CT 2015 MOTORCYCLE SAFETY OVERVIEW

Motorcycle Safety

Performance Goals:

To decrease the number of un-helmeted fatalities below the five year (2008-2012) moving average of 31 in 2012 by 5 percent to a five year (2012-2016) projected moving average of 29 in 2016.

To decrease the number of fatalities below the five year (2008-2012) moving average of 49 in 2012 by 5 percent to a five year (2012-2016) projected moving average of 46 in 2016.

To decrease the percentage of fatally injured motorcycle operators with BACs greater than 0.00 below the five year (2008-2012) moving average of 41 percent in 2012 by 5 percent to a five year (2012-2016) projected moving average of 39 percent in 2016.

The following activities took place as part of the Motorcycle Safety program to meet the above goals/targets. The target(s) was/were met/not met for the following reasons:

The general goal of Connecticut's Motorcycle Safety Program is to reduce the number of injuries and deaths among motorcycle operators and passengers. The latest available data from 2014 indicates that the three year moving average of un-helmeted fatalities is 26. During the same time period, the three year moving average for fatalities was 51. Un-helmeted fatalities over the last three years have shown an increase while overall motorcycle fatalities has increased slightly in relation to total fatalities at 21 percent (54 out of 250). Data also indicates that in 2014, 30 percent of the fatalities tested had a BAC greater than 0.00. The Connecticut Rider Education Program (CONREP) is the state's primary countermeasure to combat death and serious injury.

List any follow up action that will be taken to achieve targets in the future:

These goals will be achieved by continuing existing, and working toward expanding, motorcycle rider education programs, specifically the CONREP (Connecticut Rider Education Program). Addressing attitudes and operational skills through a targeted media campaign, including promoting helmet use by all riders (not just those young riders currently covered under existing law), and including motorcyclists in the planned emphasis on reducing impaired driving.

The summary of Motorcycle Safety program activity for the 2015 Federal Fiscal Year is listed below:

Activities:

Project Title: Motorcycle Safety Program Administration

Administrative Oversight: Department of Transportation, Highway Safety Office

Staff Person: Nicholas Just

This task included the coordination of activities and projects outlined in the motorcycle safety program area, statewide coordination of program activities, development and facilitation of public information and education projects, and providing status reports and updates on project activity to the Transportation Principal Safety Program Coordinator and the NHTSA Region 1 Office. Served as a direct line of communication between the HSO and Community College system that administers the CONREP, including assisting in annual activity proposals and voucher reimbursement. This task and associated project was specifically meant for in-house management of the motorcycle safety program. Funding was provided for personnel, employee-related expenses, overtime, professional and outside services including facilities and support services for the required annual instructor update. Technical assistance and Rider Coach Trainer services were provided to update the CONREP to the newest MSF curriculum as well as institute a 3-wheel training program. This project included travel to the in-state training facilities for project monitoring, requests for support and out-of-state travel to the annual State Motorcycle Safety Administrators Summit in Baltimore, Maryland.

Fund	Project number	Agency	Title	\$ Amount
402	0195-0701-AA	CT-DOT/HSO	Motorcycle Safety Program Administration	\$45,936.62

Project Title: Connecticut Rider Education Program (Training) Administration

Administrative Oversight: Department of Transportation, Highway Safety Office

Staff Person: Nicholas Just

Rider training is the primary countermeasure applied to reaching the performance goal of decreasing the total number of motorcycle fatalities and decreasing the number of un-helmeted fatalities. During Fiscal Year 2015, DOT's Connecticut Rider Education Program (CONREP) continued motorcycle rider training at 14 sites locations throughout the state. Each location offered the Basic Rider Course (beginner) including scooters, intermediate Rider Course, and Experienced Rider Course. In 2015 CONREP continued a pilot program offering an additional course targeting advanced and sport bike riders, the Advanced Rider Course (ARC). Preliminary data for 2015 indicates that 4997 students were enrolled in 489 Connecticut Rider Education Program Courses. This task provided for the oversight of the CONREP in the following

ways; the training and monitoring of 110 certified motorcycle safety instructors, providing support services to the Connecticut Rider Education Program training sites by, providing range maintenance including but not limited to; range design and quality assurance monitoring and technical support services, Motorcycle Safety Foundation(MSF) curriculum materials. Updated and maintained the program's www.ride4ever.org website, which is the programs direct point of contact for course students and license waiver information. A Motorcycle Training Coordinator as well as a data consultant was utilized to accomplish this task, preparing and maintaining project documentation, and evaluating task accomplishments. Funding was provided for personnel, employee-related expenses and overtime, professional and outside services, travel, materials, supplies, and other related operating expenses.

Fund	Project number	Agency	Title	\$ Amount
402	0194-0701-AB	CT-DOT /HSO	CONREP Program Administration	\$82,678.75

Project Title: Expanding Motorcycle Safety Efforts

Administrative Oversight: Department of Transportation, Highway Safety Office

Staff Person: Nicholas Just

This task utilized Section 405(f) funds to expand statewide motorcycle safety efforts. To expand training activities the CONREP recruited and trained potential instructor candidates and purchased supplies including MSF curriculum materials to support motorcycle training activities, as well as curriculum needed to begin our new 3-wheel training program.

