Want to deepen your understanding of the unique behavioral health needs of LGBTQ+ individuals, particularly with regard to gender identity and expression? Join the CT Department of Mental Health and Addiction Services and the Connecticut Women's Consortium at the Intersectionality and the Gender Continuum conference on June 10th, 2022. Through four presentations, participants will move beyond an introductory understanding of LGBTQ+ communities and delve into the experiences and needs of trans and gender-diverse people. Participants will develop a better understanding of the diversity of sexuality and gender identity, learn about trauma-informed care for LGBTQ+ individuals, develop a framework for providing trans-competent care, and come to recognize how discrimination, isolation, trauma, and violence especially impact trans people of color.
