Conditions
- Tagging and Reporting: See pages 27–30 and 34 for information on tagging and reporting.
- State Land Hunting: See tables on pages 40–43 for listing of state lands open to muzzleloader deer hunting.

FREE LANDOWNER DEER SEASON

Available for persons owning 10 or more acres of land.

Season Dates
- Nov. 1 – Dec. 31

Bag Limits
- 1 Either Sex and 1 Antlerless (2 total)

Hunting Hours
- ½ hour before sunrise to sunset.

License and Permits
- Free Landowner Deer Permit. Appropriate hunting license required if landowner does not live on qualifying property. Note: Revolver Deer Endorsement is also required if using a revolver. For hunting with a bow or crossbow, landowners must have a certificate indicating successful completion of a Connecticut Conservation Education/Firearms Safety bowhunting course (or recognized equivalent).
DEER AND TURKEY MANAGEMENT ZONE MAP
(Do NOT use this map for the deer lottery.)
Legal Firearms
12, 16, or 20 gauge shotgun loaded with single soft alloy projectile ammunition. Rifled or smoothbore barrels allowed. Centerfire rifle .243 caliber or larger, revolver .357 caliber or larger, or muzzleloader (.45 caliber minimum). To use a revolver, you must also have Revolver Deer Endorsement for the current season.

Legal Bows
See page 13 for a description of legal bows and arrows for deer hunting. Mechanical string release devices are permitted.

Special Conditions
Free Landowner Permits are available only to persons owning 10 or more contiguous acres of land. Additional permits are available for their spouses, lineal descendants, parents, grandparents and siblings.

- Tagging and Reporting: See pages 27-30 and 34 for information on tagging and reporting.
- Fluorescent Orange: Landowners hunting deer on their own land are not required to wear 400 sq. in. of fluorescent orange, but their spouse, lineal descendants, parents, grandparents and siblings are required to do so.
- Sunday Archery Deer Hunting: Archery deer hunters can hunt on Sundays on private land only in ALL Deer Management Zones. All archery deer hunting on Sundays must take place at least 40 yards away from blazed hiking trails.

STATE LAND NO-LOTTERY

Season Dates
• Nov. 17 – Dec. 7

Bag Limits
1 Either Sex

Hunting Hours
½ hour before sunrise to sunset.

License and Permits
Firearms hunting license and a State Land No-Lottery Permit. You may buy only one type of State Land Shotgun Deer Permit. So, you should not purchase a State Land No-Lottery Permit if you plan on applying for a State Land Lottery or Controlled Hunt Lottery Permit.

Legal Firearms
12, 16, or 20 gauge breech loading shotgun loaded with single soft alloy projectile ammunition. Rifled or smoothbore barrels allowed. Shotgun must not be capable of holding more than 3 shells. Muzzleloading rifle or shotgun, .45 caliber minimum. Single projectile loaded from muzzle end. Telescopic sights and shotgun converters are permitted.

Special Conditions
- Tagging and Reporting: See pages 27-30 and 34 for information on tagging and reporting.
- Open Areas: See pages 40–43 for areas open for the No-Lottery season.

CHRONIC WASTING DISEASE (CWD)

CWD is a naturally occurring disease of the brain and nervous system in cervids (species in the deer/elk/moose family) that attacks the brain, producing small lesions that eventually result in death. Mule deer, white-tailed deer, moose, elk, and reindeer appear to be naturally susceptible to CWD.

Where is CWD found? Prior to 2005, the disease had only been found in North America west of IL. In 2005, CWD was documented in captive and free-ranging herds in NY and in free-ranging herds in WV. CWD has NOT been found in New England, including CT. States and Canadian provinces where CWD has been confirmed include: CO, WY, UT, NM, MT, KS, MN, WI, IL, NE, OK, NY, WV, MI, VA, MD, MO, ND, IA, PA, OH, TX, AR, MS, TN, MI, Alberta, Quebec (captive herd), Ontario, and Saskatchewan.

What is CT doing about CWD? Connecticut banned the importation of live cervids across state lines. In 2005, an emergency regulation was passed banning importation of whole carcasses or parts thereof of any deer or elk from wild or captive herds from other states or Canadian Provinces where CWD has been confirmed. The importation ban does not apply to de-boned meat, cleaned skullcaps, hides, or taxidermy mounts. The regulation became permanent in 2007. From 2003-2011, DEEP tested hunter and vehicle-killed deer as part of a nationwide CWD monitoring and surveillance program. Due to a loss of funding, only deer exhibiting symptoms of CWD were tested from 2012-2013. From 2014-2016, CWD testing resumed thanks to a cooperative effort between the Stewart B. McKinney National Wildlife Refuge and DEEP, and with financial assistance from the USFWS National Wildlife Refuge System. Although additional funding sources were lost in 2017, the DEEP continues to collect samples to test for CWD.

How do I know if an animal has CWD? As CWD advances, infected animals display abnormal behavior, such as staggering or standing with poor posture; become emaciated; and appear to be in poor health. The only efficient method for diagnosis is to dispatch the animal and examine brain tissue and lymph nodes for lesions. Anyone observing a deer exhibiting CWD symptoms should notify DEEP at 860-424-3011 or 860-424-3333 (24 hours). If the animal is dispatched, keep the head intact so that a brain sample can be collected for testing.

What precautions should CT hunters take? Concern over CWD should not limit hunter willingness to harvest deer. No evidence exists that CWD affects humans or is present in the state. Even in states where CWD is found, no one has ever contracted CWD. As a precaution, public health officials recommend that humans avoid consuming meat from deer suspected of being infected with CWD. The CWD prion can be found within the meat of deer in the terminal stages of CWD. Higher levels of infected prions accumulate in tissues, such as the brain, spinal cord, spleen, lymph nodes, tonsils, and eyes, and as a precaution, contact with these items should be minimized. Wearing latex gloves and de-boning meat should also minimize potential exposure. According to a new regulation, and for the safety of Connecticut’s deer population, no person shall possess or use for the purposes of taking or attempting to take or attract deer, or for the surveillance or scouting of deer, any product bought or sold that is manufactured or refined that contains or purports to contain deer urine. Products labeled as “synthetic” may still be used. Products with vague descriptions about their contents are not recommended for use. The new regulation safeguards Connecticut’s native deer population against unnecessary risk of contracting CWD.
A lottery is conducted to award a limited number of permits for deer hunting on certain state lands and controlled hunt areas. To hunt these areas you must apply for a deer lottery permit.

**STATE LAND AND CONTROLLED HUNT LOTTERY**

**Season Dates**
- Nov. 17 – Nov. 26  Lottery “A” Season
- Nov. 17 – Dec. 7  Lottery Regular Season

**Bag Limits**
1 Either Sex on State Land Areas; variable on Controlled Hunt Areas

**Hunting Hours** ½ hour before sunrise to sunset.

**License & Permits**
Firearms hunting license and a state land lottery permit or a controlled hunt area lottery permit. Only one of these permit types may be bought each year. Lottery permits for state land and controlled hunt areas may be applied for starting January 2. Persons rejected for a Lottery Permit may obtain a State Land No-Lottery Permit. However, you may buy only one type of State Land Shotgun Deer Permit. So, if you are selected for the Deer Lottery, you cannot purchase a State Land No-Lottery Permit.

**Legal Firearms**
12, 16, or 20 gauge breech loading shotgun loaded with single shot alloy projectile ammunition. Riffled or smoothbore barrels allowed. Shotgun must not be capable of holding more than 3 shells. Muzzleloading rifle or shotgun, .45 caliber minimum. Single projectile loaded from muzzle end. Telescopic sights and shotgun converters are permitted.

**Special Conditions**
- Tagging and Reporting: See pages 27-30 and 34 for information on tagging and reporting.

**ARCHERY-ONLY CONTROLLED HUNT LOTTERY**

Archery-only lottery distributes a limited number of permits, providing access to controlled hunt areas and allowing landowners to develop hunt programs that may consist of hunters attending a mandatory pre-hunt meeting and/or passing a background check. The archery-only lottery will not affect the hunter’s ability to receive a firearms lottery permit nor will it impact the ability to bow hunt other state lands. In the future, when multiple archery-only lottery areas are available, like the firearms lottery, bow hunters will only be allowed to receive one archery-only area permit.

