TELECOMMUNICATIONS (DSET)**

**CAPITAL EXPENSE GRANT
APPLICATION (SFY 2022 – 2023)**

Capital Expense Grant Application

STATUTORY AUTHORITY & DSET POLICIES AND PROCEDURES

In accordance with the Regulations of Connecticut State Agencies Sec. 28-24-5a & 28-24-10a (Adopted effective July 1, 2020) regional emergency communications centers and funded municipalities with populations in excess of 40,000 may apply for funding from the Capital Expense Fund.

In reference to this grant, capital expenditures shall be defined as any single, non-recurring acquisition in excess of **\$10,000** for durable goods, information technology or related services in a single budget cycle that support “Emergency Telecommunications”. Examples of eligible expenses include: architectural services, building materials, restoration services and labor needed to accommodate new equipment in existing buildings; upgrades or equipment replacement and associated labor for radio telecommunications; computer-aided dispatch (CAD) software; technical upgrades; and record management systems, furniture, consoles, and radio tower equipment for emergency communications centers. Funding *will not* be provided for vehicles, real estate, or building purchases.

Funding for capital expenses grants is based on a formula of 20% of the total subsidy for regional emergency telecommunications centers and funded cities. The chief executive officer of the town or city, or the representative board of the regional PSAP, must provide documentation of any available matching funds to the Division.

Requests must be received at least 90 days prior to purchase. If funds are available and the project is approved, the funded municipality or regional center would be the applicant and the direct recipient of the funds. Reimbursements cannot be paid directly to contractors.

The process for submitting grant applications and requesting reimbursement is as follows:

- Submit application with documentation that clearly describes, in detail, the intended purchase.
- Requests **must** be accompanied by a letter of commitment from the organization's board or municipality's chief elected official, indicating funds are committed to fully fund the project.
- Grant applications must include a detailed need statement and project plan including a detailed project description, estimated timelines, and costs.
- Applications are accepted from July 1st to April 30th. Funding for capital expenditures is granted on a State Fiscal Year (SFY) calendar (July 1st -June 30th).
- The grant term shall commence upon written approval from DSET. The State will then issue a Purchase Order (PO).
- Upon completion of the project submit a letter requesting reimbursement, which references the PO number, within 120 days from approval. Exceptions may be made but must be pre-approved by DSET. Include invoices and proof of payment.
