115.213 (a)

For each facility, the agency shall develop and document a staffing plan that provides for adequate levels of staffing, and, where applicable, video monitoring, to protect residents against sexual abuse. In calculating adequate staffing levels and determining the need for video monitoring, agencies shall take into consideration:

- (1) The physical layout of each facility;
- (2) The composition of the resident population;
- (3) The prevalence of substantiated and unsubstantiated incidents of sexual abuse; and
- (4) Any other relevant factors;

The facility's staffing plan is predicated upon a rated capacity of 23 residents and is based upon the contract with the Connecticut Department of Correction. The contract specifies each of the positions the facility is authorized and the staffing has been determined by the funding source to be adequate for the mission of this program.

State of Connecticut Purchase of Services Contract with (Department of Correction) and The Connection, Inc. Original Contract #18DOC0121AA page Section 15. Staffing Requirements page 11 states, the contractor (TIC) will provide 24/7 on-site supervision of residents. The staff matrix submitted with The Connection Inc.'s Proposal (hereinafter Proposal) to the Department's RFP #DOC-RES-17-LB, which is on file with the Department, provides the staffing, patterns, and schedule to be maintained for the duration of this State fiscal year unless otherwise authorized by the Department.

The Staffing Matrices are established by the funding source however the funding source is open to suggestions based on the agency's on-going assessments of their needs. The Program Director related the staffing matrix is submitted every year and again, if the agency has changes to recommend that agency does give careful consideration to the justifications for the requests.

The facility has cameras to supplement supervision of residents. These are located in halls and in the gym and may be viewed in the main staff office. To help eliminate blind spots to assist in monitoring during security and PREA Rounds, the facility has removed the door to the kitchen storage room to enable easy viewing, a laundry room has a window in the door and large windows, again to aid in supervision.

Central Office: Agency PREA coordinator question, when assessing adequate staffing levels and the need for video monitoring, please explain if and how the facility staffing plan considers: The staffing plan minimum requirements are determined by the funder. The number of clients in the program will determine the minimum number of staff that should remain on the floor at all times. The minimum staff requirements can never be deviated from so the Program Manager will always ensure that the minimum staff are present on the program floor. The facility has video monitoring in blind spots throughout the program and continue to add cameras as money becomes available. Staff complete hourly headcounts/rounds as an additional means of supervision.

115.213 (b)

In circumstances where the staffing plan is not complied with, the facility shall document and justify all deviations from the plan.

The facility staffing plan is based on the contract with the funder. In circumstances where the staffing plan is not complied with, the facility document and notifies the funder of deviations.

115.213 (C)

Whenever necessary, but no less frequently that once each year, for each facility shall assess, determine, and document whether adjustments are needed to:

- The staffing plan established pursuant to paragraph (a) of this section;
- Prevailing staffing patterns;
- The facility's deployment of video monitoring systems and other monitoring technologies; and
- The resources the facility has available to commit to ensure adherence to the staffing plan.

Central Office: Agency PREA coordinator question, if the staffing plan for the facility is reviewed at least once every year, are you consulted regarding any necessary adjustments? Yes, the staffing plan is reviewed annually and if there was a question or adjustment regarding the PREA standards and staffing the agency PREA coordinator will be consulted.

The agency shall take appropriate steps to ensure that residents with disabilities (including, for example, residents who are deaf or hard of hearing, those who are blind or have low vision, or those who have intellectual, psychiatric, or speech disabilities), have an equal opportunity to participate in or benefit from all aspects of the agency's effort to prevent, detect, and respond to sexual abuse and sexual harassment. Such steps shall include, when necessary to ensure effective communication with residents who are deaf or hard of hearing, providing access to interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary.

An agency is not required to take actions that it can demonstrated would result in a fundamental alteration in the nature of a service, program, or activity, or in undue financial and administrative burdens, as those terms are used in regulations promulgated under title II of the Americans with Disabilities Act, 28 CFR 35.164.

The Connection, American with Disabilities Policy and Procedure, asserts and affirms the agency will comply with the Americans with Disability Act (ADA). 7.0, Responsibilities and Procedures requires that staff, to ensure effective communication with clients/residents who are deaf or hard of hearing, The Connection Inc. (TCI) will provide access to interpreters who can interpret both effectively, accurately and impartially both receptively and expressively, using any necessary specialized vocabulary. sexual victimization or risk of sexually abusing other resident within 72 hours of their intake? No, screening occurs within 24 hours.

