

Questions and Answers regarding 2025-2029 ConPlan RFP

1. Would CT DOH consider waiving the requirement to submit a flash drive or equivalent media and accept a proposal that is submitted solely electronically?
 - a. **DOH is unwilling to waive this requirement. We prefer to have a backup, such as a flash drive, in the off chance that a file is corrupted or not in a format that we can access.**
2. What is CT DOH's expectation around in-person meetings and the split between remote and in-person work?
 - a. **We don't have any set expectations, but your proposal should address what you believe will be most effective, given your company's capacity. As is, we operate in a hybrid environment.**
3. Can CT DOH please provide an updated section II. K. Timeline with any revised dates on written answers to questions, tentative meetings, contract selection, etc.?
 - a. **We posted an updated notice a few weeks ago with modified dates:**
<https://portal.ct.gov/-/media/DOH/Updated-Notice.pdf>
 - b. **If this link doesn't work, you can find it on CT DOH's website, in the funding opportunities section underneath the original RFP.**