Follow existing deer lottery application instructions for the archery-only controlled hunt lottery. The archery-only lottery will run through January 30 and no permits will be available to youth hunters 12 to 17 years old.

**Season Dates**
- Sept. 15 – Dec. 31

**Bag Limits**
2 Either Sex and 2 Antlerless; hunters will use the Archery Deer Permit tags.

**Hunting Hours** ½ hour before sunrise to sunset.

**License & Permits**
Archery Deer/Small Game License. Only one of this permit type may be received each year. Lottery permits for archery-only controlled hunt areas may be applied for starting on January 2, at 9:00 a.m. Persons rejected in the archery-only lottery may hunt any state or controlled hunt area that is open to bowhunting. The archery-only controlled hunt lottery is completely separate from the firearms deer lottery.

**Legal Bows**
See page 13 for a description of legal bows and arrows for deer hunting. Mechanical string release devices are permitted.

**DEER LOTTERY APPLICATION INSTRUCTIONS**

Starting January 2, at 9:00 a.m., lottery permit applications can be submitted online at www.ct.gov/deep/SportsmenLicensing.

ADULT licensed firearms hunters over the age of 17 can apply individually or as a group. The maximum number of hunters in a group is four. You may only apply as a group one time. Applicants may apply for up to six areas.

Upon submission of your application, you will know instantly whether you are successful. If successful, the permit for the area and season will automatically be added to your “shopping cart.” If you apply as a group, the associated permit will also be added to each group member’s “shopping cart.” The permit may be purchased at the time of selection or at a later date. Each group member is responsible for purchasing their own permit. All permits must be purchased by January 30. If a permit is not purchased by that date, it will be forfeited.

**No access during Junior Deer Hunter Training Days. Harvest of coyotes and foxes prohibited.**
YOUTH licensed firearms hunters (12 through 17 years old) can only apply individually. All youths will apply by means of a separate lottery program called Youth Lottery Permits. Applicants can apply and receive their area of choice, unless quotas are filled. Youth permits are purchased at the end of the transaction. We recommend that the adult hunter participate in the lottery first before purchasing the Youth Lottery Permit. This will ensure that the youth and adult receive a permit for the same area. All sales are final and DEEP is unable to switch hunting areas or refund fees.

Reminder: Select lottery permits not purchased by January 30 will be made available on a first-come, first-serve basis starting March 15, at 9:00 a.m. Unsold lottery permits can be purchased online or at select DEEP offices up until sold out or the season ends. All unsold lottery permits must be purchased at the end of the transaction. Additional information about the deer lottery may be found at https://portal.ct.gov/DEEP/Hunting. Questions can be directed to michael.gregonis@ct.gov.
In deer management zones 11 and 12, two types of supplemental tags are available: Replacement Antlerless Tags and Earn-a-buck Tags.

**Replacement Antlerless Tags:** For a hunter to receive a replacement antlerless tag, he or she must go to one of several vendor Replacement Tag Deer Check Stations. A current list of check stations is available on the DEEP website at https://portal.ct.gov/DEEPHunting or by calling the Wildlife Division at 860-424-3011. Hunters must also complete the following:

1. Report the deer harvest and obtain a confirmation number within 24 hours of harvest;
2. Bring the antlerless deer carcass or head to a check station within 72 hours of harvest;
3. Submit the deer harvest tag with a confirmation number to the vendor;
4. Sign the replacement antlerless tag that is received from the vendor.

**“Earn-A-Buck” Tags:** If you register a total of 3 antlerless deer from private land during the same season, you may qualify for a replacement either-sex tag.

**Note:** Antlerless deer harvested in other zones may be brought to a check station for the purpose of receiving replacement tags, however, the replacement tags (both Antlerless and Earn-a-buck) may ONLY be used in zones 11 or 12. Replacement tags are available in zones 11 and 12 during the private land archery season, shotgun/rifle season, and muzzleloader season. Consult the Deer Management Zone Map for a description of zones (see page 21). All replacement tags will be issued in limited numbers based on a zone’s deer population management goals.

**DEER HUNTING PROHIBITED ACTIVITIES**

- Hunting with or allowing any dog in your charge to hunt, pursue, or kill deer.
- Hunting deer or any other wildlife while in or on a motor vehicle, snowmobile, or all terrain vehicle (See Hunting Opportunities for Persons with Disabilities for special exemptions).
- Hunting deer by aid or use of a light.
- Taking or attempting to take any deer with the aid of real or artificial bait in Zones 1 to 10, or on state lands in Zones 11 and 12. (Any food, mineral, or chemical product designed to be eaten by deer is considered bait.)
- Use of a decoy during the shotgun/rifle and muzzleloader deer seasons.
- Taking of spotted fawns.
- Artificial or natural foods placed, scattered, distributed or deposited (i.e., hay, grains, fruit, nuts—any foods that may be safely consumed by deer)
- Taking or attempting to take any deer with the aid of real or artificial bait in Zones 1 to 10, or on state lands in Zones 11 and 12. (Any food, mineral, or chemical product designed to be eaten by deer is considered bait.)
- Use of a decoy during the shotgun/rifle and muzzleloader deer seasons.
- Taking of spotted fawns.

**NEW:** For the safety of Connecticut’s deer population, no person shall possess or use for the purposes of taking or attempting to take or attract deer, or for the surveillance or scouting of deer, any product bought or sold that is manufactured or refined that contains or purports to contain deer urine. Products labeled as “synthetic” may still be used. Products with vague descriptions about their contents are not recommended for use.

**HEMORRHAGIC DISEASE**

In October 2017, the first ever cases of Epizootic Hemorrhagic Disease (EHD) were confirmed in white-tailed deer in Connecticut. Symptoms of EHD in deer include swollen head, neck, tongue, or eyelids with a bloody discharge from the nasal cavity; erosion of the dental pad or ulcers on the tongue; and hemorrhaging of the heart and lungs, causing respiratory distress. The virus also creates feverish conditions, causing infected deer to sometimes be found near water sources. Not all symptoms are necessarily present in every infected deer. EHD is transmitted by tiny biting flies (midges). All documented outbreaks tend to occur during late summer and early fall due to an increase in midge numbers and cease with the onset of a hard frost, which kills the midges carrying the virus.

Anyone who observes deer appearing emaciated, behaving strangely, or lying dead along the edge of waterbodies during summer are asked to report the information, along with the closest address, to DEEP’s 24-hour Emergency Dispatch Center at 860-424-3333, the DEEP Wildlife Division at 860-418-5921, or send an email to Andrew.labonte@ct.gov.

**BAITING AND USE OF ATTRACTANTS**

**Attractants allowed during the statewide deer hunting seasons.**

- Deer decoys during the early and late archery seasons only.
- Some types of scent attractants (i.e., tarsal glands, food smells, smoke pole) that provide no substance for deer to consume. All use of natural deer urine products is prohibited.
- All types of sound attractants (i.e., doe calls, buck calls, antler rattling, electronic calls).
- Hunting over planted fields where normal agricultural planting, harvesting, or post-harvest manipulation is used.

**In addition to the attractants listed above, the following are allowed ON PRIVATE LANDS ONLY in Deer Management Zones 11 and 12 during the archery, shotgun/rifle, and muzzleloader deer seasons.**

- Minerals or chemicals that may be safely consumed by deer (i.e., salt lick)
- Artificial or natural foods placed, scattered, distributed or deposited (i.e., hay, grains, fruit, nuts—any foods that may be safely consumed by deer)

**NOTE:** It is strongly recommended that individuals hunting on private lands in Zones 11 and 12 consult with landowners prior to placing bait.

**DEFINITION OF ANTLERLESS DEER**

Some deer tags allow the harvest of antlerless deer only. An antlerless deer is defined as any deer which has no visible antlers. “Button Bucks” are considered antlerless deer. Either sex deer tags allow the harvest of antlered or antlerless deer.

