The purpose of this meeting is to provide the community an opportunity to learn about the proposed project and allow an open discussion of any views and comments concerning the proposed improvements.

A Question and Answer (Q&A) session will immediately follow the presentation.

The purpose of the project is to address structural deficiencies of Bridge No. 02572 by designing a replacement bridge that meets current design standards and provides a structure that accommodates safe travel for all vehicular traffic.

Right-of-way impacts associated with the proposed project are not anticipated.

Construction is anticipated to begin April 2025 based on the availability of funding, acquisition of rights of way, and approval of permit(s). The estimated construction cost for this project is approximately \$17,000,000. This project is anticipated to be undertaken with 80 percent Federal funds and 20 percent State funds.

Please register for the virtual public information meeting at <http://portal.ct.gov/DOTNewLondon94-264>. Registration is required to participate. Once registered, you will receive a confirmation email with a link to access the meeting.
