Facilities:
The special education teachers, pupil services specialists (School Psychologists, School Counselors, School Social Workers), and the associated clerical and durational staff provide services to students with handicapping conditions which interfere with their ability to participate in school. These services are mandated by federal (Individuals with Disabilities Education Act Amendments of 1997) and state (Connecticut General Statutes 10-76) statute. Special education services encompass a broad array of activities including assessment, counseling, transition planning, and both the direct and indirect (e.g. consultation) services of the special education teachers and pupil services staff. Student programs are designed according to the individual needs of each student with disabilities and are specified in an Individualized Education Plan (IEP.) A social skills component is a part of the special education program.
