*Description:*

Healing Trauma was developed by Stephanie Covington LCSW. It is a 6-session trauma intervention group designed for women who have been abused. Each session runs for approximately 2 hours and is best facilitated in groups of 10-12 members in a sequentially closed group. The curriculum is available in both English and Spanish.

There are 4 session topics which include the process of trauma, power and abuse, grounding and self-soothing, and healthy relationships. There is a strong emphasis on grounding skills. Healing Trauma is particularly designed for settings requiring a shorter intervention. The 6-session curriculum allows young adults and women to have a treatment-oriented program, to include the three core things that both staff and group members need. This includes an understanding of what trauma is, its process and the impact that trauma has on both the inner self (thoughts, feelings, beliefs and values) and the outer self (behavior and relationships).

*Description:*

The Project comes to life through correspondence(letters) between ad FGN staffer or volunteer and an offender, also known as the gardener. Their letters articulate to the FGM what kind of flowers or plants are grown in the garden bed, which is located at the FGM. The gardens become extensions of the offender in the community - creative and positive expressions of beauty and healing that volunteers enact on behalf of the gardener. The size and layout of Artist Jackie Sumell's plot echoes prison cells with "fixtures" made from biodegradable materials that will disappear over time as the plants and flowers mature. The artist focuses her work on the effects of the prison and is interested in the empathy the gardens can help cultivate for the incarcerated.

These services are mandated by federal (Individuals with Disabilities Education Act Amendments of 1997) and state (Connecticut General Statutes 10-76) statute. Special education services encompass a broad array of activities including assessment, counseling, transition planning, and both the direct and indirect (e.g. consultation) services of the special education teachers and pupil services staff. Student programs are designed according to the individual needs of each student with disabilities and are specified in an Individualized Education Plan (IEP.) A social skills component is a part of the special education program.
