

Regarding Connecticut Governor's Travel Advisory:

As of March 19, 2021, Governor Lamont's [Executive Order No.9S, Section 1](#) regarding travel is no longer in effect.

Connecticut residents and travelers to Connecticut should follow travel-related guidance from the Centers for Disease Control and Prevention (CDC) and the Connecticut Department of Public Health (CT DPH). Mandates and requirements are not currently in place in Connecticut. [When You've Been Fully Vaccinated | CDC](#)

Note:

- *Travel advisory is based on status of COVID-19 vaccination.*
- *Fully Vaccinated means 14 days or more have passed since the last dose of COVID vaccination*
- *There are no identified states excluded from the advisory*
- *Individuals with symptoms suggestive of COVID-19 infection should return to work only after a negative COVID test and a doctor's note clearing them to return*
- *Staff members planning to travel out of state should contact their facility Human Resources Director before travel and on return from those states.*

For Fully vaccinated individuals

*Since fully vaccinated travelers are less likely to contract and spread COVID-19, they can travel safely within the United States and do not have to test before or after travel (unless their destination requires it) and **do not have to quarantine after travel.***

For Return from International Travel:

- *You do NOT need to self-quarantine **after** arriving in the United States.*
- *You should still get tested 3-5 days **after** international travel but continue to work while awaiting result of test.*

Fully vaccinated persons should still:

- *Wear a mask over their nose and mouth*
- *Stay 6 feet from others and avoid crowds*
- *Wash hands often or use hand sanitizer*

For Staff Recently Recovered from COVID-19 infection

Staff members who have clinically recovered from COVID-19 and are within 90 days of onset of symptoms do not need to quarantine on return from travel. However, after 90 days, the guidance for fully vaccinated or unvaccinated staff will apply.

For Unvaccinated Individuals (includes those who have not been fully vaccinated)

- 1. Quarantine on return from travel*
- 2. Test on day 5. If negative, return to work after 7 full days of quarantine.*
- 3. Other exceptions as may become necessary following discussion with the DMHAS Medical Director*

They should also:

- 4. Wear a mask over their nose and mouth*
- 5. Stay 6 feet from others and avoid crowds*
- 6. Wash hands often or use hand sanitizer*
