

The Review and Drafting Team is charged with assembling the Working Group's feedback on the concept papers provided by the Subcommittees and presenting such feedback in a document that can be conveyed to DEEP and DECD. This feedback should encompass the Working Group's thoughts on the Subcommittee concept papers by identifying concepts or assumptions made while also highlighting potential issues within the concept papers that may require modifications or alterations and suggesting alternative approaches to such potential issues. This review should evaluate how the first phase concept papers fit within the concepts identified by the second phase Subcommittees and identify any "fit" issues that may require further discussion or analysis during the regulation drafting process. The team should use the answers provided by subcommittee chairs and DEEP during question and answer sessions, and the written feedback provided by DEEP, to help gauge the workability of certain concepts.

The Review and Drafting Team will be comprised of Working Group members. Team members should also seek input and feedback from a broad range of interest groups to provide representation of a diverse cross-section of stakeholders. DEEP will provide resources to the Team that will be available to provide answer questions from the Team and provide requested feedback.

It is envisioned that this one team will address all crosscutting topics and recommend issues that may require further follow up by the Working Group. Ultimately, the Review and Drafting Team should draft a document that transmits both the first and second phase Subcommittee concept papers with Working Group-approved modifications, alterations, and questions reflective of the position or positions of the Working Group cohort groups.

Review and Drafting Team Timeline

- A survey soliciting participation will be sent the evening of May 10th and close May 17th
- Selected members will be notified of their participation on May 17th
- The first meeting will be held May 18th, 9 AM on Zoom
- Future meeting times will be decided by the Team

DEEP participation?