**TAGGING AND TRANSPORTING DEER**

Immediately upon killing a deer, complete and sign a Harvest Tag and keep it with the carcass at all times until it is cut up and packaged for consumption. Deer do not have to be open to view during transport. See pages 27–30 and 34 for more information on Harvest Tags and reporting.

**DEER HUNTER SURVEY**

Anybody who obtains a deer permit may be asked to respond to a survey concerning their deer hunting activities. Even if you did not hunt, you should complete the survey. Information gathered from the survey is important to the management of Connecticut’s white-tailed deer population. Surveys may be conducted by mail, telephone, or the internet.

**TREE STANDS ON STATE PROPERTIES**

Avoid the construction or placement of permanent tree stands involving damage to any tree or shrub. The use of portable tree stands (climber, ladder, or hang-on) is permissible. However, all tree stands must be removed from state properties at the conclusion of the hunting season. The use of a full-body safety harness when using a tree stand is strongly recommended.

**BOWHUNTING SAFETY TIPS**

- **Hunt and shoot within your own physical limitations.**
- **Only point the bow and arrow in a safe direction.**
- **Only nock an arrow when it is safe to shoot.**
- **Be sure of your target and what is in front of it, immediately behind it, and beyond it.**
- **Check the bowstring regularly, and replace it if it becomes worn or frayed.**
- **Prior to each use, check your bow for cracks, dents, breaks, separating laminates, peeling glass, and defects in mechanical parts.**
- **Handle arrows carefully. Protect yourself and the arrow points with a covered arrow quiver.**
- **Cross obstacles and rough terrain with an arrow securely stored in a quiver.**
- **Use a haul line to raise and lower your bow; never climb a tree stand carrying a bow.**
TAGGING AND REPORTING INSTRUCTIONS

1. Immediately upon making your kill, complete a Deer/Turkey Harvest Tag. The Harvest Tag must be kept with your deer or turkey until it is processed for consumption. While transporting your kill, you may keep the Harvest Tag in your pocket or wallet. However, if you leave the kill, the completed Harvest Tag must remain with the animal.

2. All turkeys and deer taken must be reported within 24 hours via the internet at https://portal.ct.gov/DEEPHunting or by telephone at the toll-free number, 1-877-337-4868. To report your deer or turkey, you will need to know the 3-digit number code of the town in which the animal was killed. The table on page 29 lists Connecticut’s 169 towns and their identifying numbers. If you killed your deer or turkey on state land, you will also need to know the 3-digit number code of the public hunting area. See the Public Hunting Area tables on pages 30 or 40–43 to locate the 3-digit number code for each public hunting area and also find out what may be legally hunted on these areas.

How do I report my deer and turkey kills and get a confirmation number?
You can report your kill on the Department’s website or by calling the toll free number 1-877-337-4868. After reporting, you will be given a confirmation number to write on your Harvest Tag. This confirmation number serves as proof that you have legally reported your kill. You may find that submitting harvest reports online is easier than using the telephone reporting system. The telephone reporting system uses a live attendant that will ask you a series of questions to obtain harvest information. On the website, you answer questions by using convenient drop-down menus. Other advantages of using the website are that you can review reports you have previously submitted and print out copies of these reports.

Reporting by Telephone: Call 1-877-337-4868 (1-877-DEP-HUNT)

Reporting on the Internet: Go to https://portal.ct.gov/DEEPHunting and look for the link for reporting deer and turkey harvests.

HARVEST REPORT INFORMATION
Before reporting your harvest, use this form to make sure you have all of the information you need to accurately report your harvest.

**LOOK UP AND WATCH OUT! FOR OVERHEAD HAZARDS**

Several years of storms, drought, and insect infestations have severely damaged a significant number of Connecticut’s trees. A “hazard tree” has a structural defect that makes it likely to fall in whole or in part. Such a tree can fall without warning!

Follow these guidelines to manage risks associated with hazard trees:

- Be aware of your surroundings. Avoid dense patches of dead or distressed trees.
- Be particularly watchful when it is windy or when branches are covered with snow.
- Look up while on trails.
- Avoid parking, picnicking, camping, hiking, and hunting in areas where dead trees or dead limbs could fall.

---

**WHAT TO DO WHEN APPROACHED BY AN ENVIRONMENTAL CONSERVATION POLICE OFFICER**

Each year, Connecticut Environmental Conservation (EnCon) Police Officers check thousands of hunters, anglers, boaters, and visitors at our state parks, wildlife management areas, and forests. A compliance check by an EnCon Police Officer is an opportunity for outdoor enthusiasts to have positive interactions with officers while enjoying all the outdoor recreation opportunities Connecticut has to offer. EnCon Police Officers can help explain laws and also provide information about outdoor opportunities and conditions in your area.

EnCon Police Officers are concerned with enforcement of Connecticut laws and regulations that are intended to keep people safe, protect personal property, and conserve the State’s natural resources. There are a few actions you can take to ensure your experience with an EnCon Officer is positive for both you and the officer.

The way hunters should handle their firearms when approached by a law enforcement officer differs from how they should handle them for safety purposes in other circumstances.

---

**Tagging & Reporting**

**TURKEY IDENTIFICATION GUIDELINES**

Use the chart below to identify the age and sex of your turkey before reporting your harvest.

Example Age Class - Adult Male Turkey:
Beard longer than 6 inches; spur longer than 1/2 inch; outer two wing feathers rounded with barring to the tip; breast feathers black-tipped; tail fan smooth in shape.

<table>

</tbody>
</table>

- Beard longer than 6 inches
- Beard shorter than 6 inches
- Spur longer than 1/2 inch
- Spur shorter than 1/2 inch
- Outer two wing feathers pointed with no barring
- Outer two wing feathers rounded with barring to the tip
- Breast feathers black-tipped
- Breast feathers buff-tipped

When Hunting:

EnCon Officers are concerned with firearms safety and compliance with hunting regulations when checking hunters. When approached by an officer, you are expected to follow all basic firearms handling rules.

- Control the muzzle - keep the firearm pointed in a safe direction.
- Do not attempt to load or unload your firearm while being approached by an EnCon Officer.
- Comply with all instructions directed to you by the EnCon Officer.

Connecticut’s EnCon Police Officers want each interaction with an outdoor enthusiast to be a pleasant experience. Please be polite and courteous. By promptly complying with all requests as directed by the officer, you can help ensure a safe, pleasant, and productive experience. Take advantage of the opportunity to ask the officer questions. EnCon Officers are an excellent source of information about Connecticut laws and regulations, and the surrounding area. They can assist in making your outdoor experience in Connecticut more enjoyable.

**You can help...**

You can help the Wildlife Division keep track of:

- Bobcat
- Black Bear
- Fisher
- Moose
- Ruffed Grouse
- Wild Turkey Broods

Include the date, time, and exact location where the animals were observed. Report bear, bobcats, and moose online at [https://portal.ct.gov/DEEPWildlife](https://portal.ct.gov/DEEPWildlife). Report fisher at [deep.ctwildlife@ct.gov](mailto:deep.ctwildlife@ct.gov), and ruffed grouse at [deep.Franklin@ct.gov](mailto:deep.Franklin@ct.gov). Find out how to participate in the Annual Wild Turkey Brood Survey at [https://portal.ct.gov/DEEP-Wildlife-Community-Science](https://portal.ct.gov/DEEP-Wildlife-Community-Science).

Since 1895 the Connecticut Environmental Conservation Police have been providing Natural Resource Protection and Public Safety through Education, Outreach, and Enforcement. Traditionally known as Game Wardens, today’s Conservation Officer is a highly trained officer tasked with many missions, but our main mission is still natural resource protection. Our officers have a calling and desire to protect our State’s natural resources and ensure all have an equal opportunity to enjoy those resources.