115.241 (c)

Such assessments shall be conducted using an objective screening instrument.

The assessment process used by The Connection, Inc. PREA programs, consists of administering the PREA Client Self-Assessment Questionnaire and the Risk for Sexual Victimization or Abusiveness Tool. These are administered in private and staff have been provided a PREA Introduction Script to guide the instruction process and to explain the purpose of the assessment.

115.241 (d)

The intake screening shall consider, at a minimum, the following criteria to assess residents for risk of sexual victimization:

- Whether the resident has a mental, physical, or developmental disability;
- The age of the residents;
- The physical build of the resident;
- Whether the resident has previously been incarcerated;
- Whether the resident's criminal history is exclusively nonviolent;
- Whether the resident has prior convictions for sex offenses against an adult or child;
- Whether the resident is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender nonconforming;
- Whether the resident has previously experienced sexual victimization;
- The residents own perception of vulnerability; and
- Whether the resident is detained solely for civil immigration purposes?

The Risk for Victimization or Abusiveness Tool addresses Potential Victim Factors and Potential Predatory Factors. The Potential Victim Factors address the following that is based on a review of the client's file:

- Youthful age (under 25 or elderly age (over 65));
- Physical size;
- First incarceration;
- Physical, Mental or Intellectual Disability; and
- Criminal history is exclusively non-violent crimes.

These factors are addressed based on an interview and review of the client self-assessment:

- Former victim of rape or sexual assault;
- Gay, Lesbian, Bi-sexual, Intersex or Transgender;
- History of sexually abusing others;
- History of institutional sexual activity;
- History of suicidal ideation; and
- Victimized vulnerable individuals.

The score guide provides that if an individual answers yes to question #6 they are scored as a Known Victim. Also, if the resident scores a score of 7 or more they are rated as a potential victim and if they score 6 or less, they are scored as low victimization risk.

The Potential Predatory Factors include these based on a review of the client's file:

- Criminal history includes sexual abuse and/or assault;
- Criminal history includes violent crimes;
- History of institutional disciplinary segregation/tickets;
- Criminal history includes domestic violence; and
- Gang Affiliation.

These factors are based on an interview and review of the client self-assessment:

- History of institutional sexual assaultive behavior;
- History of institutional extortion;
- History of Institutional sexual activity;
- History of being sexually assaulted (as the victim); and
- History includes victimizing vulnerable individuals.

If the respondent endorses question #1, the client is scored as a known predator. If he scores 6 or more total points, he is scored as a potential predator and if he scores 5 or less, he is scored as a low predatory risk.

Facility Staff: Staff who perform PREA screening for risk of victimization response to, what does the initial risk screening consider? It considers the client's mental health; their sexual orientation and/or if they have been a former victim or predator of sexual abuse. The PREA screening instrument includes all the requirements of the PREA standards and agency policy.

Facility Staff: Staff who perform PREA screening for risk of victimization response to, what is the process for conducting the initial screening? The client is informed what PREA is and the agency's policy regarding it. Then the client is asked a series of questions that are PREA related from the "scripted" Risk Screening Form.

115.241 (e)

The intake screening shall consider prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse, as known to the agency, in assessing residents for risk of being sexually abusive.

Resident Interviews: Total of eleven (11) residents, nine (9) random and two (2) targets was interviewed. Resident were asked, when you first came here, do you remember whether you were asked any questions like:

- Whether you had been in jail or prison before? 100% said yes.
- Whether you have ever been sexually abused? 100% said yes.
- Whether you identify as being gay, lesbian, or bisexual? 100% said yes.
- Whether you think you might be in danger of sexual abuse at this facility? 90% said yes, and 10 % said they cannot remember.

See Section (d) response.

115.241 (f)

Within a set time period, not to exceed 30 days from the resident's arrival at the facility, the facility will reassess the resident's risk of victimization or abusiveness based upon any additional, relevant information received by the facility since the intake screening.

Staff also considers these things during the process:

- Body language;
- Perceptions of being gay, bi-sexual, gay or transgender;
- Age;

Facility Staff: Staff who perform PREA screening for risk of victimization response to, do you reassess a resident's risk level as needed due to a referral, request, incident of sexual abuse, or receipt of additional information that bears on the resident's risk of sexual victimization or abusiveness? Yes, the process is completed within 30 days.

See Section (d) response.

115.241 (h)
