Exemption Application for 2023

NEW Manufacturers of Beverage Containers

Pursuant to section 22a-345b CGS, any manufacturer who, during a calendar year, (1) bottles and sells two hundred and fifty thousand or fewer beverage containers containing a noncarbonated beverage that are twenty ounces or less in size each; or (2) bottles and sells one hundred thousand gallons or less of juice in beverage containers may apply for an exemption from the requirements of CGS section 22a-244 to 245a inclusive, with regard to such beverage containers containing noncarbonated beverages. A manufacturer or such manufacturer's authorized agent must apply for an exemption no earlier than October 1 and no later than November 1st for the following calendar year.

The only exception is for a new manufacturer who started bottling/selling noncarbonated beverages after November 1st of a calendar year. In this case, manufacturers or such manufacturers' authorized agent must complete and submit all sections of this form and certify to the statements made hereto.

Should a manufacturer choose to use an agent to complete the exemption application, such manufacturer shall provide the agent with a clear written statement authorizing such agent to act on behalf of the manufacturer and submit the original letter with this completed application.

You must complete the **ENTIRE** form, otherwise your form cannot be processed, and your exemption cannot be approved. If a question does not apply, enter "N/A".

Part I: Manufacturer Information

Manufacturer or Owner of Private Label Trademark			
Company Name:			
Mailing Address:			
City/Town:	State:	Zip Code:	
Business Phone:	ext.
