Historical Background

In June of 1969 the Connecticut General Assembly enacted legislation formerly establishing Unified School District #1 (USD#1) as the legally vested school district within the Connecticut Department of Correction (DOC). From a small and limited beginning, the district has grown to be a comprehensive and dynamic component of the Agency's Programs and Treatment Unit. Today, USD#1 is a national leader in correctional education with approximately 144 employees in 14 facilities across Connecticut. Unified School District #1 continues to be responsive to the needs of our students with a focus, not only on academics and career-technical education, but on social emotional learning (SEL) which has a direct impact on our students' learning abilities.

General Information

Unified School District #1 remains dedicated to providing quality educational programming that meets the needs of its incarcerated population and prepares them to successfully transition back to society. Best practices and evidenced-based research are the foundations that support academic knowledge, vocational competencies, life skills development, multiculturalism, and technology awareness in a positive, and growth-oriented environment that prepare students to be life-long learners.

Educational programming is flexible enough to accommodate a variety of learning styles, yet designed to provide the essential structure necessary to support the orderly assimilation of academic, social, and emotional skills on a daily basis. Educational programming is designed to provide essential opportunities to offenders while supporting the specific needs of each facility and the mission of the Connecticut Department of Correction. There are approximately 54% of inmates within the Department of Correction who do not hold a High School Diploma or GED. The average skill level of students upon entry into a school program is between the 4th and 5th grade.

While not all programs are available in each facility, throughout the district USD#1 offers a K-12 High School Program, Adult Basic Education (ABE), General Education Development (GED), Credit Diploma Program (CDP), English as a Second Language (ESL), and a wide variety of Career-Technical Education (CTE) programs. Additionally, certified educators provide opportunities for students to explore other topics vital to their personal growth and development. The talented and dedicated professionals in USD#1 are grounded in the knowledge that recidivism is reduced by helping offenders become educated and mature citizens who transition from prison as positive and responsible contributors to the larger community.

Organization

The Commissioner of the Connecticut Department of Correction is designated as the Chairperson of the school board for Unified School District #1. The authority to administer, organize, manage, and supervise the daily operations of the district is the responsibility of the Superintendent of Schools who may further delegate this authority to other school administrators and staff, as necessary. In addition to assigned responsibilities, USD #1 has a Director of Special Education who oversees, monitors and directs the special education programming at all sites.

The Superintendent is responsible for: (1) Maintaining oversight and compliance with Agency and State Department of Education policies, procedures and regulations, (2) Developing and implementing progressive district school improvement projects and managing the operational needs of all schools in USD#1, and (3) Implementing measures to evaluate the effectiveness of teaching and learning as well as providing support and guidance about education to the Commissioner and his executive team. The Superintendent is also responsible for hiring, retention, and termination decisions for the school staff in collaboration with Human Resources.

Under the guidance and leadership of the Superintendent, the USD#1 administrative team supports the effective operation of the district. USD#1 employs both certified educational staff and direct and indirect support staff employees in a variety of settings.

All professional staff members are CT State certified and must maintain their certification to ensure compliance with Connecticut State Department of Education certification requirements. Ongoing professional development opportunities are provided to all certified staff in accordance with best practices. All professional development is founded upon the principle of results-based accountability and focused on improving school effectiveness and achievement for all students in USD#1.