Fund	Project number	Agency	Title	\$ Amount
405(f)	0194-0744-AB	CT-DOT/HSO	Expanding Motorcycle Safety Efforts	\$6,657.32

Total Amount of funds expended in this program area:

There was \$6,657 in 405(f) funds spent in this program area during FFY2015.

There was \$128,614.97 in 402 funds spent in this program area during FFY2015.

Graph 1

Graph 1 shows Connecticut's motorcyclist fatalities. Both the number of fatalities as well as unhelmeted fatalities are shown. There were 54 motorcyclist fatalities in 2014, 31 of which were unhelmeted. The graph data has been updated to reflect current numbers and may not correspond with some previously reported data.

2015 HSP Goal(s):

To decrease the number of motorcyclist fatalities below the five year (2008-2012) moving average of 49 in 2012 by 5 percent to a five year (2012-2016) projected moving average of 46 in 2016.

To decrease the number of un-helmeted fatalities below the five year (2008-2012) moving average of 31 in 2012 by 5 percent to a five year (2012-2016) projected moving average of 29 in 2016.

Outcome:

Both measures have fluctuated over the reporting period but show a slight decrease in their five-year moving averages. The five-year moving average for motorcycle fatalities for 2010-2014 is 50 and the five-year moving average for unhelmeted fatalities for the same period is 28.

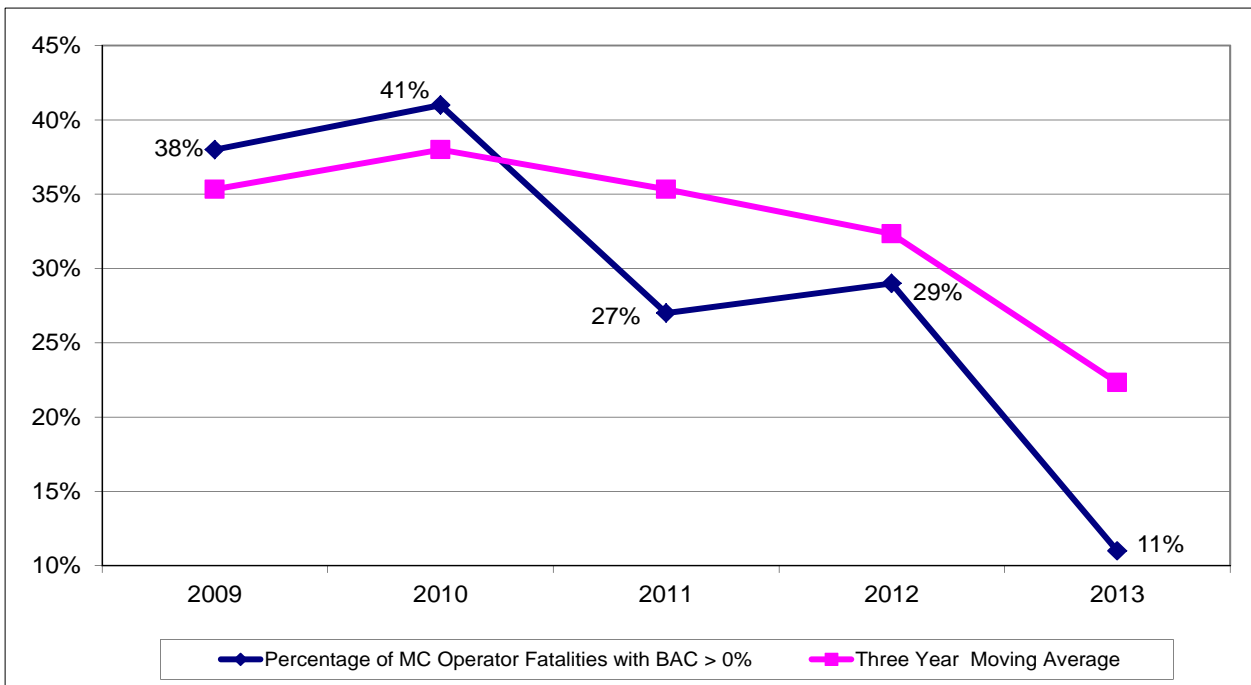

Please note that data in this Report is sourced from the preliminary 2014 Connecticut FARS Annual Report file. The data will be updated again in accordance with NHTSA-FARS standards and changes may be reflected during this update.

Graph 2

Graph 2 shows Connecticut's motorcyclist fatalities with a Blood Alcohol Content (BAC) greater than zero; 11* percent of all fatally injured motorcyclists had a positive BAC in 2013*. The graph data has been updated to reflect current numbers and may not correspond with some previously reported data.

2014 HSP Goal(s):

To decrease the percentage of fatally injured motorcycle operators with BACs greater than 0.00 below the three year (2009-2011) moving average of 42 percent in 2010 by 5 percent to a three year (2013-2015) projected moving average of 40 percent in 2015.

Outcome:

*The preliminary value of 11% is under-reporting the number of motorcycle operators killed with a BAC greater than zero. This number is expected to increase as FARS cases are finalized. The 2012 value of 29% is likely to increase as well.

Please note that data in this Report is sourced from the preliminary 2013 Connecticut FARS Annual Report file. The data will be updated again in accordance with NHTSA-FARS standards and changes may be reflected during this update.
