

Rate per 100,000 Population and Count of ED Visits for "Suspected Opioid Overdose" Syndrome in Connecticut, by County of Residence, Quarter 3 2018

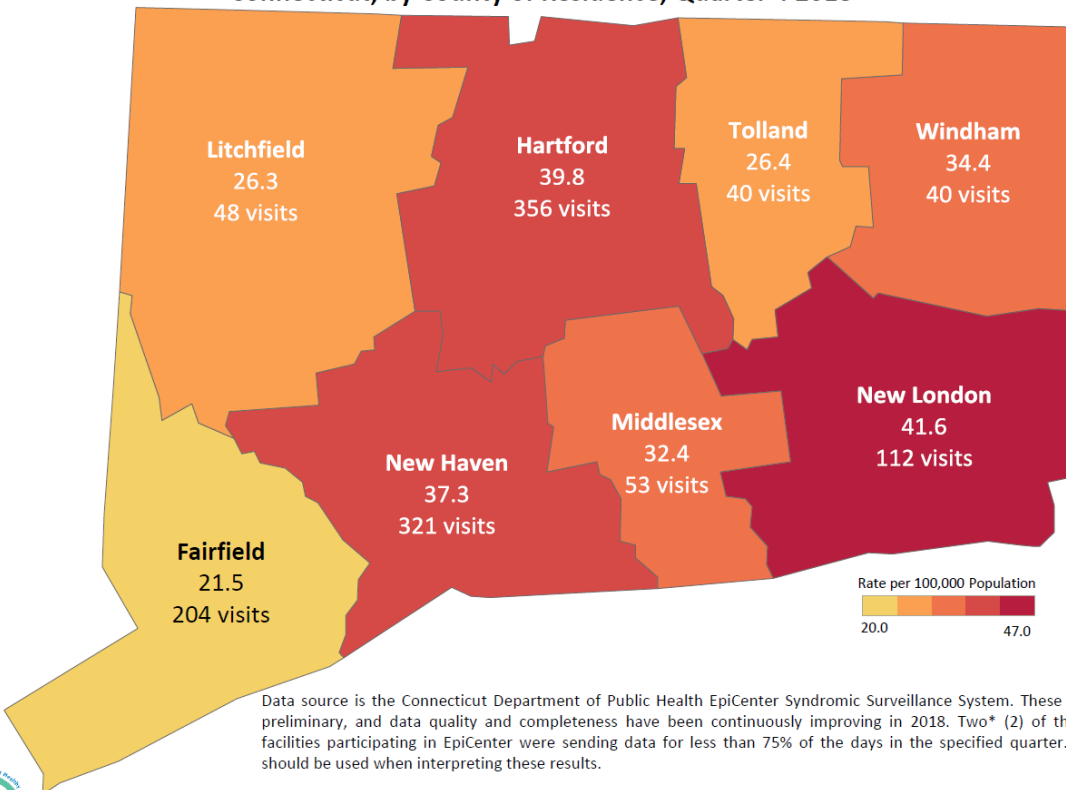

Data source is the Connecticut Department of Public Health EpiCenter Syndromic Surveillance System. These data are preliminary, and data quality and completeness have been continuously improving in 2018. Five* (5) of the 38 ED facilities participating in EpiCenter were sending data for less than 75% of the days in the specified quarter. Caution should be used when interpreting these results.
