Total Funding	\$ 60,450,000	\$ 5,750,000	\$ 5,000,000	\$ 14,500,000	\$ 18,500,000
Programmed for Committed Projects	\$ -	\$ -	\$ -	\$ -	\$ -
Programmed for Newly Authorized Additional State Funding	\$ 31,750,000	\$ -	\$ -	\$ -	\$ -
Year-end Carryover	\$ -	\$ -	\$ -	\$ -	\$ -

Note: For the Highways and Transit Federal funding amounts, it is assumed funding will be level with the FY 2013 amounts.

For Transit - Federal funding levels decline in 2016 as a result of the final FFGA commitments associated with Ctfastrak occurring in 2015

State funding levels are based on actual SFY 2013 amounts; however we do not assume the continuation of Fix-it-First Roadway and Bridge funds past 2015.

No additional Federal or State funding, beyond previously authorized amounts are assumed for the Maritime program.

Note: Any funding not fully utilized in a year is carried forward into the next fiscal year for programming. This carry forward of funds is why funding appears greater in some years than others, although level federal and state funding is assumed. Also of note is that while no additional federal earmark funds are assumed, those previously authorized are included in the year in which the project is anticipated to commence. This causes the Highway Federal Funding to fluctuate in the next couple of years.

Note: A designation of "committed" is meant to identify those projects for which the Department proposes that funding is non-discretionary in nature. Examples of such projects are projects specifically identified in federal legislation (earmarks), State legislated projects, projects for which previous phases of work have already begun, projects obligated in the Federal Highway Administration's federal aid system or under awarded Federal Transit Administration grants, or State or federally mandated programs.
