Diversity, Racial Equity, and Inclusion in Connecticut Agriculture

Working Groups Compile Preliminary Recommendations

Nearly one year ago, Governor Ned Lamont announced on March 10, 2021, that his administration was forming a working group with the goal of increasing diversity, racial equity, and inclusion within Connecticut’s agriculture industry. Administered by the Connecticut Department of Agriculture (CT DoAg), the Diversity, Equity, and Inclusion in Connecticut Agriculture Working Group was tasked with engaging and supporting current and future farmers and those in the industry who are Black, Indigenous, and people of color.

The announcement included a call for nominations to fulfill the structure of the working groups of one main entity and five smaller topics, including:

- Access to Capital and Financial Planning
- Access to Secure Land Tenure
- Access to Education and Training
- Access to Resources, Infrastructure, and Business Planning
- Market Access and Diversification

More than 70 nominations were received reflecting a broad range of organizations and businesses, as well as a demonstrating a strong desire to be part of the solution. More than half were selected to participate in the working groups to allow for a wide range of voices and perspectives. The group members have been focused on identifying the barriers to entering and remaining successful in agriculture, especially for Black, Indigenous, and people of color in Connecticut.

Following introductory meetings, the Access to Capital and Financial Planning and Access to Resources, Infrastructure and Business Planning were combined into one working group.

Overarching discussions to date have included language justice, accessibility of department grants, how to improve outreach and communications, producer
While the working groups continue to finesse their recommendations for future implementation, there are some ideas that have been acted upon already. One such example is a recommendation from the Access to Education and Training working group to offer the CT Weekly Agricultural Report in multiple languages, or at a minimum, Spanish. Late in 2021, CT DoAg began offering a Spanish translated version on a weekly basis, providing greater access to information about grants, webinars, and other resources.

Looking Ahead
Working groups will continue to meet on a regular basis and all meetings are open to the public. Please visit the Diversity, Equity, and Inclusion webpage for detailed updates from the working groups including meeting notes, recordings, and a year-end review across all the working groups.

The working groups have until Fall 2022 to fully formulate their recommendations to CT DoAg and the agriculture industry, including changes to existing programming, as well as developing and proposing potential new state-wide initiatives. These recommendations from the four topic working groups will be evaluated by the main working group, which will then develop a comprehensive report to be issued by early 2023.

For any questions or comments, please contact Cyrena Thibodeau at Cyrena.Thibodeau@ct.gov or 860-895-3094.

Want to learn more about racial equity? Sign up for the Food Solutions New England (FSNE) 21-day racial equity habit-building challenge from April 4-24, 2022. For more information or to sign up at no cost, click here.
CONNECTICUT DEPARTMENT OF AGRICULTURE WARNS POULTRY PRODUCERS OF HIGHLY PATHOGENIC AVIAN INFLUENZA

Connecticut Department of Agriculture (CT DoAg) advises all poultry owners that United States Department of Agriculture's Animal and Plant Health Inspection Service (APHIS) has confirmed the presence of highly pathogenic avian influenza (HPAI) in a non-commercial backyard flock (non-poultry) in the Atlantic Flyway which has affected commercial and backyard flocks in Nova Scotia, Indiana, Kentucky, Virginia, Michigan, New York, Delaware, and Maine.

CT DoAg officials have been reaching out to poultry and egg farms across the state to ensure best practices are being implemented and will continue to do so as part of the state and federal surveillance program.

Anyone involved with poultry production from the small backyard to the large commercial producer should review their biosecurity activities to assure the health of their birds. APHIS has materials about biosecurity, including videos, checklists, and a toolkit available at https://www.aphis.usda.gov/aphis/ourfocus/animalhealth/animal-disease-information/avian/defend-the-flock-program/dtf-resources/dtf-resources.

With the detection of avian influenza in a backyard flock on Long Island, Connecticut Department of Agriculture, Commissioner of Agriculture, Bryan P. Hurlburt said, “Now is the time for all poultry owners in Connecticut to take this risk seriously. Connecticut has a thriving commercial poultry industry and thousands of hobbyists who keep chickens, ducks, and other poultry. It is important that we do all we can to protect our birds.”

Action steps for backyard flocks include:

- Protect flocks from coming into contact with wild or migratory birds, bring your birds inside
- Restricting access to your property and your flock
- Clean and disinfect your clothes, shoes, equipment, and hands
- Don’t haul disease home if you have been near other birds or bird owners
- Don’t risk disease from your neighbor (do not borrow equipment and poultry supplies from other bird owners)
- Know the warning signs
As we get into warmer weather in late spring the risk should subside, but for now poultry should not be allowed outside to eliminate contact with wild birds, and especially wild waterfowl.