Since spring 2020, we have been experiencing a time like no other, with the COVID-19 pandemic creating unprecedented use of our great outdoor resources. As we navigate through the challenges caused by the pandemic, it is a great opportunity to introduce a friend or family member to the tradition of hunting and trapping. Take advantage of the renewed interest in the outdoors to be a mentor. Next time you head out to the fields or woods, take time to invite another and teach the skills and traditions that have been passed on to you. As we have learned this past year during the pandemic, there is still a keen interest in nature and outdoor activities.

As ethical sportsmen and women, take time to review the hunting laws and regulations. Remember to purchase your license and be proud of the support your license dollars provide to the benefit of all wildlife, including non-game species. We would not enjoy the abundant natural resources today were it not for hunters and anglers and the support their license dollars provide to benefit all Connecticut residents.

Thank you for your help and good luck!

Rabbit Hemorrhagic Disease Poses Threat to Wild Rabbits

Scientists believe that all rabbits and hares are susceptible, including the New England cottontail, eastern cottontail, and snowshoe hare.

Rabbit hemorrhagic disease is a fatal disease in rabbits and is considered a foreign animal disease in the United States. This disease is caused by several virus strains. Animal health officials detected one of these strains, Rabbit Hemorrhagic Disease Virus Serotype 2 or RHDV2, in North America in the past few years. RHDV2 is highly contagious and, unlike other rabbit hemorrhagic disease viruses, it affects both domestic and wild rabbits, including hares, jackrabbits, and cottontails. The New England cottontail, eastern cottontail, and snowshoe hare, which are found in Connecticut, are susceptible to infection and mortality. At this time, RHDV2 is not known to impact humans or other animals.

So far, RHDV2 has appeared in nine U.S. states: Ohio, Washington, Texas, New Mexico, Arizona, Colorado, Nevada, California, and an isolated case in domestic rabbits in New York City. Natural resource agencies have reported events in which three to more than 1,000 rabbits and hares have died. The outbreak in the southwestern U.S. is linked to...
a different strain than the outbreak in the Pacific Northwest and New York, suggesting at least two separate introductions of the virus. RHDV2 has also infected pet rabbits and feral rabbits (domestic rabbits that have been released or escaped from captivity and now live in the wild).

Transmission
The RHDV2 virus is very resistant to extreme temperatures, and can stay viable for months. Rabbits can get the virus from contaminated food and water, contact with infected rabbits, and contact with feces of predators or scavengers that have eaten infected rabbits. People can spread the virus indirectly by carrying it on their clothing and shoes. The first sign of infection is often the sudden and unexpected death of a previously healthy rabbit.

People can inadvertently spread RHDV2 into the wild by releasing domestic or unwanted pet rabbits or through improper disposal of dead rabbits.

Symptoms of RHDV2
Many times, the only signs of the disease are sudden death and blood-stained noses caused by internal bleeding. Infected rabbits may also develop a fever, be hesitant to eat, or show respiratory or nervous system signs, such as poor balance or involuntary movements.

Is RHDV2 a Conservation Concern?
Scientists believe that all rabbits and hares are susceptible, including the eastern cottontail, snowshoe hare, and our only native rabbit, the New England cottontail.

While RHDV2 has not been confirmed in wild rabbits in eastern North America, biologists and other experts are very concerned. The disease spreads quickly and easily in the wild and could easily wipe out species with small populations, such as the New England cottontail.

Rabbits play an important role in our ecosystem. They help control herbaceous vegetation and are an important part of the food chain for many predators, such as bobcats.

What Is the Wildlife Division Doing to Safeguard New England Cottontails?
The New England cottontail is found in parts of Maine, New Hampshire, Massachusetts, Connecticut, Rhode Island, and New York east of the Hudson River. An estimated 13,000 of these secretive animals exist today. The species’ population has decreased dramatically because its young forest and shrubland habitat is declining. Cooperative efforts between the Connecticut Wildlife Division, U.S. Fish and Wildlife Service, Natural Resources Conservation Service (NRCS), Wildlife Management Institute, other state wildlife agencies, and non-governmental organizations have resulted in habitat restoration, outreach and education, and monitoring and assessment of New England cottontail populations.

To help stabilize declining populations and initiate recovery, state fish and wildlife agencies, private landowners, and other conservation partners have worked hard to enhance and protect thousands of acres of young forest and shrubland habitat critical to this rabbit’s survival.

When animals have abundant habitat that supplies ample food and hiding cover, they will be healthier and less susceptible to diseases.

The Wildlife Division has been working closely with the U.S. Department of Agriculture, the State Veterinarian’s office, and the Northeast Wildlife Disease Cooperative to develop monitoring and testing protocols and increase awareness about this very serious disease. The Division is also working closely with other states across the country to monitor the spread of the disease and develop ways to prevent it from impacting new areas.

How Can You Protect Wild Rabbits?
Never release domestic or pet rabbits or hares into the wild since they may spread RHDV2, even if they seem healthy. In their early stages, many diseases, including RHDV2, are difficult or impossible to detect visually. (Released pets may also compete with rabbits, hares, and other animals by using food and other resources that wildlife depend on.)

If you own a domestic rabbit and it becomes ill or dies suddenly, contact your veterinarian or the Connecticut Department of Agriculture’s State Veterinarian. After handling such a rabbit, wash your clothes in hot water and detergent and disinfect all contact surfaces.

Hunters and trappers should avoid taking rabbits that appear sick. Wear disposable gloves when handling game, double-bag carcasses and other remains and put them in the trash, and thoroughly clean knives and other equipment.

If you see a healthy rabbit suddenly die or find several dead rabbits in the same area, contact the DEEP Wildlife Division at 860-424-3011 or deep.wildlife@ct.gov.

REGULATIONS FOR RIDING ALL-TERRAIN VEHICLES IN CONNECTICUT

- All-terrain vehicles (ATVs) MAY NOT be operated on any state lands (exceptions may be granted for paraplegics and sanction events).
- Written permission is required to operate an ATV on private land (if permission is not obtained, may result in a Criminal Trespass Fine).
- ATV MAY NOT be operated in any manner which would harass wildlife or domestic animals.
- All ATVs require a valid registration.
- ATV operators MUST STOP upon request from any law enforcement officer.
- ATVs MAY NOT be operated on any railroad right-of-way.

Potential Impacts of ATV Misuse
- The heavy weight of an ATV compacts soil, often leading to excessive runoff where sediments have negative impacts on aquatic habitats for fish, amphibians, and other wildlife.
- Water quality can also be impacted by suspended sediments blocking light, which reduces the ability of aquatic plants to photosynthesize and reduces oxygen levels in the water column. Reduced oxygen levels cause negative effects on survival and productivity in aquatic ecosystems.
- Vegetation and fragile habitats can be damaged by riding in wetland habitats.
- Invasive plant seeds and plant fragments can be transported long distances on ATVs, causing negative impacts to native plant communities.
- Excessive noise has been shown to disrupt normal behavior patterns of wildlife species, such as nesting, reproduction, and feeding.

Please ride responsibly and follow all ATV rules and regulations.
Harvest Tags

DEER / TURKEY HARVEST TAGS

This page has Harvest Tags that deer and turkey hunters must use to identify their harvest. Photocopies or handwritten versions of these Harvest Tags may also be used. Handwritten versions of these tags must also be signed and include your Conservation ID#, your name, date of kill, time of kill, town of kill and the permit type used. Additional copies of these Harvest Tags are available on the DEEP’s website, https://portal.ct.gov/DEEPHunting.

Immediately upon harvesting a deer or turkey, complete and sign a Harvest Tag and keep with the carcass at all times. Harvested deer and turkey must be reported within 24 hours via the internet at https://portal.ct.gov/DEEPHunting or by calling 1-877-337-4868. After reporting your harvest, you will be given a report confirmation number to write on the tag. Keep the tag, completed with all information, with your report for hunters and consumers of venison. If you would like additional information concerning the health risks of exposure to lead, contact the Department of Public Health at https://portal.ct.gov/DEEPHunting or call 860-509-7740.

