***DIVISIBLE LOAD PERMITS***

Divisible Load Permits are issued to single-unit dump trucks and to tractor/trailer combination dump trucks specifically for the hauling of **BULK CONSTRUCTION MATERIALS** and **BULK PROCESSED AND RAW PRODUCTS** – see listing of Allowable Materials.

Divisible load permits are issued at the noted gross and axle weight limits to vehicles with the following axle configurations:

| <b><i>VEHICLE TYPE</i></b>                                                                                | <b><i>MAXIMUM PERMIT WEIGHT</i></b> | <b><i>AXLE WEIGHTS</i></b>                |
|-----------------------------------------------------------------------------------------------------------|-------------------------------------|-------------------------------------------|
| <b><u>SINGLE UNIT PERMITTED VEHICLES</u></b>                                                              |                                     |                                           |
| 3 AXLE – LIFT                                                                                             | 53,800 LBS.                         | 22,400 LBS/AXLE                           |
| 3 AXLE – FIXED                                                                                            | 53,800 LBS.                         | EXEMPT                                    |
| 4 AXLE – FIXED<br>(REAR AXLE SPREAD<br>LESS THAN SIX FEET)                                                | 76,500 LBS.                         | EXEMPT                                    |
| 4 AXLE – LIFT AXLE                                                                                        | 76,500 LBS.                         | TANDEM DRIVE AXLES<br>45,000 LBS. MAXIMUM |
| 4 AXLE – FIXED<br>(REAR AXLE SPREAD<br>SIX FEET OR GREATER)                                               | 80,000 LBS.                         | EXEMPT                                    |
| 5 AXLE – 2 LIFT AXLE(S)<br>(REAR AXLE SPREAD 6 FEET<br>OR GREATER WITH A 24 FOOT<br>MINIMUM OUTER BRIDGE) | 80,000 LBS.                         | TANDEM DRIVE AXLES<br>45,000 LBS. MAXIMUM |
| <b><u>TRACTOR AND SEMI-TRAILER COMBINATIONS</u></b>                                                       |                                     |                                           |
| 5 OR 6 AXLE COMBINATION                                                                                   | 80,000 LBS.                         | EXEMPT                                    |

**AT NO TIME CAN VEHICLES EXCEED THE GROSS VEHICLE WEIGHT RATING (GVWR)  
OR THE VEHICLE'S GROSS AXLE WEIGHT RATING (GAWR)**
