**Flowchart for Flood Management Certification Process**

State Funded and Sponsored Housing Projects

**STEP 1: Is a Flood Management Certification Required?**

- Is the site or any activity associated with the project located in a 100 yr and/or 500 yr floodplain?
  - **YES:**
    - Does the activity appear to qualify under one of DOH’s General Certifications?
      - **YES:**
        - Proceed to Step 2
      - **NO:**
        - Flood Management Certification required by DEEP
          - Contact DOH
          - "DEEP/DOH Flood Management FAQ"
          - Proceed to Step 2
        - No further

- **NO:**
  - Contact DOH

**STEP 2: Project Siting**

**New Construction, Demolition/Rehabilitation, or Substantial Rehab (Substantial Rehab is when the cost equals or exceeds 50% of market value of the structure before the "start of construction" of the improvement)***

- **YES:**
  - Does the placement of utilities encourage future floodplain development?
  - Does the activity involve fill within a watercourse to create dry land?
  - Will the activity change the use of the property?
    - **YES TO ANY:**
      - Proceed to Step 3
    - **NO:**
      - NO TO EITHER OR BOTH
  - Proceed to Step 3

- **NO:**
  - NO TO ALL
  - Proceed to Step 3

**CAUTION**

DEEP may not approve FMC. Schedule Pre-App Meeting with DEEP/DOH/DECD