LEAD BULLET FRAGMENTS IN WILD GAME

There have been concerns about the potential risk of exposure to lead fragments in deer meat harvested with lead ammunition. These considerations have prompted the DEEP, in consultation with the Connecticut Department of Public Health, to provide additional guidance to hunters and consumers of venison. If you would like additional information concerning the health risks of exposure to lead, contact the Department of Public Health at https://portal.ct.gov/DEEPHunting or call 860-509-7740.

HUNTING ON PRIVATE LAND CONSENT FORM

- All hunters are required to have landowner permission when hunting on private land.
- Private land deer and turkey hunters must carry the form below, signed and dated for the current season. This is required of both archery and firearms hunters.
- You may have a landowner sign a dated consent form before you purchase your license, permits, and stamps, but you must purchase all required license, permits, and stamps, before you hunt.
- Landowners who allow, without fee, the recreational use of their property are protected from liability by Connecticut law (C.G.S. 52-557g).

Properties must be at least 10 acres in size for rifle or revolver use to be authorized.
- Landowners must designate calendar year, seasons, and choice of hunting implements.
- Where baiting of deer is permitted, it is strongly recommended that individuals consult with landowners prior to placing bait.

Photocopies of these forms may be used, but to be valid, must have original signatures and dates.

I know and understand the boundaries of the above listed properties, and that this form is valid only during the calendar year for which it was signed by the landowner. I also understand that any person making a written false statement on this form shall be subject to arrest as provided for in Section 53A-157 of 1975 Rev. of C.G.S.

I hereby grant the person named above permission to hunt on my property during the calendar year indicated. I have also indicated the seasons and hunting implements that may be used.

Public Hunting Areas

PERMIT-REQUIRED HUNTING AREAS
Access to Permit-Required Hunting Areas is regulated by agreement with private landowners, towns, state agencies, water companies, universities, non-profits, and cooperating sportsmen’s clubs. Most Permit-Required Hunting Areas are open to the public from the third Saturday in October through the last day of February for small game and waterfowl hunting by special permit and are subject to certain restrictions. Hunting during any other period requires landowner permission unless specifically noted in this guide as open. Access to some DEEP-owned lands is also regulated through a permit system. Maps describing each Permit-Required Area are available on the DEEP website (https://portal.ct.gov/DEEP-Public-Hunting-Areas). Permit-Required Hunting Areas are posted with yellow plastic signs designating the properties under agreement. A listing of Permit-Required Hunting Areas appears on pages 40–43. Note: Some areas are only accessible with a permit issued directly from the entity that owns or manages the property. See the Permit-Required sections on pages 41 and 43 of this guide.

Daily Permits and Mandatory Survey
Permittees are required to submit a hunter survey when using these areas. Hunter surveys are attached to the permit or are available online.

Issuance of Daily Permits:
• Permits are issued free-of-charge to any persons holding valid hunting licenses and who are not eligible for “season” permits.
• Each permit is valid for one licensed sportsman (unless it is a goose field or waterfowl blind permit, or weekend pheasant permit) for a specified time frame and location.
• Daily permits are first-come, first-serve. Once the quota is met, no more permits can be made available for that day.
• Junior hunters may hunt on Permit-Required Areas when accompanied by a licensed person at least 18 years of age. Junior hunters need their own permit unless they are hunting pheasants with an AM/PM Saturday permit holder.
• Permits will be issued 3 to 5 days in advance.

Online Issuance of Permits
Daily permits for most Permit-Required Hunting Areas can be obtained for free online. These permits are available on a first-come, first-serve basis. Only one online permit can be obtained per selected hunting date. The listing of Permit-Required Areas on the next page indicates which areas have online permitting.

Firearms Restrictions
Rifles of any caliber or shotgun ammunition larger or heavier than #2 shot and hunting with any pistol or revolver of any caliber are prohibited on Permit-Required Hunting Areas, except by landowners, lineal descendants, and regular employees. Waterfowlers hunting from a boat, blind, or stationary position may use up to and including BB size steel shot.

VISIT SESSIONS WOODS
341 Milford Street (Route 69), Burlington, CT
For more information, call 860-424-3011

Learn About Connecticut’s Wildlife
• Exhibit Area
• Self-guided hiking trails
• Demonstrations of wildlife management techniques
• Beaver marsh, observation tower, waterfall

Sportsmen helped pay for the DEEP Wildlife Division’s acquisition of the Sessions Woods Wildlife Management Area through Federal Aid in Wildlife Restoration Act funds. The exhibits, trails, and educational programs at Sessions Woods show citizens how to have a positive impact on Connecticut’s wildlife and other natural resources.

Firewood Regulations in Effect!
Stop the Spread of Invasive Pests
For more information about the regulations, go to
https://portal.ct.gov/DEEP/Forestry/Forestry

www.dontmovefirewood.org
PERMIT-REQUIRED AREA DAILY PERMITS - STATE-OWNED, STATE-LEASED, AND STATE-MANAGED LANDS

Daily permits for most Permit-Required Hunting Areas can be obtained for free online. These permits are available on a first-come, first-serve basis. Only one online permit can be obtained per selected hunting date. To see which areas have online permitting, consult the Permit Vendor List or Public Hunting Area Maps. To get an online permit for most areas, you must log into your hunter profile on the Online Sportsmen Licensing System at www.ct.gov/deep/Sportsmenlicensing. Once there, you will need to select the OTHER or the BIRDS AND WATERFOWL tab at the top of the page. You should then see a list that includes DAILY PERMITS. If you select ADD, you will see several days worth of permits, along with a list of areas where permits are still available. You can add one permit per day to your cart. You must CHECK OUT to add the daily permit to your license. There is no fee, but you will need to reprint your license and carry it with you to verify that you have a permit for the correct location and date. Refer to tables on pages 40–43 to see what types of hunting are permitted.

WESTERN CONNECTICUT

• Bristol Fish and Game Association (1,397 acres)
  Open from the third Sat. in October until the Sat. after Thanksgiving for pheasant hunting ONLY.
  — Online Permitting Only

• Centennial Watershed State Forest, Garder Rd., Monroe Block (93 acres)
  Small Game and Waterfowl Only
  — Online Permitting Only

• Meriden Rod and Gun Club (1,364 acres)
  Southington, CT: 860-621-8145
  — Online Permitting Only

• NU-Skiff Mountain Cooperative WMA (732 acres)
  — Online Permitting Only

• Pequonnock Valley (162 acres)
  Hunting on Mon., Wed., Fri. and Sat. only from Oct. 16 through the third Saturday in December.
  — Online Permitting Only

• Sessions Woods WMA (771 acres)
  Waterfowl blind closed for repairs. Fall archery deer and turkey and spring and fall firearms turkey hunting allowed with a daily permit.
  — Online Permitting Only

• Seymour Fish and Game Club (91 acres)
  — Online Permitting Only

• Stanley Works Cooperative WMA (1,464 acres)
  — Online Permitting Only

• Suffield Sportsmen’s Association (240 acres)
  — Online Permitting Only

• Trout Brook Valley (300 acres)
  Daily permits are issued for all hunting seasons except the State Land Shotgun Deer Season. Prior to each season, call 860-424-3011 to obtain the combination code for the access gate.
  — Online Permitting Only

• Wallingford Town Owned Area (823 acres)
  Hunting on Mon., Wed. and Sat. only from Oct. 16, 2021 through Feb. 27, 2022, and Thanksgiving Day.
  — Online Permitting Only

EASTERN CONNECTICUT

• East Windsor-Enfield Area (209 acres)
  — Online Permitting Only

• Hebron Area (94 acres)
  — Online Permitting Only

• Lebanon Coop. Mgmt. Area (212 acres) Goose Field Permits
  Goose field permittees may bring up to 2 guests. Permits will be issued after the corn fields are harvested.
  — Online Permitting Only

• Lebanon Coop. Mgmt. Area Marsh Permits
  (Small game and waterfowl)
  — Online Permitting Only

• Norwich Fish and Game (549 acres)
  — Online Permitting Only

• Sprague Town Land PR Area (620 acres)
  Game bird and migratory bird hunting only.
  Steel shot must be used for all species
  — Online Permitting Only

• Woodstock Permit-required Area (200 acres)
  — Online Permitting Only

• Yale Forest (7,700 acres)
  Open for small game, waterfowl, and turkey hunting with a season permit. This area is not open for Junior Hunter Training Days. To obtain a season permit, contact Joe Orefice at joseph.orefice@yale.edu or 518-354-3170.