Signs of avian influenza include sudden increase in bird deaths, sneezing, coughing, nasal discharge, watery or green diarrhea, lack of energy, poor appetite, drop in egg production, swelling around the eyes, neck, and head, and purple discoloration of wattles, combs, and legs. To report sick birds, unexplained high number of deaths, or sudden drop in egg production, contact the State Veterinarian at 860-713-2505 or ctstate.vet@ct.gov or the USDA at 866-536-7593.

Avian influenza does not present an immediate public health concern. No human cases of these avian influenza viruses have been detected in the United States. As a reminder, the proper handling and cooking of poultry and eggs to an internal temperature of 165˚F kills bacteria and viruses.

COVID-19 RESOURCES

- CT COVID-19 Knowledge-Base: COVID-19 resource to answer your questions on self-tests, testing sites, and more.
- Self-Test Page: Information about self-tests.
- CT COVID-19 Response: Current information including data tracker, testing and vaccine sites, reopening guidance and more.

Agriculture businesses, non-profits, and other organizations should follow the sector rules that apply to them. Private business owners can implement or continue to require social distancing and other measures as deemed necessary.

Find the most current sector rules guidance at www.ct.gov/coronavirus.

The Department of Agriculture has archived information from various sources related to COVID-19, which can be found here: https://portal.ct.gov/DOAG/Commissioner/Commissioner/COVID-19-Resources-for-Farmers.

REGISTER FOR ON-FARM MOBILE VACCINATION SITE

Farms interested in hosting a mobile vaccination clinic for farm employees are encouraged to fill out the DPH vans intake form.

2022 AGRICULTURE APPLICATIONS NOW OPEN TO EXHIBIT AT THE CONNECTICUT BUILDING AT BIG E

The Connecticut Department of Agriculture (DoAg) is now accepting vendor applications for the agriculture booth spaces in the Connecticut Building at The Big E, September 16-October 2, 2022, with the purpose of providing Connecticut farms, small agricultural businesses, and agricultural non-profit organizations the opportunity to market and promote their products and/or service.

This is a unique opportunity for agricultural businesses, non-profits, and other entities with an agricultural mission to showcase the diversity of Connecticut agriculture to over one million attendees who come through the Connecticut Building. Connecticut Day will take place on Wednesday, September 21, 2022, and Harvest New England Day will be held on Friday, September 30, 2022.

Interested applicants are encouraged to review the exhibitor guidelines, and submit a completed application by 4:00 p.m. on Friday, March 25, 2022. Licensed Connecticut farm wineries interested in having their wines available by the glass will be receiving a separate application to participate.

Guidelines and Application here.

For more information, please contact Rebecca Eddy at Rebecca.Eddy@ct.gov, or 860-573-0323.

CONNECTICUT AGRICULTURE DAY RETURNS IN PERSON

The Connecticut Agricultural Information Council (CAIC) announces that Connecticut Agriculture Day will be held on Friday, March 25, 2022, in-person at a new location due to current restrictions still activated in the Capitol. Ag Day will be held at the Governor William A. O’Neill State Armory, 360 Broad Street, Hartford, CT, from 10:00 a.m. to 1:00 p.m.

Agricultural non-profits, agricultural producer associations, agricultural cooperatives, federal and state agricultural agencies, and Connecticut municipalities are invited to register for a tabling space and encouraged to offer
For more information on participating in Ag Day, contact Rebecca Eddy at Rebecca.Eddy@ct.gov or 860-573-0323.

BEER, WINE, AND SPIRITS BUYERS MISSION

Are you seeking new growth opportunities for your business? The Connecticut Department of Agriculture partners with Food Export USA–Northeast (Food Export–Northeast), a non-profit organization that assists U.S. companies looking to start or expand export sales. Through this partnership, we aim to maximize your success through programs and services in Export Education, Market Entry, and Market Promotion.

Food Export Northeast provides market intelligence, education, assistance, tools, and financial support for novice to seasoned U.S. food companies that help them find growth opportunities and build dynamic export strategy programs to achieve international success.

Currently, we are seeking Connecticut companies for participation in the Beer, Wine, and Spirits Buyers Mission at the National Restaurant Association Show taking place in Chicago on May 22, 2022. Hosted by Food Export Midwest in partnership with the National Restaurant Association the show attracts over 4,000 exhibitors and 40,000 attendees and is your opportunity to develop and expand your business with international buyers who have expressed interest in a variety of U.S. products, including wine, beer, spirits, and cocktail ingredients.

You'll have the opportunity to meet with up to eleven (11) pre-qualified buyers from around the world in pre-arranged, one-on-one meetings right here in the U.S., generate new sales leads, and build relationships with key industry players! It's the perfect low-cost opportunity to meet qualified buyers from around the world in one place!

The early registration fee is $300.00 and you must have a National Restaurant Association Show badge to participate in this Buyers Mission.

