

MOBILE EMPLOYMENT SERVICES (MES)

The “Mobile Employment Services (MES)” project was developed by the CT Department of Mental Health and Addiction (DMHAS) in response to the opioid epidemic in CT. The focus is to provide onsite employment support in DMHAS funded half-way houses, recovery houses, and supported recovery housing for individuals in early recovery who are unemployed or underemployed in two key ways:

- Hands on support with resume writing, completing applications, presentation and interview skills.
- Community support with building relationships, connection to employers, and identifying and educating employers on the benefits of employing individuals in recovery, and matching candidates with appropriate opportunities.

The locations and contact information for these are listed below:

STAMFORD: Laurel House; 6 Washington Blvd, Stamford, CT