SATURDAY PHEASANT HUNTING PERMITS

Public Hunting Areas

MOSQUITO ADVISORY

2019 and 2020 were active years in Connecticut for detecting mosquitoes infected with Eastern Equine Encephalitis (EEE) and West Nile virus (WNV). Before venturing out during the fall hunting seasons (late summer and early fall are the peak times for EEE and WNV presence), visit the Connecticut Mosquito Management Program website at https://portal.ct.gov/mosquito to obtain weekly surveillance updates of mosquito and virus activity and information on precautionary and control methods against mosquitoes.

HUNTERS FOR THE HUNGRY

This program allows hunters to donate their game to charitable food organizations. The meat must be processed and refrigerated. Whole deer may also be donated through participating processors. For information on where you can donate, call one of the following Hunters for the Hungry contacts:

Bob Jean 860-608-8555
Oakdale

Scott Ragoni 732-310-1665
Greenwich

DOG TRAINING & FIELD TRIAL AREAS

Hunting is permitted on these areas when field trial events are not scheduled. During field trials these areas are closed to all other uses. Check the DEEP website, https://portal.ct.gov/DEEPHunting, for a listing of scheduled events. See tables on pages 40–43 for types of hunting allowed and locations of areas.

Field Trial Areas

The following areas have been established as Field Trial Areas. Field trial clubs sanctioned by AKC, NAVHDA, or CAS-DFTA may obtain permits to use these areas for field trials.

• Nod Brook Wildlife Management Area
• Flaherty Field Trial Area
• Pease Brook Wildlife Management Area
• Sugarbrook Field Trial Area

Dates for state land and state-leased areas are scheduled in December of the preceding year. Any group wishing to use one of the above listed areas should contact Laurie Fortin at 860-424-3963 or laurie.fortin@ct.gov in the month of December or earlier.

HUNTING OPPORTUNITIES FOR PERSONS WITH DISABILITIES

Connecticut laws provide special provisions for hunters with disabilities as do many programs administered by the Department of Energy and Environmental Protection. Questions concerning special permits should be directed to the Wildlife Division at 860-424-3011.

CGS Sec. 26-29b: provides a free hunting license (permits and stamps not included) to individuals who have permanently lost the use of a limb. Non-residents are eligible for this free license if their state provides the same privilege to Connecticut residents. Verification of the disability, signed by a licensed physician, must be presented.

CGS Sec. 26-74: allows a person to obtain a special permit to hunt legally from an all-terrain vehicle so long as they do not possess or shoot a loaded hunting implement while the vehicle is in motion. Note: 4-wheel drive trucks, vans, SUVs, etc. are not considered all-terrain vehicles. Eligible persons must be paraplegic or suffer from the loss of or the loss of the use of both lower extremities.

State Land Access for Disabled Hunters: Disabled hunters wanting to access state land with all-terrain vehicles or who have questions about free hunting licenses or shooting from an ATV should contact the Wildlife Division at 860-424-3639 for more information.

NEW! The CT DEEP and MassWildlife have finalized a Memorandum of Understanding which establishes that both states (Connecticut and Massachusetts), pursuant to their respective authorities (Section 26-29b of the CGS and Massachusetts GL c 131 Subsection 11), agree to issue free inland fishing and hunting, or combination inland fishing and hunting licenses, to a resident of the other state who is the holder of a valid hunting, fishing, or combination inland fishing and hunting license issued to them by their state of residency that specifies that said individual is paraplegic. The individual must, however, still purchase any necessary permits or stamps required by either MA or CT.

TREE STAND SAFETY RULES

A hunter who improperly uses a tree stand for hunting may suffer a serious injury or death. Follow these tree stand safety rules:

• Always use a full-body safety harness or fall-restraint system.
• Only use equipment that is in good condition.
• Avoid hunting from heights greater than 15 feet.
• Maintain a short tether between you and the tree.
• Always use a haul line to raise and lower your hunting equipment.

PLEASE REPORT SIGHTINGS OF THIS BEETLE

The non-native Asian longhorned beetle (ALB) has been attacking trees in the United States. Tunneling by beetle larvae girdles tree stems and branches. Repeated attacks lead to dieback of the tree crown and, eventually, death of the tree. The ALB probably travelled to the United States inside solid wood packing material from China.

The ALB has one generation per year. Adult beetles are usually present from July to October, but can be found later in the fall if temperatures are warm. Adults usually stay on the trees from which they emerged or they may disperse short distances to a new host to feed and reproduce.

Adult beetles are ¾ to 1¼ inches long, with a shiny jet black body and mottled white spots on the back. The long antennae are 1½ to 2½ times the body length with distinctive black and white bands on each segment. The feet have a bluish tinge.

For more information regarding the ALB, visit the DEEP Forestry Division’s webpage at https://portal.ct.gov/DEEP/Forestry/Forestry.

To report any suspected findings, contact: Deputy State Entomologist Dr. Victoria Smith 203-974-8474 or CT State Entomologist Dr. Kirby Stafford 203-974-8485.
THE HUNTER’S PLEDGE

Hunting provides unique challenges and rewards. However, the future of this great tradition depends on each hunter being responsible and ethical.

**Therefore, as a hunter, I pledge to:**

- Show respect for the laws.
- Show respect for other hunters.
- Show respect toward landowners and always obtain permission to hunt on private land.
- Show respect for non-hunters.
- Show respect for the land and wildlife resources.
- Familiarize myself with the areas where I plan to hunt and know the activities that occur there.
- Wear at least 400 square inches of fluorescent orange when required for hunting.
- Dress appropriately and be prepared for any sudden weather changes.
- Call out “Hunter here!” loudly to make my location known if I see another hunter.
- Take responsibility for my actions while hunting.

NATURAL ENDANGERED SPECIES

CT TAX CHECK-OFF WILDLIFE AREAS

Use your state income tax refund to help save Connecticut’s wildlife and plants. Their future is on the line – the “Endangered Species/Wildlife” Fund line on your tax return. Just check the box to make a donation and show your support. Your gift is deductible from next year’s federal income tax.

CONNECTICUT DEPARTMENT OF ENERGY & ENVIRONMENTAL PROTECTION

THANK A LANDOWNER!

Private landowners create recreational opportunities by granting outdoor users access to their property. This access is a privilege, so please remember to take time every year to extend your appreciation to private landowners who offered you access for fishing, hunting, hiking, or wildlife watching opportunities on their properties. If you have been recreating on local land trust or other private non-profit conservation lands, be sure to include those groups on your thank you list as well. Following are some suggestions for hunters, anglers, and other outdoor users when thanking private property owners who allow access for outdoor recreation:

- Express your appreciation thoughtfully and personally. If you are mentoring a new or junior hunter, angler, birder, or naturalist, include him or her in the process of thanking the landowner.
- Consider providing the landowner with some of your fish or game harvest, or share images or a list of the wildlife you saw on their property.
- Send a personal note or card thanking the landowner for the opportunity to use his or her land. Consider giving a small gift, such as a gift certificate, gift basket, or a subscription to *Connecticut Wildlife* magazine. In the case of a non-profit landowner, make a donation to their organization.
- Offer to help with tasks around the property, or identify, clean up, and properly dispose of any illegal dumping that has occurred.

Document and report suspicious or illegal activities on the property to the DEEP Environmental Conservation Police at 1-800-842-HELP (24 hours, toll-free) or deep.EnConPolice@ct.gov.

SAVE ON YOUR TAXES!

Use your state income tax refund to help save Connecticut’s wildlife and plants. Their future is on the line – the “Endangered Species/Wildlife” Fund line on your tax return. Just check the box to make a donation and show your support. Your gift is deductible from next year’s federal income tax.

