<u>Connecticut Department of Transportation</u> <u>Prequalification Submissions Instructions for 2023</u>

General Information

The Connecticut Department of Transportation (Department) prequalifies consulting firms annually in accordance with Connecticut General Statutes, Section 13b-20e et seq. In order to become technically prequalified to provide consulting services for the Department in any calendar year, firms must submit the appropriate credentials and qualifications to the Department by October 17th of the previous year.

The Department will analyze all submittals postmarked by the October 17th deadline and, by January 1st, determine those consultants that are qualified to perform services for the Department in each prequalification category.

Only the categories listed on the Prequalification Checklist are considered for prequalification. For all consultant projects that fall under a listed prequalification category, a solicitation will be extended to the firms that are prequalified in that category notifying them of the project needs, and the form and content required for a letter of interest submittal. Only those firms that are prequalified in the particular category, or categories, listed in the solicitation letter, will be eligible to submit a letter of interest. Please be advised that firms must continue to be prequalified in the specified category, or categories, listed in the solicitation letter, for the year a shortlist is finalized and/or a selection is made.

The Connecticut Department of Transportation utilizes a 2-year cycle, wherein applications for prequalification in even calendar years (2020, 2022, etc.), are full applications with all the necessary supporting materials. In the second year of the cycle (prequalification for odd calendar years -2021, 2023, etc.), firms who were prequalified for any categories the previous year will be able to submit a reduced application for those categories.

Prequalification for the 2023 calendar vear will allow for reduced applications for firms who were prequalified in the 2022 calendar vear. Those firms will be able to submit a reduced prequalification application for categories which they were prequalified in for 2022. **It is important to note that regardless of calendar year, the agency will accept prequalification applications from new firms or from firms who are requesting additional categories.**

Instructions for Pregualification Submissions

TAKE THE TIME TO READ THESE INSTRUCTIONS CAREFULLY.

DO NOT USE OLD FORMS FROM PREVIOUS YEARS. Only the submittal forms provided with this year's prequalification documents shall be used. The use of any other form will preclude the firm from being considered for prequalification.