For questions or more information, please contact Erin Windham with the Connecticut Department of Agriculture at Erin.Windham@ct.gov or 860-519-6083.
All fruit, vegetable, and honey producers selling at Certified Connecticut Grown Farmers’ Markets must be certified with the Connecticut Department of Agriculture’s Farmers Market Nutrition Program (FMNP). To be certified, producers must attend a certification meeting.

The certification allows farms to accept the FMNP checks for fresh fruits, vegetables, and honey from WIC clients and income-eligible seniors over the age of 60. Join us to get your certification, learn more about available grant funding for your farm, and accepting SNAP to expand your sales.

The final certification has been scheduled for Thursday, March 3, 2022, from 8 a.m. to 10 a.m., and will be held virtually.

Registration is now open at https://bit.ly/3DeYRLO. Please register at least 24 hours in advance of the meeting.

If you would like to certify but are unable to attend or have questions please contact Erin Windham directly at Erin.Windham@ct.gov or 860-519-6083 or Allison Hughes at Allison.Hughes@ct.gov or 860-500-8918.

Specialty Crop Block Grant Now Open

CONNECTICUT SPECIALTY CROP BLOCK FUNDING OPPORTUNITY

The Connecticut Department of Agriculture (DoAg) is now accepting applications for the United States Department of Agriculture (USDA) Specialty Crop Block Grant Program (SCBGP) for the 2022 program year. Funding priorities include strengthening and improving food systems, improving food security and food safety, and implementing controlled environment agriculture.
Eligible applicants include commodity groups, agricultural organizations, colleges and universities, municipalities, state agencies, and agricultural nonprofits. Projects must benefit the industry as a whole and not a single organization, business, or commercial product. As a result, individual farms or businesses are encouraged to apply and partner with other eligible applicants rather than apply themselves. This is a reimbursement grant with awards up to $99,999.

The goal of the Specialty Crop Block Grant Program is to solely enhance the competitiveness of specialty crops in domestic and foreign markets. Specialty crops are defined as any fruit or vegetable, tree nuts, dried fruits, horticulture, and nursery crops, including floriculture. Also included is honey, maple syrup, Christmas trees and processed foods/food products which are made of at least 50% specialty crops (excluding added water). An eligible plant must be intensively cultivated and used by people for food, medicinal purposes, and/or aesthetic gratification to be considered a specialty crop.

For more information on the Specialty Crop Block Grant Program, please visit the website, [http://www.ctgrown.gov/grants](http://www.ctgrown.gov/grants) and click on Specialty Crop Block Grant Program, or contact Rebecca Eddy at Rebecca.Eddy@ct.gov or 860-573-0323.

**CROP GROWERS**

Your first choice for crop insurance.

**SPRING CROP SALES CLOSING**

The deadline to insure spring crops in the northeast for the 2022 crop year is March 15, 2022. Insurable spring crops include field and vegetable crops such as corn, soybeans, barley, oats, fresh market sweet corn, cabbage, processing beans, processing sweet corn, dry beans, green peas, fresh market beans, tomatoes, tobacco, and potatoes. Coverage availability varies by county. Visit CropGrowers.com to view individual crop fact sheets for more information.

To protect your investment in the 2022 crop, spring crop producers should contact their Crop Growers agent well in advance of the March 15 deadline. Let your agent know of any changes in your entity and they will update you of any changes to the crop insurance policy.

**2022 FARM TRANSITION GRANT AVAILABLE**

The 2022 Farm Transition Grant (FTG) is now available at www.CTGrown.gov/grants. **Applications will be accepted until March 8, 2022, at 4:00 p.m.**

The 2022 program will again provide matching funds to Connecticut farmers and agricultural cooperatives for the diversification of existing farm operations, transitioning to value-added agricultural production and sales, and other venues in which a majority of products sold are grown in the state.

Grant guidelines and forms can be found at www.CTGrown.gov/grants. Additional detail on match requirements and eligible expenses can be found in...
NRCS ANNOUNCES URBAN AGRICULTURE INITIATIVE IN CONNECTICUT

Thomas L. Morgart, State Conservationist for the USDA-Natural Resources Conservation Service, has announced the agency is rolling out its Urban Agriculture Initiative in Connecticut and will be accepting applications for FY2022 funding through March 18, 2022.

Urban agriculture pioneers are taking action in their communities growing not only fresh, healthy produce, but increasing opportunity and knowledge and improving the beauty of their neighborhoods. Through this initiative, NRCS will help urban farmers care for the natural resources on their land – soil, water, air, plants, and animals by addressing soil health, irrigation and water conservation, weeds and pests, and high tunnels.

For more information visit the link below.

ADD YOUR BUSINESS TO CT GROWN MAP

The Department of Agriculture, in coordination with CT NOFA, offers a variety of online listings on the CT Grown Map page. All agricultural businesses, farm stands, and farmers' markets are welcome to apply. There is no fee to participate and applications are accepted year round. To apply to be listed, visit the CT Grown Map Google Form.