---

Black Rock Lake, Hancock Brook Lake, and Thomaston Dam: Portions of area open to hunting through cooperation of the Army Corps of Engineers. Firearms hunting limited to shotgun ammunition only. Firearms hunting prohibited between March 30 and the third Saturday in October. Target or trap shooting prohibited.

Bloomfield Flood Control Area Site 2: Site 2 is leased to the town of Bloomfield and a special permit from the town clerk is required to hunt small game under special restrictions. Only open from the third Saturday in October until the end of February. Site 3 is no longer open to hunting.

Great Swamp Flood Control Area: Open for firearms waterfowl hunting; stay south of Farmingville Rd.

Naugatuck State Forest – Quillinan Reservoir Block: No access or parking from Deerfield Lane or Ansonia Nature Center property.

South Central Connecticut Regional Water Authority: Bowhunting for deer only is allowed each year on 3,233 acres in North Branford, 154 acres in Seymour and Ansonia, 420 acres in Prospect, and 520 acres in Bethany. Details on how to apply are at [https://www.rwater.com/learn-more/sustainable-solutions/our-water-sources](https://www.rwater.com/learn-more/sustainable-solutions/our-water-sources).

Stewart B. McKinney NWR (Calf Island Unit, Great Meadows Unit, and Chimon and Sheffield Islands): Waterfowl and fall archery deer and turkey hunting only. At the Great Meadows Unit, waterfowl hunting may be hunted on Tuesday, Wednesday, and Saturday during the regular season. After the close of the regular waterfowl season, Canada and snow goose hunting is permitted every day except Sunday. Hunters must have a signed USFWS Hunt Brochure at all times. Brochures, maps, and more detailed information is on the DEEP website at [https://portal.ct.gov/DEEP/Hunting/Hunting-and-Trapping-Information](https://portal.ct.gov/DEEP/Hunting/Hunting-and-Trapping-Information).

Stewart B. McKinney NWR (Salt Meadow Unit): Waterfowl and fall archery deer and turkey hunting only. Hunters must have a signed USFWS Hunt Brochure at all times. The brochure, a map, and more detailed information is on the DEEP website at [https://portal.ct.gov/DEEP/Hunting/Hunting-and-Trapping-Information](https://portal.ct.gov/DEEP/Hunting/Hunting-and-Trapping-Information).
Public Hunting Areas

The following areas are open to public hunting. The key to the left specifies what type of hunting is permitted. Special stamps and permits are needed when hunting some species. Consult season descriptions for the species you are hunting. Consult page 12 for firearms restrictions. Some portions of these properties may be closed to hunting. Obey all postings. Maps for many of these areas are available on the DEEP website at https://portal.ct.gov/DEEP-Public-Hunting-Areas. It is recommended that you check the Public Hunting Area Map on the DEEP website for the most current hunting area information as changes or updates may occur after this guide is printed.

Access: Public hunting areas marked by an asterisk (*) have notes at the end of this section. Important notes are highlighted in red.

Eastern Connecticut - Middlesex, New London, Tolland, & Windham Counties

- Hunting Permitted
- Archery ONLY
- Designated Fall Deer/Turkey Bowhunting Only Area
- Some Sections Open to Archery ONLY (see map)
- Special Conditions Apply
- Daily/Season Permit Required (see page 36)
- Spring Turkey Hunting ONLY

(▲ and ▼ areas are open for archery hunting during the shotgun and muzzleloader deer seasons)

Harkness Memorial State Park: A portion of the park north of Rte. 213 (former Verkade property) is designated as a Deer Bowhunting Only area. Special access permits are required. Inquire at Park Manager’s Office.

Lebanon Cooperative Management Area: Hunting only in area located south of Old Rte. 2 (Norwich Ave.). Area owned by the Dept. of Agriculture and leased for farming.

Nye Holman State Forest: Sections adjacent to field archery range in Tolland are closed to all firearms hunting and are designated Deer Bowhunting Only areas. Youth camping area is closed to all hunting.

Silvio O. Conte National Wildlife Refuge (4 parcels of federal land): Hunting information for the Conte NWR, including a map and hunt brochure for hunters to print and carry with them when hunting on Refuge lands, can be found at [https://www.fws.gov/refuge/Silvio_O_Conte/visit/hunting.html](https://www.fws.gov/refuge/Silvio_O_Conte/visit/hunting.html).

Yale Forest Permit-Required Area: Area open from September 1 through February 28 for small game, waterfowl, and turkey hunting by seasonal access permit. Parking passes are also required. To obtain a season wild turkey, small game, and waterfowl permit, contact Joe Orefice at joseph.orefice@yale.edu or 518-354-3170. Night hunting and harvest of coyotes and foxes prohibited.

</tr>
</tbody>
</table>

* All beaver, fisher, river otter, red fox, gray fox, wild mink, and coyote pelts must be properly tagged before they are sold, exchanged, given away, otherwise disposed of, or retained for personal use. These pelts must be tagged by the last scheduled tagging date of the season. Fur dealers are prohibited from buying or selling untagged pelts of these species.

Foxes and coyotes taken by hunters, instead of being pelt tagged, may be reported by telephone (1-877-377-4868) or online at https://portal.ct.gov/DEEPHunting.

2021 PELT TAGGING SCHEDULE
- Natchaug Forest Hdqtrs. ..................... Mar. 21
- Kingsbury Road, Eastford
- Southford Falls State Park ..................... Apr. 3
- RTE. 188, Oxford
- Franklin WMA .................................. Apr. 4
- RTE. 32, Franklin
- Sessions Woods WMA ........................ Apr. 4
- RTE. 69, Burlington

Pelts will be tagged (at no cost) by DEEP representatives between 9:00 a.m. and 11:00 a.m. at the locations and dates listed above. Pelts can be tagged at some DEEP field offices during weekdays by appointment. Call 860-424-3015 (Sessions Woods) or 860-418-5936 (Franklin) for weekday and other tagging options.

HELP NEEDED FOR BOBCAT RESEARCH PROJECT
Any Connecticut trapper who incidentally captures a bobcat with ear tags and/or a GPS collar should record the tag number before releasing the bobcat and then contact the Wildlife Division at 860-424-3011 to report the bobcat. Trappers in the Farmington Valley who incidentally capture any bobcat during the Fall 2021/Winter 2022 trapping seasons should contact DEEP’s 24-hour Dispatch Center at 860-424-3333 as soon as possible. DEEP biologists will arrange to meet trappers to immobilize, tag, and release the bobcat on site.

**COYOTE LAND TRAPPING**

From December 1 through January 31 there are special provisions for trapping coyotes on private land. Refer to PADDED METAL TRAP RESTRICTIONS section on page 46 for the requirements that must be met to trap coyotes on private land during this time period.

**TAXIDERMISTS**

Taxidermists can accept untagged animals or pelts, but are required to have them tagged by the next scheduled tagging date. Taxidermists must attach a paper tag to the animal or pelt listing the hunter or trapper’s name, Conservation ID number, town of harvest, and date of harvest.

**PELTS OF PROTECTED SPECIES**

Any skin, pelt, or carcass of protected species, including Bobcat and Black Bear, may not be sold, purchased, or possessed unless:

- It was legally acquired and,
- In addition to any tag required by any other state or country, affixed with a separate tag bearing the following information: (a) Date acquired, (b) Name and address of the person from whom it was acquired, (c) Hunting or trapping license number under which it was harvested (if applicable), (d) State and/or country from which it was acquired.

# CARCASS COLLECTIONS

Trappers are required to submit fisher carcasses to the Wildlife Division for research purposes. The carcasses can be frozen and submitted prior to or during one of the listed pelt tagging dates. To make special arrangements for fisher carcass submission, call the Wildlife Division at 860-424-3011.

**STATE LAND TRAPPING**

Permits for trapping on selected state-owned land can be purchased for $120.00 per unit. There are two units, one east and one west of the Connecticut River, which include many of the state forests and wildlife management areas. Information on applying for permits, requirements, and available properties is on the DEEP website at www.ct.gov/deep/hunting or contact the Wildlife Division at 860-424-3011.

