Update of Stewardship Implementation Manual (July 2019)

This bulletin announces the approval and availability of an updated (July 2019) Stewardship & Oversight Implementation Manual.

The Implementation Manual provides details for applying the general assignment of roles and concepts set forth in the Stewardship and Oversight (S&O) Agreement between the Federal Highway Administration (FHWA) and Department. The S&O Agreement is included in the Implementation Manual as Appendix F. No hard copies will be distributed.

The only change to the updated document is to add Commissioner Joseph Giulietti as the signature to the boiler plate Stewardship and Oversight agreement contained in Appendix F and to update the listed membership of the CONNDOT/FHWA Stewardship and Oversight Standing Committee.

- Adds a new chapter on Asset Management and Performance Measures.
- Makes minor changes to the Environmental tables and the Safety chapter narrative.

The July 2019 version of the Stewardship & Oversight Implementation Manual is effective immediately.
