

September 1, 2022

This communication is being sent to all providers administering JYNNEOS vaccine – please read this message in its entirety. Please feel free to share it with others in your organization who may benefit from the update. Note that all our communications will be archived on our [website](#).

Dear JYNNEOS Vaccine Providers,

Many thanks to our network of vaccine depots and community providers. Please see important information below.

UPDATES

- DPH has removed the requirement that patients be age 18 or older to be eligible for PEP++. This change will be reflected in the updated eligibility criteria in the provider manual (available online [here](#)) and on the DPH monkeypox vaccination [website](#). A suggested script for screening patient eligibility is now included in the provider manual Appendix E.
- With regard to vaccination of persons under age 18 years, please note [this guidance](#).
- Please update us on your current capacity and demand for appointments by completing [this survey](#) no later than **5pm on Friday, September 2**.

REMINDERS

- Demographic data is important to collect. Please ensure to collect and enter race and ethnicity data into CT WiZ.
- Providers should reconcile their inventory in CT WiZ and submit weekly requests for doses to the Monkeypox@ct.gov inbox by 12pm every Thursday.

Thank you for your ongoing work and support.

If you would like to unsubscribe from these communications, please send an email to dph.immunizations@ct.gov with the subject line “Unsubscribe from monkeypox provider communications.”