**LEGAL TRAPS AND METHODS**

Furbearing animals for which there is an open trapping season may be taken by Box Traps, Live Traps, Deadfalls, Padded and Unpadded Metal Traps, Smooth Wire Traps, and Species Specific Traps subject to the following restrictions.

**UNPADDED METAL TRAP RESTRICTIONS**

1. May only be used below the surface of the water in a pond, lake, stream, spring hole, or tidal water. Except, smooth wire traps having an opening of 4⅞” or less may extend above the surface of the water provided a portion of the trap frame remains in contact with the water.
2. Opening greater than 6¾” is prohibited, except that traps with an opening of up to 7¾” may be set for beaver in waters frequented by beaver.

**SMOOTH WIRE TRAP RESTRICTIONS**

1. May only be used below the surface of the water in a pond, lake, stream, spring hole, or tidal water. Except, smooth wire traps having an opening of 4⅞” or less may extend above the surface of the water provided a portion of the trap frame remains in contact with the water.
2. Opening greater than 6¾” is prohibited, except that Conibears and similar smooth wire traps with an opening of up to 10” may be set for beaver in waters frequented by beaver.

**THE FOLLOWING ARE PROHIBITED:**

- The use of any type of snare.
- Traps placed, set, or tended within 10 feet of the waterline of a muskrat house or beaver house.
- Traps with serrations or teeth.

**TRAPPERS ARE REQUIRED TO:**

- Attach their name legibly to all traps.
- Obtain, and have in possession, the written permission of the landowner when trapping on their land. Written permission must be renewed annually. (Permission slip on page 46).
- Tend all traps within a 24-hour period.

**TRAP DEFINITIONS**

**Padded Metal Trap:** A legal padded metal trap has all of the following features or characteristics:

1. Spring strength not exceeding 55 inch pounds or greater, and traps must be securely anchored to the ground.
2. A gap between the arms of the trap in the open position; Opening greater than 5¾” is prohibited, except that traps with an opening of up to 7½” may be set for beaver in waters frequented by beaver.
3. Replacement non-weather hardening, non-age hardening padding material not less than ¼ inch thick covering the closing surfaces and securely affixed to the arms of the trap; 4. A chain no longer than 6 inches in length; 5. Swivels located at each end of the chain, and; 6. A shock absorbing spring incorporated into the anchoring chain.

**Species Specific Trap:** A legal species specific trap has all of the following features or characteristics:

1. Triggering and restraining mechanisms enclosed by a housing;
2. When set, triggering and restraining mechanism accessible only via a single opening;
3. An access opening measuring not greater than 2 inches in diameter or diagonally;
4. A triggering mechanism that can only be activated by a pulling force;
5. A swivel-mounted anchoring mechanism.
The target shooting and hunting community prides itself on being safe and responsible with firearms in all situations—from using them outdoors to storing them safely at home. Sometimes, however, unusual conditions such as extremely dry environments require an extra level of awareness and safety on the part of shooters.

Wildfires have many possible causes. The National Shooting Sports Foundation, the trade association for the firearms and ammunition industry, reminds all shooters that during dry and hot weather conditions their use of certain ammunition and targets could accidentally ignite a wildfire. NSSF reminds all target shooters and hunters, as well as other outdoor enthusiasts, to consider the potential consequences of their activities in fire-prone environments.

Shooters & Hunters: Help Prevent Wildfires.

- Make it a point to know the regulations and rules related to shooting in areas experiencing dry and hot conditions, whether on public or private land or at shooting ranges. Many national forests, for example, do not allow recreational shooting when fire restrictions are in effect.

- Consider the type of ammunition and targets you are using. Minimize the risk of fires by not using steel-jacketed ammunition, ammunition with steel-core components, tracer rounds or exploding targets in fire-prone areas.

- Remember that equipment, such as cars and ATVs, can have extremely hot exhaust systems that could ignite dry vegetation, so park only in designated areas.

- Extinguish and dispose of smoking materials safely.

- Follow guidelines to extinguish campfires.

- Warn others of potential dangers and behaviors for starting wildfires.

- Report any wildfire you see to authorities.

- Spread this message to other target shooters, hunters and outdoor enthusiasts.

RABIES: WHAT HUNTERS AND TRAPPERS SHOULD KNOW

- Rabies is a disease caused by a virus affecting the central nervous system. Left untreated, rabies is almost always fatal.
- Rabies is primarily transmitted through the bite of an infected animal; however, people may also be exposed by being scratched by a rabid animal or getting an animal’s saliva in an open wound or mucous membrane (eyes, nose, or mouth).
- Only mammals get rabies. Raccoons, skunks, bats, foxes, dogs, and cats are most likely to get rabies. Rabbits, opossums, and squirrels are seldom affected.
- Since 1991, rabies has infected thousands of raccoons in Connecticut. Hunters and trappers can minimize their risk of exposure to rabies by following several common sense rules and by knowing what to do if they or their pets are exposed:
  - Avoid contact with animals appearing sick or acting abnormal, i.e. aggressive, paralyzed, disoriented, or unusually tame.
  - Wear disposable rubber gloves when dressing and skinning game, and clean up with soap and water promptly.
  - Make sure your dogs have current rabies vaccinations. If you have a cat as a household pet, be certain it is vaccinated as well.
- Landowners who allow, without fee, the recreational use of their property are protected from liability by Connecticut law (C.G.S. 52-557g).
- Trappers who have completed a DEEP-approved coyote land trapping course may use padded metal traps on or below the ground from December 1 through January 31 for the taking of coyotes on private land parcels of at least 10 contiguous acres where the landowner has given written permission explicitly for the use of such traps.

Photocopies of these forms may be used, but to be valid, must have original signatures and dates.

CONSENT TO TRAP ON PRIVATE LAND DURING THE CALENDAR YEAR

I know and understand the boundaries of the above listed properties, and that this form is valid only during the calendar year for which it was signed by the landowner. I also understand that any person making a written false statement on this form shall be subject to arrest as provided for in Section 53A-157 of 1975 Rev. of C.G.S.

I hereby grant the person named above permission to trap on my property during the calendar year indicated. I have also indicated whether or not the trapper is authorized.

Signature of Permittee Date Signature of Landowner Date

Check if trapper is authorized to use padded metal traps for coyote land trapping.

- If you frequently handle high risk species, such as raccoons, skunks, or foxes, consider getting the human pre-exposure vaccine.
- If you are bitten or scratched or think that you have been exposed to rabies from a wild animal, wash the exposed area thoroughly with soap and water, and contact your doctor or emergency clinic immediately.
- If possible, without further injury or risk of exposure, capture, kill, or confine the wild animal without damaging the head, and contact your local health department for additional information.
- If your pet fights with a wild animal, attempt to secure the animal for rabies testing. Always wear gloves when handling your pet or treating its wounds under such circumstances. Notify your local Animal Control Officer and contact the pet’s veterinarian for advice and/or treatment.
- Rabies virus is concentrated primarily in the saliva, brain, and spinal cord. Heat from thorough cooking will kill the rabies virus, making properly cooked meat from game animals safe. When preparing meat for cooking, wearing rubber gloves and cleaning up with soap and water is recommended.

Your anonymous participation advances fish and wildlife conservation, helps protect your right to hunt, fish and shoot, and guides companies in developing better outdoor products.
The Wildlife Division’s Conservation Education/ Firearms Safety (CE/FS) Program offers hunting safety classes on firearms and archery hunting and trapping throughout the year. The classes are taught by a dedicated corps of certified volunteer instructors. The CE/FS Program also offers Advanced Hunter Education seminars on such topics as waterfowl hunting, hunter marksmanship, small game hunting, venison processing, and wild turkey hunting. These seminars expand on the knowledge and skills of hunters and anyone else who wants more information about hunting. All programs are free and open to the public. Registration is required. Registration opens 30 days in advance of each seminar.
