

Hemp Research Plan *(This is required until a permanent hemp program is approved by USDA.)*

Write a narrative of the hemp research plan that your business has completed or intends to complete. This could include: variety CBD yields, variety yield studies, variety seed oil production studies, fiber production studies, food ingredient studies (note: hemp is currently not an approved ingredient for animal food), or other studies. Attach additional documents as necessary.

I will be researching if Hemp is a viable crop on my farm and which Hemp varieties provide the best return on investment.
